(2) The Overseas allowance set out in column 3 above (which will reckon as pay for all purposes of the Civil Service Regulations) will ordinarily be granted only to officers of non-Indian domicile; but, as an exception to this general rule, all Indian officers now in the Indian Agricultural Service on the full scale of pay will be regarded as eligible for the allowance.

(3) Officers who have been promoted from the Provincial to the Imperial Service on the provisional scale of Rs. 350—35—700 will, for the purpose of drawing future pay, be treated as having been appointed to the Imperial Service on the date on which they were provisionally appointed, but will not draw the overseas allowance. Provincial Service Officers so promoted in future will, on promotion, enter the Imperial Service on a pay at the nearest multiple of Rs. 50 above the pay that they are drawing at the time of

promotion and will thereafter receive increments on the ordinary scale. They will rank for seniority immediately below other officers already in the Imperial Service drawing the same rate of pay.

(4) Free quarters will not be provided.

(5) The selection grade will not be regarded merely as a continuation of the time-scale, but promotion to it will be given as the reward of merit. An officer will be eligible for promotion to the selection grade after having completed 15 years' service. The selection grade will at the outset consist of 15 per cent. of the present sanctioned strength of the service after deducting posts directly under the Government of India, and the number of selection posts to be allotted to each province will be fixed by the Government of India. This allotment will be communicated in due course to local Governments and Administrations who will have complete discretion in making appointments to the selection posts allotted to them. The principles upon which additions will be made to the number of selection posts as the sanctioned strength of the service increases will be determined later.

(6) The appointment of Agricultural Adviser to the Government of India when held by an officer of the Indian Agricultural Service will carry a fixed salary of Rs. 2,750 a month with a rent free house at Pusa. Officers originally recruited to the Agricultural Department on special terms will be regarded as eligible, equally with regular members of the Indian Agricultural Service, for appointment as Agricultural Adviser.

(7) Directors of Agriculture selected from the staff of the Department will in all provinces employing a whole-time Director be placed on a uniform scale of Rs. 2,000—50—2,250. The scale of salary admissible to Directors in other provinces will be considered when the appointment of whole-time officers of the Indian Agricultural Service to these posts is found necessary. Officers originally recruited to the Agricultural Department on special terms will be eligible, equally with regular members of the Indian Agricultural Service, for appointment as Directors of Agriculture.

(8) Principals of Agricultural Colleges will receive an allowance of Rs. 150 a month in addition to their pay under the time-scale.

(9) Officers of the Indian Agricultural Service who hold the posts of Heads of Sections at Pusa, as classified below, or hold other permanently sanctioned posts in those sections will be eligible for special duty allowances, provided that they have completed not less than three years' service or are in receipt of a salary not less than that of an officer in his fourth year of service under the time-scale. Supernumerary officers and the Assistant to the Agricultural Adviser will not be eligible for these allowances. Heads of Sections will draw allowances on the scale of Rs. 200—50—400, but the first increment in this scale will not be admissible before an officer has completed 15 years' service.

For the present the following posts at Pusa will be regarded as Headships of Sections:—

(1) The Imperial Mycologist,
(2) The Imperial Economic Botanist,
(3) The Imperial Agricultural Chemist,
(4) The Imperial Agriculturist,
(5) The Imperial Agricultural Bacteriologist, and
(6) The Imperial Entomologist.

Additions may be made by the Government of India to this list.

The allowances for which officers holding permanent sanctioned posts at Pusa other than Headships in these Sections will be eligible will be at the fixed rate of Rs. 150 per mensem. An officer in receipt of one of these allowances will, on appointment to officiate as Head of a Section, be eligible for the higher allowance of Rs. 200 per mensem in lieu of the allowance of Rs. 150 per mensem. The grant of the allowances mentioned in this sub-paragraph is in each case conditional on approved service. The present graded scale of Pusa allowances is abolished.

(10) Officers of the Indian Agricultural Service, however recruited, will, when serving in Burma, be eligible for a local (Burma) allowance at the normal rates according to salary.

2. Except to the extent mentioned in sub-paragraphs (6) and (7) of the foregoing paragraph, the orders set out above will not apply to officers originally recruited to the Agricultural Department on special terms and who are not borne on the regular cadre of the Indian Agricultural Service. Such officers will continue to serve on the special terms sanctioned in each case.

3. The pay of officers who were members of the Indian Agricultural Service prior to the 1st December 1919 will be regulated according to the following principles. The general rule will be that as from the 1st December 1919 they will receive pay in the new scale according to the length of their total service calculated from the date of commencement of such service. Officers who were originally appointed to the service on an initial pay of more than Rs. 500 will, however, enter the new time-scale on the 1st December 1919 on the pay which they were actually drawing on that date and will draw their next increment after completion of one year on that pay and subsequent increments after each completed year. The incremental scale above Rs. 1,000 (pay and overseas allowance) will, in the case of any officer electing for this concession, be considered to have come into force from the date on which he completed a full year on the pay of Rs. 1,000 a month on the old scale. Article 158 of the Civil Service Regulations will not be held to apply.

4. Revised rules for appointment to the Indian Agricultural Service will issue shortly.

II.—PROVINCIAL AGRICULTURAL SERVICE.

In all provinces other than Burma the minimum pay of an officer in the Provincial Agricultural Service will be Rs. 250 and the maximum Rs. 750, with a probationary rate of Rs. 200 and an efficiency bar at Rs. 550. In Burma the minimum pay will be Rs. 300 and the maximum Rs. 800, with a probationary rate of Rs. 250 and an efficiency bar at Rs. 600. Within these limits each local Government and Administration will have full discretion to settle the grading of posts in its Agricultural Department. Local Governments and Administrations have also full discretion to fix, either generally or in special cases, the length of the period to be spent on probation.

Draft Amendments.

For bye-laws Nos. 1, 2, 3, and 6, *substitute* the following:—

"1. Applications to dock vessels in the Dry Docks shall be made in writing to the Deputy Conservator in the printed form in Appendix A, which may be obtained from the Harbour Master's office. Such applications shall be entered in the order in which they are received in an Entry List. A vessel may not be entered for docking until she has been signalled at the Sandheads or until six days before she requires the Dock, whichever is earlier."

"2. The Owner, Agent or Master of a vessel shall, as soon as practicable, submit an application under his own signature, for regulation in the form in Appendix B. The acknowledgment of this form by the Deputy Conservator shall be deemed to be an acceptance of the vessel's regulation."

"3. Vessels other than those provided for in bye-law No. 6, shall be docked in the order in which they are entered in the Entry List, subject to acceptance of the form in Appendix B, but in the event of any vessel not

being ready on her booked date or on the date the Dry Dock is vacant, whichever is the later, she shall forfeit one place in the list."

"6. In regulating the admission of vessels into the Dry Docks preference shall be given to vessels with a gross tonnage of not less than 1,000 tons, and the Deputy Conservator shall likewise be at liberty, with the approval of the Vice-Chairman, to give priority of regulating to such vessels as shall require the use of the Docks for the least time not exceeding 24 hours, without regard to the order in which such vessels stand on the list. But no vessel to which priority shall have been given under this provision shall be entitled, under any circumstances, to remain in the Dry Docks beyond the time for which she was regulated. Similarly, priority may be given to vessels which are regulated for periods exceeding 24 hours but not exceeding 72 hours, over those which are entered for longer periods, but no vessel to which priority has been given under this provision shall be entitled to remain in the Dry Docks beyond the time for which she was regulated."

DRAFT NOTIFICATION.

In exercise of the power conferred by section 20 of the Bengal Food Adulteration Act, 1919 (Bengal Act VI of 1919), the Governor in Council is pleased to make the following rules:—

1. In these rules, "Act" means the Bengal Food Adulteration Act, 1919.

2. In respect of the articles of food named below, of which the normal constituents have been declared under section 4 of the Act, the deficiencies in their constituents or additions of extraneous matter or proportions of water mentioned against each article of food shall, for the purposes of the Act, raise a presumption, until the contrary is proved, that the particular article of food is not genuine or is injurious to health.

(1) *Milk.*

(*a*) Where a sample of cow's milk contains less than 3·5 per cent. of milk fat, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the milk is not genuine, by reason of the abstraction therefrom of milk fat or the addition thereto of water.

(*b*) Where a sample of buffalo milk contains less than 6 per cent. of milk fat, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the milk is not genuine, by reason of the abstraction therefrom of milk fat or the addition thereto of water.

(*c*) Where a sample of cow's milk contains less than 8·5 per cent. of milk solids other than milk fat, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the milk is not genuine, by reason of the abstraction therefrom of milk solids other than fat or the addition thereto of water.

(*d*) Where a sample of buffalo milk contains less than 9 per cent. of milk solids other than milk fat, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the milk is not genuine, by reason of the abstraction therefrom of milk solids other than fat or the addition thereto of water.

(2) *Butter.*

Where the proportion of water in a sample of butter (not being sold and labelled as Ghatal butter) exceeds 16 per cent., it shall be presumed, until the contrary is proved, for the purposes of the Act, that the butter is not genuine, by reason of the excessive amount of water therein.

(3) *Wheat flour.*

(*a*) Where the proportion of ash in a sample of wheat-flour exceeds 2 per cent., it shall be presumed, until the contrary is proved, for the purposes of the Act, that the wheat flour is not genuine by reason of the excessive amount of extraneous mineral matter therein.

(*b*) Where the proportion of gluten in a sample of wheat flour contains less than 8 per cent. of gluten, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the wheat flour is not genuine, by reason of the deficiency of gluten therein.

(4) *Ghee.*

(*a*) Where in any sample of ghee the butyro refractometer reading at 40°C. is less than 40 or more than 42, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the ghee is not genuine, by reason of the addition thereto of extraneous fat or oil.

(*b*) Where in a sample of cow ghee, the Reichert-Wollney value is less than 24, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the ghee is not genuine, by reason of the addition thereto of extraneous fat or oil.

(*c*) Where in a sample of buffalo ghee, the Reichert-Wollney value is less than 30, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the ghee is not genuine, by reason of the addition thereto of extraneous fat or oil.

(*d*) Where in a sample of mixed cow and buffalo ghee, the Reichert-Wollney value is less than 28, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the ghee is not genuine, by reason of the addition thereto of extraneous fat or oil.

(5) *Mustard oil.*

(*a*) Where in a sample of mustard oil, the saponification value is less than 169 or more than 176, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the mustard oil is not genuine by reason of the addition thereto of extraneous oil.

(*b*) Where in a sample of mustard oil, the iodine value is less than 96 or more than 108, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the mustard oil is not genuine by reason of the addition thereto of extraneous oil.

3. (*a*) Milk stated to be cow's milk, whether sold, exposed for sale or stored for sale, shall contain not less than 3·5 per cent. of fat and not less than 8·5 per cent. of non-fatty solids.

(*b*) Milk stated to be buffalo milk, whether sold, exposed for sale or stored for sale, shall contain not less than 6 per cent. of fat and not less than 9 per cent. of non-fatty solids.

4. Butter (other than that labelled and sold as Ghatal butter), whether sold, exposed for sale or stored for sale, shall not contain more than 16 per cent. of water.

5. The Health Officer or, where there is no Health Officer, the Sanitary Inspector, in the employ of the municipality, shall perform the duties and exercise the powers mentioned in section 10 or section 12 of the Act.

6. The fee to be charged by a public analyst for analysing articles of food under this Act shall be Rs. 2 per sample if sent by a local authority, Rs. 4 per sample if sent by any other person.

7. The price of the food surrendered under sub-section (*2*) of section 10 of the Act shall be payable from the fund of the local authority within whose jurisdiction the surrender is made.

8. The compensation awarded under sub-section (*3*) of section 13 of the Act shall be payable from the fund of the local authority within whose jurisdiction the seizure of the suspected article or articles was made.

(2) The overseas allowance set out in column 3 above (which will reckon as pay for all purposes of the Civil Service Regulations), will ordinarily be granted only to officers of non-Indian domicile; but as an exception to this general rule an Indian Officer now in the Imperial Service on the full scale of pay will be eligible for the allowance.

(3) Officers who have been promoted from the Provincial to the Imperial Service will, subject to a minimum of Rs. 350 receive pay at the multiple of Rs. 50 next above the rate of pay to which they would have been entitled had they remained in the Provincial Service, and thereafter rise on the ordinary incremental scale admissible to officers of Indian domicile. Provincial Service officers appointed to the Imperial branch will rank for seniority immediately below other officers already in the Imperial Service drawing the same rate of pay.

(4) Exchange compensation allowance is abolished with effect from the 1st December 1919, both for present and future members of the department. All local house and other allowances at present drawn will continue to be drawn on the existing scale.

(5) The selection grade, which will ordinarily be limited to 15 per cent. of the total strength of the Imperial Service exclusive of posts at the Imperial Bacteriological Laboratory at Muktesar will not be regarded merely as a continuation of the time-scale, but promotion to it will be given as the reward of merit. An officer will be eligible for promotion to the selection grade after having completed 15 years' service.

(6) A local Government or Administration may appoint an officer of the Civil Veterinary Department serving in the Department to be Veterinary Adviser when his duties involve administrative control of the Department. The emoluments of a Veterinary Adviser will be regulated as follows:—

(*i*) If the officer so appointed has not completed 15 years' service, he will draw pay on the ordinary time-scale and may be granted by the local Government or Administration a special duty allowance of Rs. 150 a month, provided that his combined pay and allowance at no time exceeds Rs. 1,500.

(*ii*) When a Veterinary Adviser completes 15 years' service he will no longer draw the special duty allowance, but will be brought on to the selection grade time-scale at the minimum pay of that scale and will thereafter draw increments according to that scale.

(*iii*) If the officer so appointed has completed 15 years' service or more at the time of his appointment, he will, if he has not already been appointed to the selection grade, draw pay according to the selection grade scale starting at the minimum.

A separate communication will be made to the local Governments and Administrations regarding the appointments to the selection grades of officers other than Veterinary Advisers.

(7) Officers of the Imperial branch, however recruited, will, when serving in Burma, be eligible for a local (Burma) allowance at the normal rates according to salary.

(8) The posts of Director and First Bacteriologist, Second Bacteriologist, Pathologist and Veterinary Officer at the Imperial Bacteriological Laboratory, Muktesar, are included in the regular cadre of the Imperial branch of the Indian Civil Veterinary Department with effect from the 1st December 1919. The post of Director and First Bacteriologist is placed in the selection grade from the same date.

(9) The existing local allowance of Rs. 100 a month and the concession of free house accommodation which is at present attached to them will be continued for all posts at Muktesar.

(10) Officers of the Civil Veterinary Department are allowed to undertake private professional practice in India subject to the proviso that local Governments and Administrations may prohibit private practice when it appears to them likely to interfere with the efficient performance by an officer of his official duties.

2. Officers who were members of the Imperial branh of the Civil Veterinary Department prior to the 1st December 1919 will, as a general rule, receive pay in the new scale from the 1st December 1919 according to the length of their total service calculated from the date of commencement of such service, the provisions of articles 156-158, Civil Service Regulations, being waived. The initial pay and the service for promotion and pension of officers who have served with His Majesty's forces during the war is governed by the orders contained in the resolution by the Government of India in the Department of Revenue and Agriculture, No. 957-371, dated the 11th June 1920.

3. Officers of the Army Veterinary Department employed permanently in the Civil Veterinary Department will receive their military pay at the rates in force for the time being, together with the civil allowance now admissible. The military pay of officers of the Royal Army Veterinary Corps has, with the approval of the Secretary of State, been revised provisionally by Army Instructions (India) No. 274, dated the 20th April 1920, and officers of the Army Veterinary Department will accordingly draw pay provisionally at the following rates with effect from the 1st July 1919, exchange compensation allowance being withdrawn from that date:—

	Rs. per mensem.
Colonel	1,450
Lieutenant-Colonel	1,300
Major	950
Major after five years' service as such ...	1,050
Captain	650
Captain after two years' service as such ...	700
Lieutenant	550

4. Revised rules for appointment to the Imperial branch of the Indian Civil Veterinary Department will issue in due course.

II. PROVINCIAL SERVICE.

In all provinces other than Burma the minimum pay of an officer in the Provincial Veterinary Service will be Rs. 250 and the maximum Rs. 750 with a probationary rate of Rs. 200 and an efficiency bar at Rs. 550. In Burma the minimum pay will be Rs. 300 and the maximum Rs. 800, with a probationary rate of Rs. 250 and an efficiency bar at Rs. 600. Within these limits each local Government and Administration will have full discretion to settle the grading of posts in its Civil Veterinary Department. Full discretion is given to local Governments and Administrations to decide the period of probation for officers recruited directly to the Provincial Service. The regulation governing private practice will be the same as for officers of the Imperial branch.

Rule 17.—The lessee shall provide and keep in proper order, to the satisfaction of the District Board, the landing stages on both sides of the ferry, and shall move them when necessary according to the rise and fall of the water. He shall also provide proper rest-houses or traveller's sheds on the banks of the ferry as required by the District Board and shall make all proper arrangements and provide all suitable accommodation on the ferry-boats for passengers and goods traffic.

Rule 18.—The lessee shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorized to carry at a single trip.

Rule 19.—When for no fault of the lessee any ferry which has been leased for a given period is discontinued under the orders of the District Board before the expiry of that period, the lessee shall be allowed a deduction in the rent payable for the unexpired portion of the terms of the lease. If it be shown to the satisfaction of the District Board that the lessee has suffered any loss consequent on the discontinuance of the ferry, the District Board may allow him such compensation as, he thinks, is deserved.

Rule 20.—In the event of the ferry being discontinued before the expiry of the lease, either by order of the District Board or otherwise, all persons who have compounded for the tolls for its use shall be entitled to receive a refund calculated as in rule 4; and unless the claims of all such persons have been satisfied by the lessee the District Board shall have authority to satisfy the claims out of the deposit made by the lessee under rule 8.

Rule 22.—If the lessee desires to establish communications across the ferry by means of a bridge of any kind, he shall first obtain the sanction, in writing, of the District Board and shall, on obtaining such sanction, carry out any order which the District Board may make regarding the opening of such bridge for the through passage of vessels and rafts. Such bridge shall on no account obstruct the free passage of the stream.

Rule 23.—The District Board may at any time require the lessee to repair or replace any boat which he considers to be in a dangerous state of disrepair, and the lessee shall thereupon be bound to repair or replace it as directed.

Rule 24.—It shall be the duty of the District Engineer and his staff and of all members and officers of the District Board or of any Local Board or union committee to report at once any instance of mismanagement of a public ferry, the insecurity of the boats, landing-stages, slopes or approaches and any other defect in the working of the ferry, which may come to their notice.

IT is hereby notified that the Board of Trustees for the Improvement of Calcutta have applied to the local Government for sanction to Improvement Scheme No. VII-E (Central Avenue—Prinsep Street to Esplanade) which was originally published in the *Calcutta Gazette* and in local papers on the 18th June 1919.

CHAIRMAN, *Calcutta Improvement Trust.*

CALCUTTA, *the 3rd September 1920.*

CALCUTTA IMPROVEMENT TRUST.

THE Accounts of the Calcutta Improvement Trust for the year 1918-19 having been audited by an Auditor appointed by the Local Government, the following abstract of Accounts is published in accordance with the provisions of Section 136 of Bengal Act V of 1911.

F. C. FRENCH, *Chairman.*

CALCUTTA, *the 27th July 1920.*

Annual Accounts for the year ended 31st March, 1919.

CHAIRMAN,

I beg to submit the accounts for the year ended 31st March, 1919.

CAPITAL ACCOUNT.

RECEIPTS.—The total receipts are Rs. 52,50,000 against the Budget Estimate for the year of Rs 52,31,000. This includes Rs. 45,50,000 from sale of Land; Rs. 3,44,500 from sale of Buildings: Rs. 3,49,500 under Section 78; Rs. 6,300 from Premia on Leases and Rs. 200 from Fees for Footings.

Although the total receipts correspond closely with the Budget Estimate there have been the following variations under the different heads:—

	Budget.	Actual.	Variations.
	Rs.	Rs.	Rs.
Sale of Land	50,00,000	45,50,000	-4,50,000
„ „ Buildings	2,00,000	3,44,500	+1,44,500
Under Section 78	25,000	3,49,500	+3,24,500
Premia on Leases	5,000	6,300	+ 1,300
Fees for Footings	500	200	- 300
Total ...	52,30,500	52,50,500	+ 20,000

The excess over the estimate in the receipts under Section 78 has arisen principally in Schemes Nos. IVA, V and VIIA (Russa Road Extension) (Bhowanipore) and (Halliday Street Widening); but as compared with previous year's figures it probably shows that parties are now more favourably inclined to pay the fee in cash than to let it remain outstanding as a charge on the property.

EXPENDITURE.—The total expenditure for the year is Rs. 64,51,000, which includes Rs. 54,00,000 for land acquisition; Rs. 8,62,000 for Engineering works; Rs. 2,62,700 was spent on supply of stores (of which Rs. 2,07,700 was booked to Engineering works during the year, leaving a balance of Rs. 55,000 for supply of stores unadjusted) and Rs. 51,000 for land acquisition office for the period from 1st April, 1917, to 31st March, 1918. The estimated expenditure was Rs. 92,00,000, of which Rs. 62½ lakhs was set aside for land acquisition, Rs. 19 lakhs for Engineering works and Rs. 8 lakhs for stores; so that with the exception of land acquisition none of these figures has been worked up to. No acquisition took place in eight of the Schemes for which a total provision of Rs. 20 lakhs was estimated. But in three of the Schemes where a total provision of 22 lakhs was made the land acquisition amounted to Rs. 37 lakhs or an excess of Rs. 15 lakhs on the Schemes, *viz.*, Nos. IVA, VII and VIIB (Russa Road Extension), (Central Avenue—Machuabazar to Beadon Street) and (Central Avenue—Kalutola Street to Bowbazar). Rupees 4,50,000 was also spent in the Chitpore Spur against which there was no Budget provision.

The transfer of funds from Revenue Account to meet Capital deficits during the year was Rs. 12 lakhs.

REVENUE ACCOUNT.

RECEIPTS.—The total receipts for the year are Rs. 33,90,000 against an estimate of Rs. 26,50,000. The increase of Rs. 7,40,000 has arisen as follows:—

	Rs.
Duty on transfer of property	5,83,000
Terminal Tax	31,000
Duty on Jute	15,000
Interest	1,07,000

Other receipts did not vary to any extent from the estimate.

EXPENDITURE.—The total expenditure for the year is Rs. 4,62,000 against a Budget provision of Rs. 5,83,000.

The difference between the actuals and the estimates has arisen principally through the savings on the establishment and law expenses. The only item of the expenditure to be noted is Stamp Duty on conveyances which amounted to Rs. 34,000 against an estimate of Rs. 15,000.

The closing balance is Rs. 1,61,42,756-2-6, of which a sum of Rs. 79,87,372-4-9 has been spent on Capital Account to meet payments in excess of Capital receipts. The net balance of Rs. 81,55,383-13-9 was held as follows:—

RESOLUTION ON THE REPORT OF THE DEPARTMENT OF FISHERIES, BENGAL AND BIHAR AND ORISSA, FOR THE YEAR ENDING THE 31ST MARCH 1920.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Fishery Branch.

CALCUTTA, THE 3RD SEPTEMBER 1920.

RESOLUTION NO. 7519 Fis.

READ—

The Report of the Department of Fisheries, Bengal and Bihar and Orissa, for the year ending the 31st March 1920.

DR. BAINI PRASHAD, Superintendent of Fisheries, officiated for Mr. Southwell as Director of Fisheries during the year under review, when he left the department to take up an appointment in the Zoological Survey of India. Mr. Southwell whilst on leave resigned his appointment at the close of the year. Mr. B. Das, Superintendent of Fisheries, unfortunately died at Cuttack on the 24th September 1919. The department thus lost the whole of its permanent superior staff during the year. Steps have been taken to recruit a qualified Director of Fisheries, and one Superintendent of Fisheries has already been appointed.

2. This state of affairs proved a severe handicap to the department. Scientific research work suffered owing to the time taken up in ordinary administrative work; and all projects for the development of the department were kept in abeyance pending the then expected return of Mr. Southwell. The year however saw the introduction of the experiment of District Fishery Officers, which was tried in the three districts of Dacca, Khulna and Puri. These officers were mainly employed in making a complete survey of fisheries and in the initiation of co-operative societies amongst fishermen. They have made a satisfactory start. Two more such officers have now been appointed.

3. *Hilsa* investigations during the year were brought to an abrupt close by the cyclone of the 24th September 1919. But it is satisfactory to note that the problem of the breeding of carp in confined waters is reported to be in process of being solved. The scheme for the establishment of a centre for investigations in the culture of carp, which was referred to in the resolution on the working of the department for 1918-19, is under the consideration of Government. During the carp season of the year under report the total number of selected fry supplied to the public by the department amounted to 880,500 against 524,000 supplied during the year 1918-19. This includes 100,000 supplied free of cost to fishermen in the district of Bankura during the famine. The fry supplied by the Department appears to be gaining in popularity, but much depends upon the treatment afterwards. Purchasers would therefore be well advised to follow the advice of the department contained in a brochure issued by it regarding such treatment (Bulletin No. 13—" Notes on Carp Culture in Bengal, Bihar and Orissa "). These and other bulletins are issued gratis by the Fishery Department. The principal bulletin issued in the year under report is entitled " Notes on Estuarine Fisheries in the Sundarbans " by Mr. Southwell, also issued gratis.

4. Seven new co-operative societies of fishermen were established during the year, four in Bengal and three in Bihar and Orissa. Six of these societies were organised by the District Fishery Officers. The total number of societies in existence at the end of the year was 32 in Bengal and 7 in Bihar and Orissa.

5. The statistics of fish traffic into Calcutta during the year under report (312,975 maunds) show an increase of imports over the past five years except the year 1917 when 317,149 maunds were imported. A bulletin on the subject has been issued by the Department.

6. The Governor in Council has pleasure in acknowledging the services of Dr. Baini Prashad and his assistants in the difficult conditions of the year. He regrets the loss to the department of the scientific attainments of Dr. Baini Prashad. His Excellency in Council also takes this opportunity of expressing his gratitude to Mr. Southwell for the good work he has done for the department and regret at his resignation.

By order of the Governor in Council,

TEMPORARY ALLOWANCES TO MINISTERIAL OFFICERS IN BENGAL.

GOVERNMENT OF BENGAL.

FINANCIAL DEPARTMENT.

Financial Branch.

CALCUTTA, THE 1ST SEPTEMBER 1920.

RESOLUTION.—No. 13631 F.

ON the recommendation of this Government the Government of India have sanctioned temporary allowances on the following scale to all ministerial officers in the Presidency of Bengal on account of the high cost of living with effect from the 1st April 1920.—

(1) For officers on salary not exceeding Rs. 50 per mensem—30 per cent. of salary.

(2) For officers on salary exceeding Rs. 50, but not exceeding Rs. 100 per mensem—20 per cent. of salary with a minimum of Rs. 15 a month.

(3) For officers on salary exceeding Rs. 100 per mensem—15 per cent. of salary subject to a minimum of Rs. 20 and a maximum of Rs. 50 a month.

For the purpose of calculating the allowances salary should be as defined in article 38 (*c*) of the Civil Service Regulations and personal allowances should be held to be included in it, but duty allowances should be excluded.

2. The above scheme will not apply automatically to establishments which have been reorganised since the 1st April 1915 and in which the pay was fixed with modern economic conditions in view. Such cases will be separately reviewed, and it will be decided whether in view of the present orders, any allowance is admissible.

3. The scheme will apply to the ministerial establishments of the High Court of Bengal, the Customs and other Imperial Departments under the direct control of the Government of Bengal

4. Ordered that this resolution be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council,

RESOLUTION ON THE REPORT ON POLICE ADMINISTRATION IN THE BENGAL PRESIDENCY FOR THE YEAR 1919.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Police.

CALCUTTA, THE 2ND SEPTEMBER 1920.

RESOLUTION—No. 3629 P.J.

READ—

The report on Police administration in the Bengal Presidency for the year 1919.

Read also—

The report for the year 1918 and the resolution of Government recorded thereon.

THE prevailing note of the report is the lament that financial stringency is hampering the work of the department in all directions, and preventing the expansion and increased efficiency which is demanded by progressive standards of provincial development. The Police Department cannot afford to stand still, but the increased cost of living, of equipment and of building threatens a retrogression unless the fact is accepted that the services rendered to the community by the department are worth paying for, and it is false economy to stunt its growth. It is urged that inadequate pay, apart from the risk of the depletion of the force through falling off in recruitment and increase in desertions and resignations, brings in its train deterioration of quality, physique, health and morale, while inadequate clothing and unsuitable lodging make themselves felt in a high sick rate. The postponement of the opening of new centres and of increasing the staff and reserves involves the overworking of the existing force. These evils can only be remedied by increased expenditure, and it will have to be faced in the near future. The department has only in late years begun to make up leeway; but the pace must be regulated with due consideration of the needs of the province in other directions and of its resources, and the immediate removal of all difficulties cannot be hoped for.

The past year has shown evidence of progress which, if slow, is steady; the expenditure on the force has risen by Rs. 10 lakhs and on buildings from Rs. 18 to 22 lakhs. During the year the pay of officers of the Imperial Service was revised in accordance with the recommendations of the Royal Commission on the Public Services in India; the pay of sergeants was increased; while proposals for improving the pay and prospects of head constables received the sanction of the Secretary of State. Writer head constables will in future be called assistant sub-inspectors, and half the annual vacancies in the rank of sub-inspector will be filled by promotion from this new grade. Proposals have been submitted to the Secretary of State for the formation of a probationary grade of sub-inspectors on the pay and allowances of the lowest grade so that it will not be necessary in future to place officers, while still on training, in responsible charges. This should result in a general improvement in the quality of the work, which has hitherto had to be delegated to untrained men, and will at the same time, by relieving the leave reserve from other calls, enable leave to be given more freely. An Additional Superintendent of Police was sanctioned for the district of Burdwan with independent power to deal with the crime of the Asansol subdivision; the revised scale of the ordinary reserve of head constables and constables, sanction to which was received late in 1918, was

partially introduced; and five new police-stations were established, but no less than 34 proposals for opening up new investigating centres are still awaiting funds.

2. The most important question, and the one which has given the Inspector-General the greatest anxiety, is that of improving the conditions of service especially in the subordinate ranks. The number of vacancies in the rank of constables, which was 500 in the preceding year, rose to over 900 at the close of the year, and there was a marked increase in the number of casualties; 343 men deserted during the year, 445 men were discharged, 318 dismissed and 1,170 resigned. There can be only one explanation of these figures, viz., that the work and pay are not sufficiently attractive to compete with other employments available to the class from which recruitment is made. Since the close of the year grain compensation allowance on a sliding scale of Rs. 1-8 to 3 has been allowed to constables, and this has given some relief; but it is a temporary expedient and the question of the conditions of service of these ranks will have to be re-examined. Proposals to this end have recently been submitted by the Inspector-General of Police.

3. The Governor in Council is glad to record that though, in view of economic distress and of widespread industrial unrest, the past year has been a difficult one from the point of view of police administration, the work of the Bengal police has maintained a good standard of efficiency. Appreciation has been expressed by Their Excellencies the Viceroy and the Com-Commander-in-Chief of the services of the officers and men of the Bengal Military Police who volunteered to serve with Indian units abroad in the war. The utility of the river police patrols has been acknowledged by the various Chambers of Commerce, and the services which the force rendered in relief work after the cyclone in Eastern Bengal in September have been eulogised by the officers in charge of the relief operations.

4. During the year co-operation rendered to the police by the general public in the suppression of crime was more in evidence. Joint patrols, union watch committees and village defence parties are phenomena of recent growth. The Governor in Council is gratified by the work done by the town volunteers of Hooghly, and by similar work at Chinsura, Serampore, Brahmanbaria, and in the Diamond Harbour and Sadar subdivisions of the 24-Parganas, and trusts that this spirit of co-operation will rapidly spread elsewhere.

5. The health of the force slightly improved as compared with the previous year, and the admissions into hospital fell from 13,365 to 12,349, while the death-rate was lower. The previous year, however, was particularly unhealthy owing to outbreaks of influenza, and the figures for 1919, which are in excess of those of 1917, cannot be regarded as satisfactory. The local officers attribute the sick rate largely to inadequacy of pay, deficient equipment in the way of boots, coats and mackintoshes, and unsuitable buildings.

6. There was a satisfactory increase in the number of men rewarded during the year, but the percentage of departmental punishment, though lower than in the preceding year, continued high, being 26 per cent. of the actual strength.

7. The proportion of officers and men judicially punished increased from 1·3 per cent. of the force in 1918 to 1·4. Of 529 criminal cases against the police which were disposed of during the year, only 92 ended in conviction. In seven cases allegations of torture were made, but in no instance was the charge established. The majority of the convictions were for wrongful confinement. Of 46 civil suits instituted against members of the force during the year, 29 were dismissed, 2 were decreed and 15 were pending at the close of the year.

8. The reports on the village police are on the whole encouraging, but the percentage of punishments inflicted is regrettably high, while the rewarding of good work is apparently neglected in some districts. The matter merits particular attention. The Bengal Village Self-Government Bill has passed into law and better results may now be hoped for.

9. The total cost of the department rose from rupees one crore and 5 lakhs to one crore and 15 lakhs. The revision of the pay of the Imperial Service officers contributed to the increase. Rupees 22 lakhs were spent on buildings, as compared with Rs. 18 lakhs in the previous year, but the cyclone of September 1919 largely counterbalanced this improvement, and money urgently needed for further improvement has had to be diverted to making good the damage done.

10. There was a small increase to the total volume of cognizable crime. The provincial total of serious crime was 73,926 cases against 65,302 cases in the previous year, and most of the more serious heads, except riot and murder, show an increase. This was large in the districts of the Burdwan and Rajshahi ranges, economic distress, floods and the cyclone being the main causes.

11. Success attended the application of the preventive sections of the Code of Criminal Procedure. The Inspector-Genral of Police is, however, of opinion that something more is needed, and urges the adoption of the system of "preventive detention" as practised in the United Kingdom and prescribed by the Prevention of Crime Act, 1908. The Governor in Council proposes to await the recorded opinion of the Jails Committee on this question.

12. Revolutionary crime still further decreased. There were two such dacoities in the year, as compared with three in 1918 and 9 in 1917. Under the terms of the King's Proclamation clemency was shown to persons placed under restraint in connection with offences against the State. All those interned under the Defence of India Rules and the greater number of the State prisoners were released after the close of the year.

13. Mr. C. W. C. Plowden, C.I.E., held charge of the department till the 13th April 1919 when he was succeeded by Mr. R. B. Hyde. The Governor in Council desires to express his thanks to these officers for their capable administration. He also takes this opportunity to place on record his appreciation of the work of the force, both officers and men, in a year of peculiar difficulty.

Ordered that copies of the Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and all Commissioners of Divisions for information.

Ordered also that the Resolution be published in the *Calcutta Gazette.*

By order of the Governor in Council,

H. L. STEPHENSON,

Chief Secy. to the Govt. of Bengal.

Procedure on non-appearance of Respondent.

43. Where a Respondent fails to enter an Appearance in an Appeal, the following Rules shall, subject to any special Order of the Judicial Committee to the contrary, apply:—

(*a*) If the non-appearing Respondent was a Respondent at the time when the Appeal was admitted, whether by the Order of the Court appealed from or by an Order of His Majesty in Council giving the Appellant special leave to appeal, and it appears from the terms of the said Order, or Order in Council, or otherwise from the Record, or from a Certificate of the Registrar of the Court appealed from, that the said non-appearing Respondent has received notice, or was otherwise aware, of the Order of the Court appealed from admitting the Appeal, or of the Order of His Majesty in Council giving the Appellant special leave to appeal, and has also received notice or was otherwise aware, of the despatch of the Record to England, the Appeal may be set down *ex-parte* as against the said non-appearing Respondent at any time after the expiration of three months from the date of the lodging of the Petition of Appeal;

(*b*) If the non-appearing Respondent was made a Respondent by an Order of His Majesty in Council subsequently to the admission of the Appeal, and it appears from the Record, or from a Supplementary Record, or from a Certificate of the Registrar of the Court appealed from, that the said non-appearing Respondent has received notice, or was otherwise aware, of any intended application to bring him on the Record as a Respondent, the Appeal may be set down *ex-parte* as against the said non-appearing Respondent at any time after the expiration of three months from the date on which he shall have been served with a copy of His Majesty's Order in Council bringing him on the Record as a Respondent:

Provided that where it is shown to the satisfaction of the Judicial Committee, by Affidavit or otherwise, either that an Appellant has made every reasonable endeavour to serve a non-appearing Respondent with the copies mentioned in clauses (*a*) and (*b*) respectively and has failed to effect such service, or that it is not the intention of the non-appearing Respondent to enter an Appearance to the Appeal, the Appeal may, without further Order in that behalf and at the risk of the Appellant, be proceeded with *ex-parte* as against the said non-appearing Respondent.

Where the Petitioner is represented by an Agent, the said Affidavit shall be sworn by such Agent and shall, besides stating that, to the best of the deponent's knowledge, information, and belief, the allegations contained in the Petition are true, show how the deponent obtained his instructions and the information enabling him to present the Petition. 57. A petitioner who desires to withdraw his Petition shall give notice in writing to that effect to the Registrar of the Privy Council. Where the Petition is opposed, the Opponent shall, subject to any agreement between the parties to the contrary, be entitled to apply to the Judicial Committee for his costs, but where the Petition is unopposed, or where, in the case of an opposed Petition, the parties have come to an agreement as to the costs of the Petition, the Petition may, if the Judicial Committee think fit, be disposed of in the same way *mutatis mutandis* as a Consent Petition under the provisions of the last preceding Rule.

Procedure where hearing of Petition unduly delayed.

58. Where a Petitioner unduly delays bringing a Petition to a hearing, the Registrar of the Privy Council shall call upon him to explain the delay, and, if no explanation is offered, or if the explanation offered is, in the opinion of the said Registrar, insufficient, the said Registrar may treat the said Petition as set down and may, after duly notifying all parties interested by summons of his intention to do so, put the Petition in the paper for hearing on the next following day appointed by the Judicial Committee for the hearing of Petitions for such directions as the Committee may think fit to give thereon.

APPENDIX II TO CHAPTER VI.

AT THE COURT AT BUCKINGHAM PALACE, THE 9TH DAY OF FEBRUARY, 1920.

Present :

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by an Act passed in the 4th year of the reign of His Majesty King William IV, entitled "An Act for the better Administration of Justice in His Majesty's Privy Council," it is, amongst other things, enacted that it shall be lawful for His Majesty in Council from time to time to make any such Rules and Orders as may be thought fit for regulating the mode form and time of Appeal to be made from the decisions of any Courts of Judicature in India (from the decisions of which an Appeal lies to His Majesty in Council), and in like manner from time to time to make such other Regulations for preventing delays in the making or hearing such Appeals and as to the expenses attending the said Appeals and as to the amount or value of property in respect of which any such Appeal may be made:

AND WHEREAS Her Majesty Queen Victoria did by Her Order in Council of the 10th day of April, 1838, approve certain Rules and Orders for regulating the mode, form and time of Appeal from the decisions of the said Courts and also certain Regulations for preventing delays in making or hearing such Appeals and as to the expenses attending such Appeals and as to the amount or value of property in respect of which any such Appeal may be made:

AND WHEREAS the King's Most Excellent Majesty in Council hath deemed it expedient to rescind all the said Rules, Orders and Regulations and to substitute others in lieu thereof:

His Majesty is, therefore, pleased, by and with the advice of His Privy Council, to rescind all the said Rules, Orders and Regulations in the said Order in Council of the 10th day of April, 1838, contained, and to approve of the several Rules, Orders and Regulations contained in the Schedule hereto, and to order, as it is hereby ordered, that the same be respectively observed by all Courts of Judicature in India and by all persons whom it shall or may concern.

Whereof the Governor-General of India in Council, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

ALMERIC FITZROY.

THE SCHEDULE ABOVE REFERRED TO.

1. Applications to the Court for leave to appeal to His Majesty in Council shall be made within 90 days of the Decree or Order to be appealed from, subject to the provisions of Sections 4, 5 and 12 of the Indian Limitation Act, 1908.

2. The preparation of the Record shall be subject to the supervision of the Court, and the parties may submit any disputed question arising in connection therewith to the decision of the Court and the Court shall give such directions thereon as the justice of the case may require.

3. The Registrar, as well as the parties and their legal Agents, shall endeavour to exclude from the Record all documents (more particularly such as are merely formal) that are not relevant to the subject-matter of the Appeal, and, generally, to reduce the bulk of the Record as far as practicable taking special care to avoid the duplication of documents and the unnecessary repetition of headings and other merely formal parts of documents; but the documents omitted to be copied or printed shall be enumerated in a manuscript list to be transmitted with the Record.

4. Where in the course of the preparation of a Record one party objects to the inclusion of a document on the ground that it is unnecessary or irrelevant, and the other party nevertheless insists upon its being included, and the Court allows the document to be included, the Record, as printed (whether in India or in England) shall, with a view to the subsequent adjustment of the costs of, and incidental to, such document, indicate in the index of papers, or otherwise, the fact that, and the party by whom, the inclusion of the document was objected to.

5. Where the Record is printed in India, the Registrar shall, at the expense of the Appellant, transmit to the Registrar of the Privy Council 40 copies of such Record, one of which copies he shall certify to be correct by signing his name on, or initialling every eighth page thereof and by affixing thereto the seal, if any, of the Court.

6. Where the record is to be printed in England, the Registrar shall, at the expense of the Appellant, transmit to the Registrar of the Privy Council one certified copy of such Record, together with an index of all the papers and exhibits in the case. No other certified copies of the Record shall be transmitted to the Agents in England by, or on behalf of, the parties to the Appeal.

7. Where there are two or more Appeals arising out of the same matter, and the Court is of opinion that it would be for the convenience of the Lords of the Judicial Committee and all parties concerned that the Appeals should be consolidated, the Court may direct the Appeals to be consolidated.

8. An Appellant who has obtained a certificate for the admission of an Appeal may, at any time prior to the making of an Order admitting the Appeal, withdraw the Appeal on such terms as to costs and otherwise as the Court may direct.

9. Where an Appellant, having obtained a certificate for the admission of an Appeal, fails to furnish the security or make the deposit required (or apply with due diligence to the Court for an Order admitting the Appeal), the Court may, on its own motion or an application in that behalf made by the Respondent, cancel the certificate for the admission of the Appeal, and may give such directions as to the cost of the Appeal and the security entered into by the Appellant as the Court shall think fit, or make such

further or other Order in the premises as, in the opinion of the Court, the justice of the case requires.

10. An Appellant whose appeal has been admitted shall prosecute his Appeal in accordance with the Rules for the time being regulating the general practice and procedure in Appeals to His Majesty in Council.

11. Where an Appellant, whose Appeal has been admitted, desires, prior to the despatch of the Record to England, to withdraw his Appeal, the Court may, upon an application in that behalf made by the Appellant, grant him a certificate to the effect that the Appeal has been withdrawn, and the Appeal shall thereupon be deemed, as from the date of such certificate, to stand dismissed without express Order of His Majesty in Council, and the costs of the Appeal and the security entered into by the Appellant shall be dealt with in such manner as the Court may think fit to direct.

12. Where an Appellant, whose Appeal has been admitted, fails to show due diligence in taking all necessary steps in connection with the preparation of the Record, the Court may, either on its own motion or on the application of the Respondent, call upon the Appellant to show cause why a certificate should not be issued that the Appeal has not been effectually prosecuted by the Appellant, and if the Court sees fit to issue such a certificate, the Appeal shall be deemed, as from the date of such certificate, to stand dismissed for non-prosecution without express Order of His Majesty in Council, and the costs of the Appeal and the security entered into by the Appellant shall be dealt with in such manner as the Court may think fit to direct.

13. Where at any time between the admission of an Appeal and the despatch of the record to England, the Record becomes defective by reason of the death, or change of status, of a party to the Appeal, the Court may, notwithstanding the admission of the Appeal, on an application in that behalf made by any person interested, grant a certificate showing who, in the opinion of the Court, is the proper person to be substituted, or entered, on the record in place of, or in addition to, the party who has died, or undergone a change of status, and the name of such person shall thereupon be deemed to be so substituted or entered on the record as aforesaid without express Order of His Majesty in Council. If, in the opinion of the Court, there has been undue delay in making this application, the Court may order the Appellant, or the party interested, to take all necessary steps to perfect the Record within such time as the Court may direct, and, if he fails to comply with such Order, the Court may call upon him to show cause why a certificate should not be issued that the Appeal has not been effectually prosecuted, and if the Court sees fit to issue such a certificate, the Appeal shall be deemed, as from the date of such certificate, to stand dismissed for non-prosecution without express Order of His Majesty in Council, and the costs of the Appeal and the security entered into by the Appellant shall be dealt with in such manner as the Court may think fit to direct.

14. Where the Record subsequently to its despatch to England becomes defective by reason of the death, or change of status, of a party to the Appeal, the Court may, upon an application in that behalf made by any person interested, cause a certificate to be transmitted to the Registrar of the Privy Council, showing who, in the opinion of the Court, is the proper person to be substituted or entered, on the Record, in place of, or in addition to, the party who has died, or undergone a change of

The balance of the sum due on such estimate from such appellant shall be paid within two weeks from the date of the deposit of the sum of Rs. 1,000.

23. As soon as the list of exhibits ("B List") is delivered to the Deputy Registrar by the appellant, he shall, if the respondent enters appearance on or before the date mentioned in the notice of such Order XLI, Rule 14, give notice of such delivery to such respondent. If the respondent fails to enter appearance on or before the date mentioned in the notice under Order XLI, Rule 14, and if it shall appear that the said notice has been duly served on such respondent, he shall not without the leave of the Registrar be entitled to file a list of papers for insertion in the paper-book under Rule 25.

27. If one party objects to the inclusion of a document on the ground that it is unnecessary or irrelevant

and the other party nevertheless insists upon its being included, and the Registrar allows the document to be included, the lists shall clearly indicate the fact that, and the party by whom, the inclusion of the document was objected to.

28. The Registrar, as well as the parties and their legal agents, shall endeavour to exclude from the record all documents (more particularly such as are merely formal) that are not relevant to the subject matter of the appeal, and generally, to reduce the bulk of the record as far as practicable, taking special care to avoid the duplication of documents and the unnecessary reptition of headings and other merely formal parts of documents.

29. The appellant's and respondent's lists shall each bear a certificate under the hand of the Vakil for such appellant or respondent in the following form :—

B., Vakil for , do hereby certify that I have carefully examined this list with reference to the provisions of Rule 28, Chapter IX of the Appellate Side Rules, and declare that in by judgment it is necessary to include in the paper-book of the appeal every document or portion of a document included in the list in order to the decision of the appeal.

30. If the respondents do not enter an appearance, or do not deliver the list directed by, and within the time prescribed by Rule 25 and if no order be made under Rule 26, the paper-book shall be prepared in accordance with the appellant's lists.

31. When two or more appellants or respondents have the same interest in the appeal, one set of lists only shall be required from all such appellants or respondents. Appellants or respondents having separate interests shall deliver separate sets of lists. In such cases the principle of Rule 37 shall apply.

32. If any of the papers which must be inserted in the appellant's lists or in the respondent's lists, was previously printed in a former paper-book, the fact of its having been so printed must be stated in the list in which such paper is inserted. Such papers shall not be printed unless the Registrar otherwise directs.

33. But this Rule shall not preclude the Court from referring to any paper to which it considers a reference necessary for the ends of justice.

34. The Deputy Registrar shall, within three days after the delivery by the respondent of his list, make and deliver to such respondent an estimate of the cost of preparing his portion of the paper-book.

35. In cases in which the estimate for the cost of preparing the respondent's portion of the paper-book does not exceed Rs. 1,000, the respondent shall deposit with the Accountant of the Court the whole amount of the estimate in accordance with the following table:—

(*c*) Exceeding Rs. 400 but not exceeding Rs. 600, with four weeks.
(*d*) Exceeding Rs. 600 but not exceeding Rs. 1,000, within five weeks.

Such period will count from the date of the service of the estimate prepared in accordance with Rule 6.

36. In cases in which the estimate for the cost of preparing the Respondent's portion of the paper-book exceeds Rs. 1,000, the Respondent shall deposit with the Accountant of the Court the sum of Rs. 1,000, within five weeks from the date of the service of such estimate. The balance of the sum due on such estimate from such Respondent shall be paid within two weeks from the date of the deposit of the sum of Rs. 1,000.

37. If it subsequently appears that the amount deposited by either party to the appeal is insufficient to defray the cost of preparing his portion of the paper-book, or a supplementary paper-book after remand, the Deputy Registrar shall estimate the additional amount required and shall give notice thereof to such party. Such additional amount shall be deposited by such party with the Accountant of the Court within two weeks after service upon him of such notice. No work in the matter of the preparation of the paper-book, which is likely to cost more than the sum deposited, shall be undertaken until such additional deposit has been made, unless the Registrar shall otherwise direct.

38. When separate appeals have been preferred by different persons against the same decree, complete lists of the documents which the parties wish to include in the paper-book shall be delivered by the parties to each appeal. Common matter shall appear in one paper-book only, the other paper-books containing references to the pages of the paper-book in which such common matter appears. In

such cases the Deputy Registrar shall, subject to the order of the Registrar, apportion between the parties concerned the cost of preparation in respect of matter common to all or any of the parties. The estimates for the cost of the preparation of Parts I and III of the paper-books in such cases shall not be served on the parties until such apportionment has been made. This rule shall also apply when two or more separate appeals are preferred in analogous cases.

39. If the Appellant fail to deliver his lists of papers in accordance with Rule 19, or if the Appellant or respondent fail to make the deposit or additional deposit required by Rules 21 and 37, the Deputy Registrar shall lay the matter before the Registrar, who may, in case of default by the Appellant, cause the appeal to be set down for hearing by the Division Court having jurisdiction in respect thereof; and such Court may, unless satisfied that there was reasonable ground for the default, direct the appeal to be dismissed for want of prosecution, or may pass such other order as may seem proper in the circumstances of the case.

40. The Deputy Registrar shall have Part I of the paper-book prepared in the office of the Court, so that it may be ready—

(*a*) If no deposit of the costs for the preparation of such part of the paper-book beyond the initial deposit required under Rule 28, Chapter V is necessary within one month of the receipt of the record.

(*b*) In other cases, within one month from the date of the deposit required under Rules 21 and 35.

41. The Deputy Registrar shall have Part III of the paper-book prepared in the office of the Court, so that it may be ready—

(*b*) In other cases, within one month from the date of the deposit required under Rules 21 and 35.

42. The paper-book for the use of the High Court shall be printed and edited in accordance with the following directions :—

If he fails to do so, he shall not, without the special leave of the Bench, refer to such document at the hearing. Such copies or translations shall be prepared in the office of the Court. Applications for such copies and translations shall be governed generally by the rules contained in Chapter XIII, provided that at the time of filing the Stamps and folios required for the preparation of the copies, the Vakil shall also deposit with the Accountant of the Court the estimated cost of the preparation of the translations.

53. In each case of second appeal, the Deputy Registrar will cause to be printed 12 copies of the paper-book, as aforesaid.

54. In the case of Appeals from Appellate Decrees not exceeding Rs. 50 in value, the Deputy Registrar shall cause 4 typed copies of the paper-book as aforesaid to be prepared and no charge shall be levied from the parties on account of the preparation of such paper-book other than the sum of Rs. 12 required to be deposited under Chapter V, Rule 28 of these rules.

In the case of Appeals from the Appellate Decrees exceeding Rs. 50 in value, the Appellant and the Respondent shall be entitled to have, free of charge, as many copies of the paper-book, not exceeding four on either side, as they have Advocates and Vakils engaged in the Appeal. In any case, they shall each be entitled to two copies.

In Appeals not exceeding Rs. 50 in value, the Appellant and the Respondent, if the latter enters appearance, shall each be entitled to one copy of the typed paper-book free of charge.

56. Subject to the provisions of Rule 54 of this Chapter, if it shall be ascertained at any time that the sum deposited in any case will not cover the costs actually or likely to be incurred, the difference shall be deposited by the

Appellant within two weeks after demand. No work in the matter of the preparation of the paper-book, which is likely to cost more than the sum deposited, shall be undertaken until such additional deposit has been made, unless the Registrar shall otherwise direct.

57. In case of the Appellant failing to make the necessary deposit under Rule 28, Chapter V, and Rule 56 of this Chapter, the Deputy Registrar shall lay the matter before the Registrar who may at once cause the appeal to be set down before the Division Court to which it belongs; and if the Appellant does not satisfy the Court as to his delay, his appeal may be dismissed for want of prosecution, or the Court may pass such other order as it may deem proper.

58. When the case is ready for hearing, the Deputy Registrar will furnish the Advocates or Vakils engaged on either side with copies of the paper-book, for which deposit shall have been made as aforesaid. The issue of paper books to the Advocates or Vakils will be notice to them that the case is ready for hearing.

59. An account shall be kept of so much of the actual cost of preparing and printing the paper-book in each Second Appeal exceeding Rs. 50 in value as is chargeable to the Appellant, who will be entitled to a refund of the excess of the sum paid by him over the said actual cost.

60. Additional paper-books over and above those which may be supplied to the parties free of charge under these Rules shall be charged for.

V. In cases where, on appeal to the High Court from an Appellate Decree, an order of remand is passed, the Court-fees paid on the memorandum of appeal shall ordinarily be treated as costs in the appeal. But where an order of remand is made under Order XLI, rule 23, of the Code of Civil Procedure, on the ground that the Court of First Instance disposed of the suit upon a preliminary point so as to exclude any evidence of fact which appears to the High Court essential to the determination of the rights of the parties, and that such defect was not amended on First Appeal, or on the ground that the Lower Appellate Court has disposed of the suit or appeal on a preliminary point without investigating the suit on its merits, and such decision is reversed, the Registrar shall grant an order of refund of the Court-fees so paid, under Section 13 of the Court-fees Act, to the appellant on his application, provided that such application is made within three months of the date of the order of remand. All applications for copies, other than those on which expedition fees are paid, shall be made to the Superintendent of the Copying Section in the department concerned between the hours of 2 P.M. and 3 P.M. Applications for copies on which expedition fees are paid may be made at any time of the day during office hours.

22. Applications for information shall be made to the Deputy Registrar or such other officer of the Court as the Registrar may depute for the purpose, between the hours of 10-30 A.M. and 11-30 A.M.

23. Applications for information or copies shall be made in the prescribed form, which will be supplied at the price, one pice or ¼ anna per sheet or 100 sheets per rupee.

24. An applicant for information shall present his application with the duplicate spaces reserved for the date, his name and residence and the particulars of the information required, filled up. The officer receiving such application shall enter in duplicate in the first column the consecutive number and in the fifth column his signature. If he can furnish the information at once, he shall note the same on the upper portion of the form in the column for remarks, and make that part over to the applicant taking the latter's receipt in the column for remarks in the lower portion, which will be retained and recorded in the office. If he cannot furnish the information at once, he will enter in duplicate in the fourth column of the form, the date by which the information can be furnished. The upper and lower portions of the form, with columns 1, 2, 3, 4 and 5 thus filled up, will then be separated. The lower part will be made over to the applicant with a direction to return with it at the time fixed. The upper portion will be passed on to the Superintendent to whose section it pertains, who will enter in the column for remarks the necessary information and return it to the receiving officer before the time prescribed. On the applicant's reappearance, this upper portion, bearing the information, will be made over to him and the lower portion, bearing his dated receipt in the column for remarks, will be taken from him and recorded in the office.

25. Information should ordinarily be supplied on the next open day.

NOTE.—Searching-fees should be levied on applications for information as in the case of applications for copies. An application will not be considered as complete till the searching-fee, as necessary under the rules, has been paid.

26. On receipt of an application for a copy the Superintendent of the Copying Section shall number it consecutively, stamp or note legibly the date of receipt on the top right hand corner of the application and enter it in the "Register of Applications for Copies." He shall at the same time inform the applicant that his applications will not be considered complete, and that the preparation of the copy will not be commenced until he has supplied in full the Court-fee stamps and the necessary number of folios which will be notified in due course in the manner prescribed by these rules.

27. After entering the application in the prescribed Register, the Superintendent of the Copying Section shall submit it during the same day to the Deputy Registrar, or such other officer of the Court to whom the Registrar may have delegated the duty of dealing with application for copies.

28. In the event of an application for a copy being refused an endorsement to that effect shall be made on the application form, which shall then be returned to the applicant.

29. On orders being passed granting an application for a copy, the Superintendent of the Copying Section or, in his absence, the Deputy Superintendent, shall at once, if possible or during the same day or not later than the following day, ascertain the amount of Court-fee stamps payable for the copy applied for and the number of folios required for its preparation.

For this purpose the Superintendent of the Copying Section shall forward the application to the Superintendent of the section concerned. The latter shall refer to the document or record and estimate the number of folios required for each document of which a copy is required. He shall then enter the number of folios required in the first column of the application, sign and date it and return the completed application to the Superintendent of the Copying Section. If the record happens to be in some other section of the office, the Superintendent, to whom the application was sent, shall pass it on to the Superintendent of the section in whose custody the record is.

30. Each clerk through whose hands an application passes shall put his initial and the date of receipt and passing on by him on the back of the application and shall mention in the endorsement the name of the officer to whom he delivers such application.

31. The number of folios required should be carefully calculated so as to obviate the necessity for obtaining additional folios from the applicant.

32. If, owing to insufficient or incorrect description, the document cannot be traced, the application should be so endorsed and submitted at once to the Deputy Registrar or other officer of the Court for orders.

33. Applications for copies must be returned on the same day and not later than the following day to the Superintendent of the Copying Section with the report required by Rule 29 above.

34. On receipt of the estimate as to the number of folios required, the Superintendent of the Copying Section or, in his absence, the Deputy Superintendent, shall enter the amount of Court-fee stamps and the other charges in the middle portion of the application and shall notify the amount in the prescribed register not later than the next following day.

35. If the stamps and folios are not filed within seven days of the notification in the prescribed Register, the application shall be rejected by the Deputy Registrar or other officer of the Court.

36. If an application has been rejected under Rule 35 and the copy is still required, a fresh application must be filed and dealt with in the manner prescribed by these rules, as though the original application had not been made.

37. When the stamps and folios are filed, a note to that effect and the date shall be entered in the place provided in the application for the purpose and the applicant shall be required to sign this entry. The date on which the copy will be ready shall also be noted in the appropriate column of the application form and a corresponding entry shall be made by the Superintendent of the Copying Section on the counterfoil of the application. The applicant shall retain the counterfoil and it shall be his duty to attend on the date fixed for the purpose of receiving the copy. After making the proper entries in the Register of Applications for Copies, the Superintendent of the Copying Section shall forward the application to the Superintendent of the section concerned and in exchange will receive for the original application, the original document of which a copy is required and, on receipt thereof, he will at once make over such record to one of the copyists for the preparation of the copy.

38. If and when it is ascertained that extra Court-fees or extra folios for copies are required, the applicant should at once be informed and the fact should be briefly noted on the reverse of the application and signed and dated by the applicant and the Superintendent of the Copying Section.

39. When the applicant complies with Rule 38, a note should be made on the reverse of the application showing the date and number of extra folios and the date and number and the value of the extra Court-fees filed This note shall be signed both by the applicant and by the Superintendent of the Copying Section.

40. A similar procedure should be followed with regard to the number and amount of Court fee stamps for certified copies.

41. Every copy must bear the signature of the copyist making it and the date on which the copy was completed. It must also bear the signature of the clerk who

examined the copy and the date on which such copy was examined.

42. In ordinary circumstances a copy shall be furnished not later than 1 P.M. on the fifth day after the necessary Court-fee stamps and folios have been put in.

43. As soon as the copy is ready for delivery, the Superintendent of the Copying Section shall return the original document or record to the Superintendent of the section concerned who, in exchange therefor, shall hand over the original application.

44. On receipt of the original application, the Superintendent of the Copying Section will attach to it the copy and all unused folios. On the original applicant's appearance with the counterfoil, the Superintendent of the Copying Section will make over to him the copy and unused folios, taking his receipt on the counterfoil of the application which he will retain in his custody.

45. Should the applicant, in any case, fail to appear to claim either the copy or the unused folios before the last day of the month succeeding that on which the copy was ready for delivery, they shall be destroyed.

46. In any case in which a copy is refused or cannot be granted, the folios supplied by the applicant shall be returned to him when he is so informed.

47. A certified copy shall bear the seal of the Court and shall be "certified to be a true copy" and be signed in full by an officer authorised to do so by the Registrar. The certifying officer shall append to his signature the words "authorised under Section 76, Act I of 1872."

NOTE.—Uncertified copies shall only be marked as "examined" and initialled the Examiner.

48. When a copy of a decree, judgment or order is granted, the following particulars shall be recorded on the back of the copy itself, and in the form given below:—

(*i*) Date of application for the Copy.....
(*ii*) Date of notifying the requisite number of folios and stamps.
(*iii*) Date of delivery of the requisite folios and stamps.
(*iv*) Date on which the copy was ready for delivery.
(*v*) Date of making over the copy to the applicant.

49. All applications for copies shall be kept with the Superintendent of the Copying Section, filed in the order of delivery of copies in a separate series for each month, and shall be destroyed at the end of a year.

50. Only those persons shall be allowed to make copies who have been approved by the Registrar and whose names have been entered in a list kept for that purpose. Any attempt to supply copies otherwise than in the mode described by these rules will subject them to instant dismissal.

51. All regular employees in the office are prohibited from making any such copies, certified or uncertified, and from receiving any remuneration in respect thereof.

(3) The term of service required by the last preceding rule need not be all under one and the same contract, nor to one and the same person, but may be to different persons by virtue of an assignment or assignments, or by virtue of successive independent contracts upon the dissolution of the original or succeeding contract.

(4) The person under whom the articles shall be served shall, during the whole period of the service, be actually practising as a Vakil in the High Court.

(5) No person who is himself acting as clerk to a Vakil shall be able to take any clerk for service under articles.

(6) No person shall be capable of service under these rules until he shall have passed the B.A. or B.Sc. examination of the University of Calcutta, Allahabad, Patna, the Punjab, or Bombay, or the B.A. examination of the University of Madras.

(7) The contract in writing, whereby a person shall engage as aforesaid to serve as a clerk to any Vakil, shall be filed with the Registrar of the High Court on the Appellate Side within one calendar month after the execution of the same, together with an affidavit by such Vakil that he has been himself duly admitted, and has been practising for five years as a Vakil, and that such contract has been duly executed by himself and by the clerk therein mentioned. And in every such affidavit shall be specified the name of the Vakil and his place of abode or business, and the name of the clerk and his place of abode, together with the day on which the contract was actually executed.

(8) In case the articles of clerkship shall be assigned, the assignment shall be in writing, and shall be in like manner filed within one calendar month after the execution thereof, together with an affidavit that the same has been executed by all the necessary parties. And in every such affidavit shall be specified the name of the Vakil to whom the articles are assigned and his place of business, together with the day on which the assignment was actually executed.

(9) If, by reason of death or for any other good and sufficient reason, an assignment of the articles cannot be obtained, a fresh contract in writing shall be entered into by the clerk with the person under whom the service is continued, which shall be filed in the manner and with the affidavit prescribed by sub-rule (8).

(10) In case the contract or assignment, together with the necessary affidavit, be not filed within the time specified, the same may be filed with the said Registrar after the expiration thereof, but the service of such clerk shall be reckoned to have been commenced or renewed from the date of filing such contract or assignment unless the Court shall otherwise order.

(11) (*a*) Every person articled to serve as a clerk to a Vakil for the purpose of being admitted as a Vakil shall, unless the Court thinks fit to grant him a special dispensation, be, during the whole period of service, exclusively employed by the Vakil in his proper business and practice as such.

(*b*) Service under articles, original or assigned, shall be continuous, unless the previous sanction of the Court is obtained to an interruption thereof, or unless an interruption permitted by the Vakil, but not so previously sanctioned, is subsequently explained to the satisfaction of the Court and condoned.

IV. If the qualifications of the candidate are satisfactory to the Court, his name shall be entered in a register as *eligible* for admission to the Provincial Judicial Service, but priority of entry in the register shall confer no right to priority of appointment. V. At the time a registered candidate is appointed permanently to the Service, he shall ordinarily be required to submit a fresh health certificate signed by a Presidency Surgeon or a Civil Surgeon.

But the Governor in Council reserves to himself the right to make promotion to the senior grades of the Provincial Service by special selection for merit without regard to seniority, and hereby declares that seniority alone shall not give a claim to appointment to the grade on Rs. 500 or higher grades.

PART II.

Rules and Instructions relating to the Office and Establishment of the High Court, Appellate Side.

I.—General Instructions.

The office-rooms of the Court are not open to the public. No person shall be allowed access to such office-rooms otherwise than in accordance with the Rules of the Court, which permit certain acts to be done by legal practitioners or their clerks in the immediate presence of officials of the Court. Attendance before such officials is necessary for the purpose of—

(1) obtaining an office report from the Stamp Reporter as required by Rule 12, Chapter V;

(2) presenting to the Deputy Registrar or the Assistant Registrar, memoranda of appeals, memoranda of objections under Order XLI, Rules 22 and 26, Code of Civil Procedure, in accordance with Rule 13, Chapter V and getting the Court-fee stamps attached to such memoranda cancelled by the Filing Clerk in the presence of the Deputy Registrar or Assistant Registrar;

(3) having Court-fee stamps affixed to miscellaneous applications intended to be presented to the Court or to the Registrar or applications for copies information or inspection cancelled by the Court-fee Clerk and entered in the Court-fee Register;

(4) transacting business connected with the deposit of money, etc., with the Accountant of the Court;

(5) filing applications for leave to appeal to His Majesty in Council with the Clerk-in-charge of Privy Council Appeals after cancellation of the Court-fee stamps attached to such applications and entry in the Court-fee Register;

(6) filing applications for copies and folios with the Superintendent of Copying Section and appearing before him when required to do so;

(7) inspecting records in the inspection room and in the presence of the Inspection Clerk;

(8) filing applications with the Bench Clerks and appearing before them to settle draft decrees;

(9) attending before the Deputy Registrar or the Assistant Registrar if and when necessary;

(10) filing applications information and inspection of records with the officers empowered to deal with these matters;

(11) obtaining prescribed forms from the Forms Clerk;

(12) having oaths and affirmations administered before a Commissioner of Affidavits;

(13) getting affidavits declarants by a Translator explained to of the Court;

(14) filing miscellaneous documents not referred to above with the Court-fee Clerk for cancellation of the Court-fee stamps (if any) attached to such documents and for distribution to the sections concerned.

II.—INSTRUCTIONS TO BENCH OFFICERS.

(1) (*a*) Intimation is frequently received from the Lower Courts that records are returned by this office in a torn condition; and it is also sometimes intimated that papers belonging to the records are missing.

(*b*) As a rule, Vakils, etc., at the hearing of appeals, are allowed to inspect the original records, which, for the purpose, are made over to them bodily, and are thus liable to be roughly handled; and occasionally also, after the hearing, documents are found to be missing.

(*c*) The rules of Court enable parties to obtain copies of the record for the purposes of the hearing. It may be necessary to refer to original documents, the *factum* of which is the subject of controversy, or when any questions arise as to the correctness of copies of translations; but it is not intended that the originals should be used at the hearing for every ordinary purpose.

(2) When the inspection of any original document is allowed at the hearing by the Court, the Peshkar, or other Bench Officer in attendance, should, for that purpose, make over to the Vakil concerned the section of the file containing the document required for inspection. After inspection he is required to replace it in its proper position in the file with his own hands. He must see that exhibited documents in a case are not removed from the exhibit volume in which they are bound.

(3) He should also watch the inspection, and be held responsible for the documents.

(4) When inspection of the entire record is allowed, the Peshkar, or other Bench Officer in attendance, should see that the record is handled with due care. This is all the more necessary, as documents on the records of the Lower Courts are not infrequently written on flimsy paper which may be easily injured.

(5) Peshkars and other Bench Officers who have the custody of records need scarcely be reminded that they are responsible for all such records from the date on which they are transferred to them by the Section Record Clerk, until they are delivered by them for despatch to the Lower Courts.

(6) They should see that the documents given out for translation under the rules for the preparation of paper-books are replaced on the record before an appeal is brought on for hearing; and they are informed that they will be held responsible for any omission in the performance of his duty.

(7) When, after an inspection at the hearing, any documents are missing, or found to be injured the fact should be immediately reported in writing to the Registrar or Deputy Registrar. This should be done by the Peshkar through the Bench Clerk, and a copy of the report and of such order as may be made thereon should be placed on the record of the case, and the original report and order placed on the appeal file of the Court.

(8) Bench Clerks (who are "generally responsible for the due performance of all duties of a ministerial nature connected with the Division Bench to which they are attached") should see that the above instructions are carefully attended to by the Subordinate Bench Officers.

(9) They should see that the records are returned by the Subordinate Bench Officers to the office as soon as a case has been heard.

(10) They will have time to attend to this duty on Saturdays, when the Courts, as a general rule, do not sit.

(11) They shall carefully and promptly carry out the direction in Rule XI, page 96, *ante*, regarding release orders passed by the High Court.

N.B.—In every appeal admitted *in formâ pauperis* in which the appellant may have been successful, the Board of Revenue shall be furnished with a copy of the decree.

III.—RULES FOR ADMISSION OF TRANSLATORS.

(1) Whereas it appears desirable to ascertain the qualifications of persons who desire to be employed as Translators in the High Court by a formal and uniform test, the following rules have been framed by order of the Chief Justice for that purpose:—

(2) Any person being a candidate for the office of Translator or Sworn Examiner of translations in appeals to His Majesty in Council, or of Translator in appeals to the High Court exceeding Rs. 10,000 in value, may, after satisfying the Chief Justice that he is in other respects a fit person to be appointed to such office, be furnished with a letter to the Examiners, from time to time to be appointed, requesting that such candidate may be examined.

(3) The candidate, on presenting such letter, and after payment of the fee of Rs. 10, shall be examined at such time and place as the Examiners may direct.

(4) The Examination shall comprise the following parts:—

(*a*) A written translation into the vernacular language in which the appointment as Translator is sought, of a chosen printed passage from a classical English Author extending to not less than 30 lines of an ordinary octavo page.

(*b*) A written translation in the same vernacular of a manuscript paper, to be furnished by the Registrar to the Examiners, being a judgment, deposition, or document taken from the *misl* of some decided case.

(*c*) A written translation into English of a similar paper in the same vernacular to be likewise furnished by the Registrar.

(*d*) A *vivâ voce* rendering from the vernacular into English of at least six short sentences to be read out by the Examiner and a like rendering *vice versâ* from English into the vernacular.

(5) To each written translation the Examiner shall assign a reasonable time within which the task is to be completed and no translation shall be accepted which is not completed within the time so fixed.

(6) A candidate who desires to qualify in more than one language shall undergo a like examination in each language, paying the same fee for each.

(7) The candidate shall, if he pass the examination to the satisfaction of the Examiner, receive from him a certificate to that effect.

(8) The Chief Justice reserves to himself the power of subjecting any of the existing Translators or Examiners to the test above prescribed, or of requiring the passing of such test as a condition pre-

cedent to the promotion of any person employed in the Translation Department.

IV.—INDEBTEDNESS OF OFFICERS.

(Order passed by the Hon'ble Sir Richard Garth, Kt., Chief Justice, on the 22nd August, 1881.)

(1) The attention of the Chief Justice has been directed, more especially of late, to the unhappy state of indebtedness which appears to prevail amongst certain officers attached to the High Court Establishment.

(2) It is feared that the pernicious custom of borrowing money from usurers and others, and of becoming sureties for one another for the purpose of obtaining such loans, is only too prevalent. Many officers with good salaries, particularly amongst the Eurasian class, have been placed in serious difficulty by this system; and some of them have even been obliged to take the benefit of the Insolvent Act.

(3) With a view to putting a stop to this state of things the Chief Justice is pleased to notify as follows:—

(*a*) Any officer of the Court, taking the benefit of the Insolvent Act in consequence of having lent money to or become security for others, after this notice, will be dismissed from his appointment.

(*b*) No leave will be allowed to any officer against whom process has been issued for debt, or who is found to be keeping out of the way to avoid his creditors.

(*c*) Any officer who is found hereafter to be in difficulties, in consequence of having become security for his friends after this warning, will run the risk of dismissal, degradation, or not being promoted, according to the circumstances of each particular case.

V.—DISCLOSURE OF INFORMATION.

(Order passed by the Hon'ble Sir Richard Garth, Kt., Chief Justice, on the 19th September 1881, forbidding the disclosure by officers of the High Court of information taken from papers in the High Court.)

(1) By some means or other, information of an important and private character, which ought to have been strictly confined to the High Court, has found its way into the newspapers. It seems quite impossible that this information could have been disclosed, except through some officer of the Court; and it is imperatively necessary, in the interest of the public service, to prevent any such disclosures.

(2) If any similar disclosures should occur, any officer of the Court, through whose hands the papers containing the disclosed information may have passed, will be liable to be dismissed, or transferred to some other post.

(3) All officers, for the future, who may have the charge of papers for ever so short a time, will endorse their initials and date of receipt upon them, as directed by the head of the department, so that it may always be ascertained without enquiry through whose hands the papers have passed.

VI.—JUDGES' LIBRARY.

(1) Every book on receipt will be marked on the title-page and on the edges with the red seal of the Court and the book-plate of the Court will be affixed to each book of value.

(2) On the title-page the date of receipt and registered number will be entered within the seal, and the book will then be entered in the Register of books received.

(3) All new books will be placed in their appropriate book-cases by the end of the week in which they are received in the Library.

(4) Before being placed in the book-case, each book will receive a number and be entered on a card for the Card Index. Text-Books will also be entered on the appropriate Subject Index Cards. Each new book will also be entered in the Librarian's interleaved copy of the printed Catalogue. All new books with their Index Cards and numbers will be shown to the Registrar before they are put in the shelves in order that he may check the classification.

(5) When a new edition of a text-book is received, the preceding edition will be removed to the lower shelves of the book-cases, and if a still earlier edition is already on the lower shelves, it will be removed from the Library and placed among obsolete books. The serial number of the superseded editions will be retained for the books which take their place. In other cases a new book will be given a subsidiary number, *e.g.*, if a book by its alphabetical position comes in between Nos. 522 and 523 it will be numbered 522-A.

(6) When books have to be distributed to the Judges or others they will be entered in a Distribution Register, in which the receipts of the recipients will be taken.

(7) Books belonging to the Library will ordinarily be kept in the Library under the charge of the Librarian, but a supply of such books as are in constant requisition in Court will be made over to the Clerk of each Bench. The Librarian will check these books once every three months and the Clerk of the Bench will be held responsible for any books missing.

(8) In addition to the Library Catalogue, each Bench Clerk will keep, in a bound book, a catalogue of the books in his custody. On any change of officers, the clerk taking charge will sign a receipt to be entered in this book acknowledging the receipt of the books. In case he finds that any in the list are missing, he will report the matter for the orders of the Registrar.

(9) The Librarian will retain all requisitions for books until the books are returned. If any book is not returned within a month, he will himself enquire about it.

(10) Obsolete books will be kept in racks apart from the books in current use.

(11) The Librarian is responsible for seeing that the correct titles are placed on the backs of the books bound and that no books are bound unnecessarily.

(12) The Librarian is responsible for seeing that all the books in three book-cases are thoroughly dusted every Saturday, in order that every book in the Library may be dusted at least once in two months.

(13) Books are to be replaced on the shelves by the Librarian only, and on the day on which they are returned to the Library.

PUBLIC WORKS DEPARTMENT, BENGAL.

DISTRICT ROAD FUND.

Notification dated the 10th September 1920.—The subjoined abstract of the annual report and accounts of the District Road Committee of the Darjeeling District for the year 1919-20, together with the remarks of the Commissioner of the Rajshahi Division thereon, is published for general information.

C. P. WALSH,
Secy. to the Govt. of Bengal.

Extract from letter No. 380 P.W., dated the 10th July 1920, from D. H. LEES, ESQ., I.C.S., *Commissioner of the Rajshahi Division, to the Secretary to the Government of Bengal, Public Works Department.*

* * * * * * *

2. During the year 1919-20 the receipts amounted to Rs. 91,647 and the expenditure was Rs. 72.456. The closing balance which was Rs. 1,00,865 at the end of the year 1918-19 was further increased and amounted to Rs. 1,20,056 at the end of the year.

3. Despite the large resources of the Committee a sum of Rs. 630 only was spent on original works in preliminary expenses of a new road improvement project. It is not explained in the report why no original works were undertaken during the year, but it appears that the subordinate staff under the District Engineer was not appointed until late in the year. New projects estimated to cost about Rs. 47,000 were sanctioned during the year, and it is hoped that these and other necessary improvements of communications will now be carried out. A sum of Rs. 30,377 was spent on the repairs of roads, most of the works being done by the members of the Committee, managers of tea gardens and other gentlemen. There was no addition to the roads maintained by the Committee. The balance of the loan taken from Government in 1900 was fully paid up during the year.

Abstract of the Report by the Chairman, District Road Committee of Darjeeling, on the operations of the District Road Fund of the district for the year 1919-20.

[*Vide* letter No. 184 .F., dated the 28th June 1920, from S. W. Goode, Esq., I.C.S., Chairman of the District Road Committee, Darjeeling, to the Commissioner of the Rajshahi Division.]

1. **Working of the Committee—**

(*a*) *District Road Committee.*—There were 18 members of the Committee. 6 official and 12 non-official. Seven meetings were held during the year, the average attendance being 10 or 55·5 per cent. at a meeting.

(*b*) *Kurseong Branch Road Committee.*- The total number of members of this Committee was 9, 2 official and 7 non-official. Five meetings were held during the year. The average attendance was 3·8 or 42·2 per cent. at a meeting.

(*c*) *Terai Branch Road Committee.*—There were 16 members of this Committee, 2 official and 14 non-official. Five meetings were held during the year. The average attendance was 5·4 or 33·75 per cent. at a meeting.

2. The year opened with a cash balance of Rs. 94,186-15-3 and an outstanding advance of Rs. 6,677-10-9, making a total of Rs. 1,00,864-10. This amount together with receipts of Rs. 91,647-10-5 or a total amount of Rs. 1,92,512-4-5 was available for expenditure during the year. The actual expenditure during the year was Rs. 72,455-15-7 excluding the unadjusted advance of Rs. 5,456-15-3. The actual cash balance on the 31st March 1920 was Rs. 1,14,599-5-7. The closing balance of Rs. 1,20,056-4-10, including the unadjusted advance of Rs. 5,456-15-3, exceeds one quarter's kist of the annual receipts. A portion of this unadjusted sum was expended, but no accounts having been received within the year it could not be adjusted. The closing balance is, however, expected to be reduced in the current year to its normal proportions, the District Engineer and his full staff of subordinates having now been appointed.

3. **Provincial Rates.**—The road cess was levied in the district during the year by the Committee at the maximum rate of six pies in the rupee. Rupees 61,363-2-11 was collected under the head "Cess on lands" during the year against Rs. 61,051-15-8 in the previous year. The slight increase calls for no explanation.

4. **Contribution.**—

(*a*) *Grant from Government.*—A sum of Rs. 11,082-7-6 was received from Government, including Rs. 6,625 on account of augmentation of resources of the Committee, against Rs. 7,537-11-10 in the previous year. The increase is mainly due to the amounts of the previous year being credited on account of 1½ per cent. collection from Government estates during the year.

(*b*) *Contribution from Darjeeling Improvement Fund*—A contribution of Rs 19,142 was received under this head towards communications and its share as usual of the cost of the Joint Cess and Towjee Establishment and for Darjeeling Improvement Fund works against Rs. 8,830-7-7 in the previous year. The increase is due to the increased expenditure incurred by the appointment of a District Engineer and his subordinates, at the joint cost of the Road Fund and Darjeeling Improvement Fund.

(*c*) *Contribution from local bodies, etc,*—A sum of Rs. 60 was received from the Darjeeling Municipality during the year on account of collection of location rent.

Expenditure.

COMMUNICATION.

5. **Original Works.**—Rupees 630 was charged under this head on account of making the foot-track and survey operation for improvement of road 14 (Lepcha Jagat to Pulbazar) by diverting it from Gumba to Bhanjang.

6. **Repairs.**—The sum of Rs. 30,377-4 as per details below was spent for repairs to roads and bridges against Rs. 28,859-3-3 in the previous year. The slight increase calls for no explanation.

7. **Public Works Establishment.**—The District Engineer was appointed in 1918 and his staff during the latter part of the year. All works done in the hills and most of those done in the Terai were executed under the supervision of the District Engineer, by the members of the Committees and by the managers of tea gardens and other private gentlemen for which the thanks of the Committee are due to them. The important road cess bridges were repaired partly by the District Engineer and the Public Works Department. A sum of Rs. 18,126-12-7, including travelling allowances and contingencies, or 36·7 per cent. of the total outlay on works under the head "45 Civil Works" was spent for the entertainment of the Establishment referred to above. If the contribution of Rs. 11,950 made by the Darjeeling Improvement Fund for the works of the fund carried out by the Road Fund Public Works Establishment be deducted, the outlay of the Committee actually works out at Rs. 6,176-12-7 or 12·5 per cent.

8. **Tools and Plant.**—A sum of Rs. 153-10 was spent in purchasing mathematical instruments.

9. **Roads.**—The total lengths of 9 miles metalled roads and 390 miles unmetalled roads and 11 miles of village roads were repaired during the year at a cost of Rs. 1,716 or 190·6 per mile, Rs. 28,506 or Rs. 73·09 per mile and Rs. 155 or Rs. 14·09 per mile respectively, including Rs. 5,677-10-3 spent for the maintenance of certain important bridges thereon.

10. **Contribution to Darjeeling Improvement Fund.**—Rupees 8,195 was contributed to the Darjeeling Improvement Fund out of the Public Works Cess surrendered by Government towards medical aid and water supply.

11. **Loan.**—No fresh loan was taken during the year. A sum of Rs. 6,960-5-1 as principal and Rs. 351-7-10 as interest were paid during the year under the terms of the loans granted by Government in 1900 and 1901 for reconstruction and repairs of bridges destroyed and damaged by the cyclone in September 1899. The loan granted by Government in 1900 was fully paid up during the year.

12. **Administration.**—There were two Branch Road Committees, *viz*, Kurseong and Terai under the District Road Committee. Mr. J. A. L. Swan, I.C.S., Deputy Commissioner of Darjeeling, was *ex-officio* Chairman of the District Road Committee and of the Terai Branch Road Committee from 1st April 1919 to 19th February 1920 and Mr. S. W. Goode, I.C.S., Deputy Commissioner, Darjeeling, held the same offices from 20th February 1920 to the close of the year. Messrs. L. B. Burrows and N. K. Roy, Senior Deputy Collectors, were the *ex-officio* Vice-Chairmen of the District Road Committee from 1st April 1919, to 15th January 1920 and 16th January 1920 to 31st March 1920, respectively. Messrs. H. Quinton, I.C.S., and H. C. Stork, I.C.S., Subdivisional Officers of Kurseong were the *ex-officio* Chairmen from 1st April 1919 to 2nd May 1919 and 3rd May 1919 to 31st March 1920 respectively, and Dr. H. Kingsley Ward was the *ex-officio* Vice-Chairman for whole of the year of the Kurseong Branch Road Committee. Mr. B. A. Hollow, the Subdivisional Officer of Siliguri, was the *ex-officio* Vice-Chairman of the Terai Branch Road Committee throughout the year. The works of the District Committee and Branch Committees were performed satisfactorily. The thanks of the Committees are due to the officers and other members of the District and Branch Committees for the care and interest taken by them in the discharge of their duties.

ALCUTTA, THE 11TH SEPTEMBER, 1920.

RESOLUTION—No. 2310 Marine.

READ—

The Administration Report of the Commissioners for the Port of Chittagong for the year 1919-20.

Income.—The ordinary receipts of the Port Fund during the year under review amounted to Rs. 5,41,713 (exclusive of the ordinary Government

grant of Rs. 1,50,000 for the improvement of the Port), as against Rs. 2,28,310 of the preceding year. Further grants were made by Government of Rs. 3,25,000 for revetment work and of Rs. 8,00,000 for the purchase of the Dredger "Pelican." This latter grant has not been utilized as the *Pelican* was found unsuitable for the Port.

The increase was mainly due to the general improvement of trade following the termination of the war.

Expenditure.—The ordinary expenditure of the Port Fund for the year amounted to Rs. 6,51,538 as against Rs. 4,60,263 of the previous year. The increase was mainly due to an all-round increase of pay of the Port Commissioners' employees, the grant of a bonus of a month's pay to clerks, repairs to the Commissioners' buildings, increased cost of stores and the purchase of a new motor launch for River Survey work. The capital expenditure from the Port Fund during the year amounted to Rs. 2,62,348.

Assets and Liabilities.—The value of the Port Commissioners' properties, as estimated on the 31st March 1920, stands at Rs. 50,61,491, and the liabilities, excluding loans from Government for revtment work, at Rs. 1,27,942. The increased rates of river dues, mooring and unmooring charges, port dues, etc., which were adopted during the previous year as a war measure continued during the year.

Dredging Report.—The dredger *Karnafuli I*, was twice under repairs during the year. She worked at the Outer and Inner Bars for 156 days dredging 7,172,200 cubic feet.

Outer Bar.—An average depth of 9 feet 9 inches was maintained throughout the year. The dredger was employed for 84 days on this bar.

Inner Bar.—An average depth of 9 feet 10 inches was maintained during the year. The dredger was at work for 72 days on this bar.

River Survey.—The annual surveys were carried out from the mouth of the river to 6 miles above Sadarghat. These surveys showed a marked improvement in the navigable channels.

The river survey was carried on continuously throughout the year, 101,818 soundings having been taken over a length of 776·61 miles, the largest on record.

Revetment.—Slight repairs were necessary in places in the old revetment.

Light-houses.—The Kutubdia and the Norman's Point, Light-houses, towers, lanterns and clockwork remained in good order.

Light vessels.—The Light vessel *Sarsuti* underwent a general overhaul during the year. The total cost of maintaining the vessel amounted to Rs. 19,717.

Shipping.—The total number of ocean-going vessels, inland steamers and sailing vessels which entered the Port was 842 as against 709 during the previous year.

Two preliminary enquiries into cases of shipping casualties were held by the Port Officer.

Trade.—The total value of foreign and coasting sea-borne trade shows an improvement of over 62 per cent. over that of the previous year.

Sanitation.—The general health of the Port was good.

Future Administration of the Port.—It has been decided to place the port of Chittagong under the direct control of the Assam Bengal Railway, and the necessary legislation to give effect to this decision is now under the consideration of the Government of India.

General.—The duties of the Port Officer were carried on up to the 30th June 1919, by the Collector of Customs and the Senior Harbour Master in addition to their own duties. Commander H. M. K. Moilliet, O.B.E., R.I.M., took up the appointment of Port Officer from the 1st July 1919.

Mr. K. C. De, Commissioner of the Chittagong Division, was Chairman of the Trust throughout the year.

By order of the Governor in Council,

C. B. BAYLEY,

Deputy Secy. to the Govt. of Bengal.

No. 78, dated Simla, the 21st August 1920.

NOTIFICATION—By the Government of India, Department of Education.

IN exercise of the powers conferred by section 15 of the Indian Census Act, 1920 (IV of 1920), the Governor General in Council is pleased to make the following rules for taking the census of cantonments and of troops on the march and elsewhere :—

RULES FOR TAKING THE CENSUS OF CANTONMENTS AND OF TROOPS ON THE MARCH AND ELSEWHERE.

A.—CANTONMENT BAZARS AND CIVIL LIMITS.

1. *Agency and Rules.*—The census of so much of each cantonment as lies beyond regimental or other purely military lines will be taken by the

Cantonment Magistrate acting under the instructions of the civil authorities of the district or State. The rules to be followed are those laid down in the Provincial Census Codes.

B.—MILITARY LIMITS.

2. *Agency.*—Within regimental lines, or other purely military limits, the census will be taken by the military authorities. The operations in military limits will be placed in general charge of a selected officer, who should, if possible, be conversant with the vernacular language in which the census record will be prepared for natives of India resident within military limits.

3. *Determination of boundaries.*—The determination of the purely military limits within the contonment should be undertaken, *not later than the 15th September 1920*, by the military and civil authorities in consultation with each other. The boundary decided on should be shown on a map, so that both may know clearly the areas for the enumeration of which they are respectively responsible.

4. *Scope of enumeration.*—The census to be taken by the military authorities under these orders will include all persons of whatever age, sex, race, or profession, who, on the night of the 18th March 1921, are temporarily or permanently residing within military limits. In other words, it will include all persons who, though ordinarily residing elsewhere, may on that night be stopping temporarily within those limits; and also those who, while actually living and taking their meals within the same, may be absent for a few hours on night duty, etc.

5. *Way in which census record will be prepared.*—European officers and civilian Europeans and Anglo-Indians of good standing will, if they desire, be supplied with Household Schedules on which to enter the necessary particulars for themselves, their families and their European or Anglo-Indian servants. For all other persons the census record will be prepared by enumerators in the manner described further on.

6. *House list.*—A list should be prepared in the following form, *not later than the 15th October 1920*, showing every house or other building in the area in question which is inhabited, or is likely to be inhabited, on the night of the census :—

HOUSE LIST

District *Cantonment or Station.* *Regiment*

Serial No. of house.	Description of house (*i.e.*, barracks, guardhouse, dwelling house married quarters, followers' quarters, etc.).	Name of chief occupant, o officer in charge.	Usual number of occupants.	Language in which the record will be prepared.	Whether household schedules required—see rule 5. Enter "yes" or "no" against each house.
1	2	3	4	5	6

HOUSE LIST.

7. *Definition of house.*—If any large building has been divided into separate dwellings or tenements such as married quarters, occupied by distinct families or groups of persons, each of these dwellings should be treated as a house and given a separate number in column 1 of the House List. Large buildings not so divided, such as the quarters of unmarried privates, should be given only one number.

Huts occupied by Indian servants should be numbered separately from the houses to which they belong. Each block of servants' huts should be given a number of its own.

8. *House numbering.*—While the above list is being prepared, the number entered against each house should be painted conspicuously on the building, so that it may be easily recognised by the enumerator.

9. *Formation of blocks and circles.*—After the numbers have been painted, the house should be arranged in compact blocks, and these blocks should be grouped into circles. No block should contain more than 250 persons, and no circle more than 2,500. Separate blocks should be formed for Indian followers and servants attached to British regiments or employed by the officers.

10. *Appointment of supervisors and enumerators.*—For each block an enumerator should be appointed, and for each circle a supervisor. The enumerator is the person whose duty it will be to fill in the Census Schedules for all persons in his block, except those for whom Household Schedules will be issued as provided in rule 5. The supervisor is responsible for seeing that all the enumerators in his circle understand their duties and carry them out satisfactorily. Non-commissioned officers of the regiments to be enumerated will usually be selected for these posts. Blocks occupied by Indian followers and servants should be placed in charge of enumerators who are well acquainted with their language and customs, such as the regimental Munshi or a Commissariat Indian official.

11. *Circle Register.*—A Circle Register should then be drawn up in the following form and forwarded, *not later than the 15th November*, to the District or Political Officer, as the case may be :—

CIRCLE REGISTER

District *Cantonment or Station.* *Regiment*

Serial No. of circle.	Name of supervisor.	Serial No.	Name of enumerator.	Number of house in each block.	Number of persons in each block.	Language in which the record will be prepared.	Number of houses for which Household Schedules will be required.	Remarks.

12. *Supply of forms.*—On receipt of the Circle Register the District or Political Officer will at once calculate the number of forms (English and vernacular) of each kind required at the rate of—

(*a*) 1 cover per block;
(*b*) 1 Block List per block;
(*c*) 1 General Schedule for every 12 persons;
(*d*) 2 Household Schedules for each house in which such schedules will be used;

without adding 25 per cent. for emergencies, etc.—

He will also supply for each supervisor one cover with five General Schedules and a Block List stitched into it. This will serve to show how the forms should be bound up to make the Enumeration Books, and will also be useful for instruction purposes as explained in rule 14.

13. *Block List.*—As soon as the forms are received, the Block List showing the number and description of the houses in each block should be written up from the House List.

14. *Instruction of census staff.*—The supervisors and enumerators must study very carefully the instructions on the first two pages of the cover and the Specimen Schedule on the back of it. The officer in charge of the census must satisfy himself that they clearly understand their duties. He should make them fill in a few entries each in the bound copy of the Enumeration Book supplied to supervisors for instruction purposes and should correct mistakes and give such verbal explanations as are found to be necessary.

15. *The preliminary enumeration.—Early in February 1921,* each enumerator should go round his block and enter in his Enumeration Book full particulars regarding every man, woman, or child whom he finds residing therein, including persons temporarily absent who are expected to be back by the 18th March. This work should be completed by the *end of February.* The entries thus made must be carefully examined and corrected by the supervisor. The officer in charge of the census should himself examine as many entries as possible in each block, in order to make sure that they have been properly made. The houses should be taken in the order in which they are entered in the House List, and exact observance of the instructions must be rigidly enforced. Europeans and Anglo-Indians of the class referred to in rule 5 need not be enumerated on this occasion, but Household Schedules should be distributed to them on the 16th March and the signature of the head of the household taken in the last column of the Block List.

16. *The Final Census.*—After gunfire on the night of the 18th March, 1921 the enumerator should again go over his block and bring the preliminary record up to date by striking out the entries for persons who have died or gone away and entering the necessary particulars for new arrivals. He will thus complete the census.

17. *Rough totals—Collection and despatch of forms.*—On the morning of the 19th March the enumerators will collect all the Household Schedules that have been issued and sew them into their books. They will then assemble at some place previously fixed by the supervisor and prepare under his insturctions the Abstracts inside the covers, showing the number of houses and persons, male and female, in each block. After testing the figures the supervisor will compile them into a circle summary, showing the number of persons in the circle, and the various summaries will then be combined into a single statement by the officer in charge of the census and sent to the District or Political Officer, as the case may be. The Enumeration Books should then be packed up at once and sent to the same officer. They should be arranged carefully by blocks and circles according to the order shown in the Circle Register.

C.—TROOPS ON THE MARCH AND ON DUTY OUTSIDE CANTONMENTS.

18. *Troops on the march.*—The census of regiments on the march and of troops on duty will be taken by the officer in command. The census will include all persons, of whatever sex, age, race or profession, who are marching with the troops. The officer in command should be provided with the requisite forms *at the cantonment from which the troops start.* He should arrange to make one of the weekly halts on the 18th March 1921. If the preliminary enumeration was not effected before the troops left their last cantonment, the schedules should be written up during the day. They should be checked in the usual manner after dark.

19. *Troops in trains.*—If the regiment or detachment be travelling by rail on the night of the census, the enumeration of the actual troops should be effected by the officer in command at the first place at which the men alight. The Railway authorities will enumerate the families, servants and followers travelling with them in accordance with the general rules for the enumeration of persons travelling by rail.

20. *Despatch of forms.*—The Enumeration Books for regiments or detachments on the march will be sent to the Magistrate of the district or the Political Agent of the State in which they are enumerated. The place where they were encamped at the time of the census must be reported to the same officer. A telegram must also be sent to him stating the number of persons (total males and females) enumerated.

21. *Troops beyond the Frontier.*—Troops or military outposts in tracts of which no general census is being taken will be recorded in the final tables as belonging to the cantonment or station within the administrative frontier from which, or in connection with which, they are detailed, or which is nearest to the post they occupy. Their Enumeration Books will be sent to the cantonment or station.

D.—GENERAL.

22. *Issue of special instructions.*—The Provincial Superintendent of Census Operations will issue the necessary subsidiary instructions and arrange for the supply of forms, etc.

23. *Census expenditure.*—Cantonment funds will bear all charges in connection with the actual enumeration, but the requisite forms will be supplied free of charge. Government will bear all charges in connection with the compilation of the results.

In the event of an applicant being promised a licence he will be enabled to deal with the order straightaway with the knowledge that upon application being made in the proper form to the Import and Export Licensing Section (Board of Trade) the licence will be granted.

The telegrams should be addressed to " Derestim, London. " They should give in each case in addition to the name and postal or telegraphic address of the applicant the quantity and description of the goods comprised in the order and the country of destination. A reply of 24 words (1/3) must be prepaid.

Applicants are requested in their own interest to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

Any subsequent correspondence that is necessary in connection with the telegraphic enquiries should be addressed to the Director, Import and Export Licensing Section, Board of Trade, Great George Street, S. W.-1.

FOREIGN TRADE.

Simla, the 11th September 1920.

No. 6034.—The following extract from the Board of Trade Journal, dated the 29th July 1920, is republished for general information with reference to the Notification in this Department No. 2652, dated the 5th June 1920 :—

CUSTOMS REGULATIONS AND TARIFF CHANGES.

FRANCE AND ALGERIA.

MODIFICATION OF IMPORT RESTRICTION REGIME.

By a French Presidential Decree dated 22nd July, and published in the " Journal Official " of the 25th July, the import prohibitions imposed in April last (*see* pages 627 to 630 of the issue of this " Journal " for the 6th May) have been withdrawn except in respect of a very limited number of goods. Various goods of classes formerly prohibited to be imported are now subject to increased Customs duties (the " co-efficients of increase " for such goods having been augmented by the present Decree) and others can now be

imported freely, on payment of Customs duties and the " co-efficients " established in July last.

Detailed particulars of the present Decree are given below :—

MINISTERIAL REPORT PREFIXED TO THE DECREE.

Prefixed to the Decree is a Report to the President of the French Republic from the Ministers submitting the Decree for signature. The Report is as follows :—

To the President of the French Republic—

On the 23rd April last you signed a Decree prohibiting the importation into France and Algeria of a large number of goods which were either " articles of luxury " or products which were not indispensable. The Government regarded this measure as a purely provisional one which should be amended as soon as the situation had improved.

The advantages which it was hoped would follow from this measure were in fact soon realised; in particular, the price of foreign credits became less almost immediately, as the result of an appreciable improvement in our Exchange, and this has had very good effects upon the general prices of goods.

The purposes in view having been obtained, the restrictions should now disappear, except in the case of certain articles which for special reasons cannot yet be freed; the maintenance of the restrictions would, in fact, impede the development of French industrial activity, and might do away with the favourable result already obtained.

For these reasons the Government has decided to re-establish, as far as possible, freedom as regards imports; and the statements to this effect which the Government have recently made have been unanimously approved by Parliament.

On the other hand, the Government consider that it is necessary, in so far as concerns articles of luxury in respect of which the prohibition is withdrawn, to revise the schedule of " co-efficients of increase of Customs duties " resulting from the Decree of 8th July, 1919, in such a way as to re-establish for such goods the same *ad valorem* incidence of duty as existed before the war. In no case are the new co-efficients to be greater than the relation between present values and those of 1913. It is only a question (this fact must be emphasised) of a readjustment, and not of an effective increase, of Customs duties.

The Government consider that they are following the best interests of the nation in adopting these measures. They hope that traders and consumers will do their utmost not to abuse the freedom of importation which is now restored, but that under the new arrangements they will take all necessary steps and make all necessary efforts to improve the economic situation of France by the constant lowering of the cost of living and, what is more important still, by the development of exports.

We have, therefore, the honour, to submit herewith the annexed Decree, and hope you will be good enough, should you approve, to affix your signature.

TRANSLATION OF PRESIDENTIAL DECREE.

The following is a translation of the Presidential Decree, which is dated 22nd July—

Article 1.—The Decree of 23rd April, 1920, is abrogated.

Article 5.—By way of exception, derogations from the prohibition of import may be authorised by the Minister of Finance on the advice of the Ministerial Departments concerned.

Article 6.—The list of "co-efficients of increase" established by the of 8th July, 1919, and subsequent Decrees, is completed and modified in conformity with the provisions of Schedule B annexed to the present Decree.

LIST OF BUSINESS—ITEM No. 2.

STARRED QUESTIONS.

The following questions which had been starred were put and answered:—

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

*1.

(*a*) Will the Government be pleased to state whether it is a fact that graduates from the Sibpur Engineering College are examined after their period of practical training with passed Overseers from the Engineering Schools?

Examination of students of the Sibpur Engineering College and of other Engineering Schools.

(*b*) Are the Government aware that the standard of education received by the Engineer students is different from that received by the Overseer students?

(*c*) Are the Government considering the desirability of examining these two classes of students separately?

Answer by the Hon'ble Mr. Cowley:—

"(*a*) Yes.

(*b*) Yes.

(*c*) The attention of the Hon'ble Member is invited to the Government of India, Public Works Department, Resolution No. 192 E.A., dated the 1st April, 1920, republished in Part I of the *Calcutta Gazette* of 28th April, 1920. The final orders of the Government of India regarding the organisation of the Bengal Engineering Service and Subordinate Engineering Service are awaited. Meanwhile all matters relating to these services, including those referred to by the Hon'ble Member in this and the following questions, are engaging the attention of the Local Government."

Questions and Answers.

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

***II.**

Are the Government considering the desirability of increasing the number of guaranteed posts of Assistant Engineer for the Sibpur Engineering College and of raising the initial salary of those graduates who fail to get the guaranteed posts?

Answer by the Hon'ble Mr. Cowley:—

"The number of guaranteed posts of Assistant Engineer is fixed by the Government of India and under their orders an apprentice engineer from the Civil Engineering College, Sibpur, is posted to the Bengal Public Works Department establishment and to the State Railway establishment in alternate years. Graduates who fail to obtain guaranteed posts do not necessarily become members of any branch of the Indian Service of Engineers, but the pay of those who may accept appointments in the new Bengal Engineering Service will be regulated by the orders of the Government of India regarding the organisation of that service."

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

***III.**

(*a*) Will the Government be pleased to state whether it is a fact that they propose to establish a new "Provincial Engineer Service"?

(*b*) If so, what will be its cadre and scale of pay?

(*c*) Will graduates from the Sibpur College who are already serving as upper subordinates be given preference in filling up these posts?

Answer by the Hon'ble Mr. Cowley:—

"(*a*), (*b*) and (*c*) The Hon'ble Member is referred to the answer already given to starred question I (*c*)."

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

***IV.**

(*a*) Are the Government aware that great hardship is being felt by the members of the upper subordinate establishment of the Public Works Department, on account of their slow promotion?

(*b*) Are the Government considering the desirability of introducing a time-scale of pay in their case?

Answer by the Hon'ble Mr. Cowley:—

"(*a*) Yes.

(*b*) The Hon'ble Member is referred to the answer already given to starred question I (*c*)."

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

***V.**

(*a*) Will the Government be pleased to state whether it is a fact that the rent of *bastu* lands of tenure-holders which are part and parcel of other agricultural lands is being assessed for income-tax in the district of Jalpaiguri?

(*b*) Is there any Government circular directing such assessment?

Questions and Answers.

Answer by the Hon'ble Mr. Marr:—

"(*a*) Yes. only one such assessment was actually made, which was on an income of Rs. 370 of a zamindar. The attention of the Deputy Commissioner, Jalpaiguri, has been drawn to Board's Circular No. 32 B., dated the 8th July, 1890, which directs that income derived from *bastu* lands rented to non-agriculturists only should be considered liable to income-tax.

(*b*) No."

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

***VI.**

Will the Government be pleased to state what is the present condition of the Jalpesh Temple, situated in the Government Western Duars, and state the estimated cost required for repairing the temple and whether the committee appointed by the Government have sufficient funds to undertake the necessary repairs for the temple?

The Jalpesh Temple in the Western Duars.

Answer by the Hon'ble Mr. McAlpin:—

"The Jalpesh temple was severely damaged by the great earthquake of 1897, involving the collapse of its central dome. Some other minor repairs are also necessary. A special mason has been engaged for the reconstruction of the central dome, and the estimate of the cost of this work cannot be prepared until he joins. It is not, therefore, possible to say definitely, though it is believed that the funds at the disposal of the Committee will be sufficient to complete the necessary repairs."

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

Questions and Answers.

Answer by the Hon'ble Mr. McAlpin:—

"(*a*) Inquiries have from time to time been made regarding the indebtedness of agriculturists, particularly in connection with settlement operations.

(*b*) The Hon'ble Member is referred to the Settlement Final Reports of Faridpur, Dacca and Midnapore and to the late Major Jack's 'Economic Life of a Bengal district.' It is, however, for obvious reasons, impossible for Government to state the amount of indebtedness in each district with any claim to accuracy."

(*c*) In view of the answer to (*b*) no action need be taken."

By the Hon'ble Rai Srinath Ray Bahadur:—

***X.**

Is it a fact that in the subdivision of Gopalganj in Faridpur numbers of men have been reduced to utter destitution and are desirous of going to Mesopotamia and other places to earn their livelihood?

Answer by the Hon'ble Mr. McAlpin:—

"As regards the first part of the question a statement is laid on the table.

It has not come to the notice of either the local authorities or Government, that numbers of men in Gopalganj are desirous of going to Mesopotamia and other places to earn their livelihood."

Statement referred to in the answer to question No. X (starred) asked by the Hon'ble RAI SRINATH RAY BAHADUR *at the meeting of 1st July, 1920, showing distress in the Gopalganj and Madaripur sub-divisions of the Faridpur district.*

There has been distress in certain thanas—especially in the *bhil* areas of the Gopalganj and Madaripur sub-divisions of the Faridpur district. The distress is attributed to (1) the general effect of the cyclone of last year from

Questions and Answers.

which the people in this area have not quite recovered yet; (2) the shrinkage of private charity; (3) the want of work, a usual thing at this time of the year; (4) high prices; and (5) the damage (the extent of which has not yet been ascertained) to the low land *bhil* paddy crop by the early rain in March last. The position has been aggravated by the fact that banks and *mahajans* have stopped giving loans because of their inability to collect their previous dues. The District Officer, Mr. J. N. Roy, O.B.E., who has visited the affected area and made personal inquiries, reports that the situation is not so serious as it was thought to be at first.

The following measures of relief have been undertaken:—

(1) The provision of work for able-bodied persons on the construction of, and repairs to, roads undertaken by the District and Local Boards and the removal of water-hyacinth.

(2) The provision of work for women on paddy-husking, for which purpose the District Board have made necessary advances.

(3) The supply of Burma rice at controlled price. The District Board have arranged for the purchase of 1,000 maunds of Burma rice and the sale thereof at cost price in Gopalganj. A supply of 1,361 maunds of Burma rice has also been arranged for the Madaripur subdivision.

(4) The grant of agricultural loans to cultivators. The Collector has been placed in funds to meet the demands for such loans.

By the Hon'ble Babu Sarat Chandra Chakrabartty:—

***XI.**

(*a*) Are the Government aware that there is no raised platform at the Goalundo railway station on the Eastern Bengal Railway in consequence of which the passengers, specially of the intermediate and third classes, suffer great inconvenience to get into the carriages.

Goalundo railway station platform.

(*b*) Are the Government considering the desirability of drawing the attention of the Railway Company to this inconvenience and of suggesting that wooden staircases be provided on all intermediate and third class carriages as is now done in the cases of first and second class carriages only?

Answer by the Hon'ble Mr. Cowley:—

"(*a*) Government are aware that there is no raised platform at Goalundo Ghat railway station.

(*b*) The alleged inconvenience to intermediate and third class passengers, and the proposals for remedying the same will be brought to the notice of the management of the Eastern Bengal Railway."

By the Hon'ble Babu Sarat Chandra Chakrabartty:—

***XII.**

(*a*) Are the Government aware—

Steamer service between Narayanganj and Goalundo.

(*i*) that in each of the passenger steamers plying between Narayanganj and Goalundo several well-furnished cabins, a dining saloon and a spacious front deck are provided for 1st class passengers;

(*ii*) that only two unfurnished small cabins, one for ladies and another for gentlemen, without any deck, are provided in each of the said steamers. for 2nd class passengers;

Questions and Answers.

(*iii*) that in each of these steamers the space between the 1st and 2nd class cabins is being used as a pantry, store room for fish and meat, and that a table is often placed there for the purpose of washing the plates of the 1st class passengers and very often mutton is hung up close to the 2nd class cabins and within view of the 2nd class passengers?

(*b*) Are the Government considering the desirability of drawing the attention of the steamer companies with a view to the removal of the aforesaid inconveniences of the 2nd class passengers and for the making of better arrangements for them?

Answer by the Hon'ble Mr. Cowley:—

"(*a*) (*i*) Yes

(*ii*) (*iii*) and (*b*) The Hon'ble Member is referred to the answer given in July, 1919, to unstarred question No. 30 (*b*) (*i*) to (*iv*), a copy of which is laid on the library table. The Steamer Company have since reported that the question of improving the 2nd class accommodation on their Padma service steamers has been receiving their attention and that improvements are being effected on the various steamers from time to time. They add that the size and structural arrangement generally of these steamers do not permit of any radical improvements being made without serious encroachment upon the space allotted for 3rd class passengers, but that full consideration will be paid to the requirements of 2nd class passengers when building new steamers for the Padma service and that such measures as are possible will be taken to remedy the inconveniences from which they are now suffering."

By the Hon'ble Babu Sarat Chandra Chakrabartty:—

***XIII.**

In view of the fact that most of the districts in this Presidency have been given the privilege of electing non-official Chairmen, are the Government considering the desirability of laying down a rule that Government officials shall not be elected as Chairmen of the Local Boards?

By the Hon'ble Babu Sarat Chandra Chakrabartty:—

(*ii*) that owing to the aforesaid condition of these two rivers difficulties are being experienced by the people in regard to trade and communication?

(*b*) Will the Government be pleased to state—

(*i*) whether the action hitherto taken by them to improve the condition of these two rivers has been successful;

"(*a*) (*i*) and (*ii*) The Hon'ble Member is referred to the answer given to starred question No. 33 by the Hon'ble Babu Brojendra Kishor Ray Chaudhuri at the meeting of this Council held on the 5th March, 1917. Government are in full possession of the facts in regard to the navigable condition of both the Dhaleswari and Buriganga rivers, and annual reports on the condition of these rivers and the operations undertaken during the year for their improvement are received from the Superintending Engineer, Eastern Circle.

(*b*) (*i*) Government are advised that the action taken to improve the condition of these two rivers has resulted in arresting deterioration, but that no permanent improvement can be said to have been effected.

(*ii*) Government propose to continue annual *bandalling* operations in these rivers and if possible, when conditions are favourable, to dredge the bars when suitable dredgers are available.

(*iii*) The *bandalling* operations are continued year by year. Owing to conditions arising out of the war dredging operations were discontinued from 1915-16, but in the cold season of 1918-19 the dredger 'Foyers' was employed to open up the mouth from the Jamuna into the Dhaleswari. The Postgola shoal at Dacca was also dredged in the years 1918-19 and 1919-20.

(*iv*) The present annual cost of *bandalling* operations varies from Rs. 20,000 to Rs. 25,000. In this connection the Hon'ble Member is referred to the statement of expenditure on dredging and *bandalling* works from 1906-07 to 1916-17, which is attached to the answer given to starred question No. 33 by the Hon'ble Babu Brojendra Kishor Ray Chaudhuri at the meeting of this Council held on the 5th March, 1917.

(*v*) The officer under whose supervision these operations are conducted is the Executive Engineer, Dacca Division. The Executive Engineer, Dacca Division, in charge of this work up to the 4th February, 1920, is an experienced officer of the Public Works Department. Questions and Answers.

Answer by the Hon'ble Mr. Cowley:—

"(*a*) Yes.

(*b*) No. The proposal has already been considered by Government and definitely rejected."

By the Hon'ble Babu Sarat Chandra Chakrabartty:—

***XVI.**

The Dacca University's special officer.

(*b*) Presumably this question refers to the existing opportunities for promotion from the Subordinate to the Provincial Service. If not, why not?

Questions and Answers.

(*c*) (*i*) Is it a fact that the services of such settlement clerks are not permanent and that they are not entitled to pension or gratuity, even if they were to spend their whole life in the service of the settlement department?

(*ii*) If so, are the Government considering the desirability of preparing a scheme for improving and remodelling the service in regard to its permanency, pension, leave, etc.?

Answer by the Hon'ble Mr. McAlpin:—

GOVERNMENT OF BENGAL, FINANCE DEPARTMENT RESOLUTION NOS. 373-441 T.—F., DATED THE 29TH MAY, 1920, TO ALL COMMISSIONERS OF DIVISIONS, DISTRICT JUDGES, AND OTHERS.

The question of improving the pay and prospects of the menials in this Presidency drawing Rs. 12 and less having been under the consideration of Government for some time, proposals were submitted to the Government of India to raise their pay in order to render unnecessary the grant of grain compensation allowance. The Government

Questions and Answers.

of India have now, with the approval of the Secretary of State, sanctioned the proposals of this Government with slight modifications regarding the pay of the process-serving establishment.

2. The rates of pay sanctioned vary in the different districts of this Presidency, which for the purposes of the scheme have been classified under three heads with reference to the cost of living, viz., group A, where the cost of living is great, comprising Calcutta, Howrah (Sadar), Darjeeling and the 24-Parganas (Sadar); group B, where the cost of living is moderate, comprising all the districts, save those included in groups A and C; and group C, where the cost of living is low, comprising Birbhum, Bankura and Midnapore. The menials have, for the purposes of the scheme, been divided into two broad classes, viz., (*1*) establishment menials, *i.e.*, those whose pay is drawn on establishment bills, and (*2*) contingency menials, *i.e.*, those paid from contingencies. The first class is also subdivided into (*a*) process-serving establishment, and (*b*) other establishment menials, *e.g.*, orderlies, peons, messengers, duftries, record-suppliers, barkandazes, durwans, etc., etc. The rates of pay now sanctioned will accordingly be:—

	During first five years.	During 6th to 15th years.	After 15th year.
For establishment menials—			
(*a*) Process-servers in A and B districts .	13	14	15
Ditto ditto C „ .	12	13	14
(*b*) Other establishment menials in-			
A districts	11	12	13
B „	10	11	12
C „	9	10	11
For contingency menials in—			
A and B districts	9	Irrespective of the length of service.	
C districts	8		

3. These orders will have effect from the 8th March, 1920, and the expenditure will be met from the provision of Rs. 10,00,000 made in the Miscellaneous Budget for the current financial year under revision of pay of menials.

4. After the introduction of the new rates of pay the war allowance sanctioned in memorandum No. 6242 F., dated the 12th June, 1919, should only be continued to those menials who do not benefit by the new scheme, and any menials who benefit by the new rates of pay must refund the war allowance already drawn for the period from 8th March, 1920, by deduction from the bills in which their increased allowances are drawn.

5. It has already been stated that the rates of pay have been so regulated as to include the sum they now draw in the shape of grain compensation allowance. In future the grant of grain compensation allowance should only be given when the price of the cheapest common rice is dearer than 8 seers to the rupee.

6. The Accountant-General, Bengal, has been instructed to give effect to the scheme at once and to arrange that all arrears of pay in accordance with this scheme may be disbursed with effect from the 8th March, 1920. Any communication that is desirable in this connection may be made with that officer direct.

By the Hon'ble Dr. Abdulla-al-Mamun Suhrawardy:—

11.

(*a*) Are the Government aware of a feeling of disappointment and discontent among the members of the Bengal Provincial Executive Service on account of the inadequacy of pay and emoluments, proposed in the recent Bengal Government Resolution?

Pay and emoluments of the members of the Provincial Executive Service.

(*b*) Is it a fact that a more suitable scale has been allowed in the Punjab, the Central Provinces and the United Provinces?

(*c*) Are the Government aware of an opinion that has been expressed that prices are higher and economic conditions are more acute and that the nature of work done by Deputy Collectors and Deputy Magistrates is more important in Bengal than in any of the provinces named?

Questions and Answers.

(*d*) Is it a fact that the Secretary of State for India fixed the standard of pay at Rs. 250 to Rs. 1,200 and gave discretion to the Local Governments to work out schemes in their respective Governments?

(*e*) If so, are the Government contemplating the desirability of reconsidering the scheme proposed in their recent resolution and of taking steps to make the scales in Bengal the same as in the Punjab or in the United Provinces?

Answer by the Hon'ble Mr. Stephenson:—

"(*a*) Government's information is that the scale of pay recently sanctioned for the Bengal Provincial Executive Service was received with satisfaction by the service as a whole, but that this feeling was succeeded by disappointment when the scales sanctioned in certain other provinces came to be published.

(*b*) Different scales have been adopted in the provinces mentioned. The Government of Bengal are unable to express an opinion on their suitability in those provinces, but consider their own scale to be suitable to Bengal.

(*c*) The latter part of the question apparently has reference to paragraph 34 of the report of the District Administration Committee. The authority for the former part is not traced; it is a matter on which it is dangerous to generalise.

(*d*) The Secretary of State directed that the minimum pay on confirmation should not be less than Rs. 250 or more than Rs. 300; that the maximum pay in the time scale should not exceed Rs. 850; and that the pay of the selection grade or grades above Rs. 850 should not exceed Rs. 1,200. Within these limits he authorised local Governments to adopt such schemes as they considered appropriate to the conditions of their province.

(*e*) It is not proposed to reconsider the decision that has been announced."

By the Hon'ble Babu Akhil Chandra Datta:—

12.

(*a*) The orders of the Government of India regarding the emoluments of the Provincial Executive Service having now been received and a regular scheme published, will the Government be pleased to state what conclusions regarding the future recruitment and emoluments of the Subordinate Civil Service have been formulated?

Answer by the Hon'ble Mr. Stephenson:—

Questions and Answers.

Reforms on the subject, as assured by the Hon'ble the Chief Secretary in answer to my question No. 10 asked at the meeting of the Council held on the 3rd February last?

(*c*) Is it not a fact that the subordinate civil service in Bengal mainly consists of graduates and that the Public Services Commission recommended a pay of Rs. 250 to Rs. 500 for such services?

(*d*) Is it not a fact that a feeling exists amongst the members of the subordinate civil service that a scale of pay of Rs. 150 to Rs. 400 would be quite inadequate in these hard days for a member of the subordinate civil service to keep up his dignity, position and prestige and is incommensurate with the responsibilities of his office?

Answer by the Hon'ble Mr. Stephenson:—

"(*a*) and (*b*) The Hon'ble Member is referred to the Resolution of the 21st June, 1920, mentioned in the reply to question No. 12 (unstarred).

(*c*) The possession of a degree is a normal condition of admission to the subordinate civil service. The Public Services Commission recommended a general incremental scale of Rs. 250 to Rs. 500 for the particular provincial services with which they dealt. These, however, did not include the subordinate civil service.

(*d*) An opportunity for the expression of opinion is given in the resolution; replies are at present awaited."

By the Hon'ble Babu Akhil Chandra Datta:—

14.

(*a*) Are the Government aware that a feeling of anxiety and disappointment exists amongst the members of the subordinate civil service owing to a definite pronouncement by the Government regarding their future pay and prospects being deferred?

(*b*) In the interests of the public service are the Government considering the desirability of making a pronouncement on the subject as was recently made with regard to the provincial executive service?

Answer by the Hon'ble Mr. Stephenson:—

"(*a*) and (*b*) The Hon'ble Member is referred to the Government Resolution mentioned in the reply to question No. 12 (unstarred).

By the Hon'ble Babu Akhil Chandra Datta:—

15.

Will the Government be pleased to state whether the orders of the Government of India regarding the future recruitment of the provincial executive service have been received?

16.

In answer to my question No. 11 asked at the meeting of the Council held on the 3rd of February last, the Hon'ble the Chief Secretary was pleased to state that a proposal was submitted to the Government of India as to the proportion of recruitment to be made by promotion from the subordinate civil service to the provincial executive service, will the Government be pleased to state what proportion was recommended by Government and approved by the Government of India?

Answer by the Hon'ble Mr. Stephenson:—

"The orders of the Government of India have not yet been received, and the local Government are therefore unable to disclose their own recommendations on this subject."

17.

(*a*) Is it a fact that the Government are contemplating an increase in the cadre of the provincial executive service? If so, will the Government be pleased to state when and to what extent the cadre will be increased?

(*b*) Are the Government considering the advisability of filling up a substantial portion of the vacancies in the provincial executive service which will thus be created, entirely from the subordinate civil service by promoting—

(*i*) all the sub-deputy magistrate-collectors who having been found thoroughly fit have been vested with 1st class magisterial powers; and

(*ii*) other members of the service who are otherwise fit for promotion?

Answer by the Hon'ble Mr. Stephenson:—

"(*a*) Government have called for statistics with a view to judging the adequacy of the present cadre of the provincial civil service. No estimate as to the adequacy or inadequacy of the cadre is yet practicable.

(*b*) Pending receipt of the statistics above referred to, Government are deferring the consideration of the means by which the defect, if any, in the present cadre of the provincial civil service should be made good."

By the Hon'ble Babu Akhil Chandra Datta:—

18.

(*a*) Is it a fact that the Government have recently issued a circular to all Commissioners of Divisions on the subject of the division of duties between the provincial and subordinate executive services where it is proposed that sub-deputy collectors should not, in future, be vested with magisterial powers higher than those of the 2nd class?

(*b*) If so, are the Government considering the desirability of removing the anomaly which would otherwise exist in the subordinate civil service by promoting all the sub-deputy magistrates already vested with 1st class and other special magisterial powers to the provincial executive service?

Questions and Answers.

Answer by the Hon'ble Mr. Stephenson:—

" (*a*) In the circular calling for statistics referred to above, Commissioners have been asked in framing their estimates to assume that sub-deputy collectors will not exercise magisterial powers higher than those of the 2nd class.

(*b*) Promotions from the subordinate to the provincial service, when made, will continue to be based on a consideration of the individual merits of the officers concerned."

(*ii*) Whether any Indians applied during this period? If so, how many, and how many of these applicants were appointed, and on what pay?

(*g*) (*i*) Whether there is still a rule that candidates for this service must be Europeans or the descendants of European or Anglo-Indian parents domiciled in India? If not, when was this rule abrogated?

(*ii*) Will the Government be pleased to lay on the table the existing rules on the subject?

(*h*) Whether experience in a sailing vessel is still regarded as an essential qualification for admission to the service?

(*i*) (*a*) Whether all the recommendations of the Public Services Commission regarding this service have been given effect to?

(*b*) If not, which of the recommendations have been given effect to, and which of them the Government propose carrying out in the near future?

Answer by the Hon'ble Mr. Cowley:—

(*1*) Are the Government aware that the released *détenus* find great difficulty in obtaining employment in educational institutions and elsewhere owing to suspicion existing in the minds of the people that they are likely to incur the displeasure of Government by employing them? Employment of released *détenus*.

(*2*) (*i*) Is it a fact that Mr. B. C. Chatterji, Barrister-at-Law, made a representation to Government on this subject and that the Hon'ble Mr. H. L. Stephenson communicated to him on behalf of Government the assurance that Government will neither object to, nor in any way interfere with, the released *détenus* obtaining employment in educational institutions?

(*ii*) If so, will the Government be pleased to consider the desirability of giving a similar assurance in regard to the private employment of released *détenus* in all places by all people?

Answer by the Hon'ble Mr. Stephenson:—

" (*1*) Government are aware that released *détenus* often have considerable difficulty in obtaining employment and that one of the reasons for this is the reluctance of private employers to take on men of their antecedents.

Questions and Answers.

(*2*) (*i*) Mr. B. C. Chatterji referred in a private letter to Mr. Stephenson to the question of the employment in educational institutions of persons who before their internment had been teachers in schools. In the course of his reply Mr. Stephenson said: 'The line laid down is the one I sketched out to you in our interview, namely this: there are obvious objections to a *détenu* or State prisoner taking up teaching as a profession, and Government cannot conscientiously give any facilities or assistance in obtaining teaching employment for these men. The Education Department naturally is rightly averse from having them in their service, and it would be most unfair for Government to put any pressure on that department, seeing that the responsibility for the welfare of the pupils lies on the Education Department. At the same time Government will not in any way interfere to turn these men out of employment as teachers if they are able to obtain it.'

(*ii*) The Hon'ble Member is referred to the *communiqué*, a copy of which is attached, issued by the Bengal Government on the 1st March, 1920."

Press communiqué referred to in the answer to question No. 23 (unstarred) asked by the Hon'ble Babu AKHIL CHANDRA DATTA *at the meeting of the 1st July, 1920.*

In connection with the recent releases from detention and surveillance of a number of youths who had been dealt with under Regulation III of 1818 and the Defence of India Act, it has been represented to the local Government that private employers, fearing harassment to themselves, are diffident about giving them employment. It is desirable therefore that the attitude of the local Government should be made clear.

It is the hope of the Governor in Council that these youths will speedily settle down to honest lives. The finding of regular and reputable work will conduce most speedily to this end, and the local Government have helped and are helping in individual cases to secure employment. So long as these persons keep clear of revolutionary conspiracy there is no intention of exercising surveillance over them. It is not appropriate that they should take up the profession of teaching, but there is no objection to their resuming their own studies.

The 1st March, 1920.

(*a*) Is it a fact—

(*i*) that the Haterkool Oil Company, Limited, has constructed a row of privies for the use of their operatives within a few feet of the Haterkool bathing ghat at Konnagore, subdivision Serampore, district Hooghly?

(*ii*) that these privies emit bad odour and foul effluvia and that the foul water from them is discharged into the river Hooghly to the detriment of the health and to the inconvenience of the local people who bathe in the river and drink water therefrom?

(*b*) (*i*) Is it a fact that the people of the locality sent a memorial to the Sanitary Commissioner of Bengal?

(*ii*) If so, what steps have been taken in the matter?

(*c*) Are the Government considering the desirability of taking necessary steps for the removal of this grievance of the people of the locality?

Questions and Answers.

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) (*i*) The Haterkool Oil Company has constructed a four-seated aqua privy on their premises, which adjoin the ghat in question. The exact distance from the ghat is not known, but it is probably over 50 feet.

(*ii*) It has been reported that the privy emits a bad smell and is also obnoxious as the breeding place of flies. The effluent is discharged through a small filter bed into the river Hooghly.

(*b*) (*i*) The Sanitary Commissioner received a letter on the subject from Babu Hari Sadhan Banerji of Haterkool.

(*ii*) and (*c*) The officiating Inspector of Septic Tanks inspected the latrine; the Sanitary Commissioner also visited the place. The latrine having been found to be defective, the Company has been directed to make the necessary improvements."

(*a*) Are the Government aware that the inhabitants of several villages on the other side of the Damodar river memorialized the District Board for the construction of two feeder roads from the Tarkeswar railway station (E. I. Ry.) to two places on the left embankment of the river? Construction of feeder roads.

(*b*) If so, are the Government considering the desirability of taking steps in the matter?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) The answer is in the affirmative.

(*b*) An application was received by the Hooghly District Board for the construction of two feeder roads from the Tarkeswar railway station to Kanaria ghat and Jeara ghat on the Damodar river. As the alignment to Kanaria ghat was unnecessarily long, the District Board have instructed their engineer to examine the feasibility of constructing a road from Tarkeswar to Kultikri. As Jeara is close to the Tarkeswar-Jamdara District Board road, the District Board have decided that the Union Board, which is about to be constituted in the locality should connect Jeara with that road. The intervention of Government does not appear to be necessary."

(*a*) Are the Government aware that influenza has broken out in epidemic form in several villages within the Arambagh subdivision and that some people have succumbed to it? Outbreak of influenza in the Arambagh subdivision.

(*b*) If so, are the Government considering the desirability of calling upon the sanitary authorities to distribute influenza pills through itinerant doctors?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) and (*b*) The answer is in the negative. Neither the Civil Surgeon nor the Subdivisional Officer of Arambagh is aware of any outbreak of influenza, while the weekly reports of the Arambagh municipality show that there has been no case of influenza for two months."

Will the Government be pleased to state the cause of the delay in the revival of concession tickets by the East Indian Railway authorities?

Answer by the Hon'ble Mr. Cowley:—

"The Government of Bengal have no information on the subject. The introduction of concession fares is a matter which rests with the Railway authorities concerned."

By the Hon'ble Rai Mahendra Chandra Mitra Bahadur:—

28.

(*a*) Are the Government aware that the main road from Mahes to Rishra in the sub-division of Serampore in the Hooghly district is so narrow in places that motor-car accidents occur and the road is dangerous to traffic?

(*b*) Are the Government considering the desirability of taking steps to remedy this grievance of the people of the locality?

Answer by the Hon'ble Mr. Cowley:—

"(*a*) No reports of motor-car accidents or danger to traffic owing to the insufficient width of the Trunk Road between Mahes at mile 11½ and Rishra at mile 14, in the Serampore sub-division, have come under the notice of Government.

The width of the crest of the road in the abovenamed miles varies from 19 to 40 feet.

(*b*) It has been ascertained that there is some congestion, at certain hours of the day, in the short length of ¾ mile from mile 12¼ to mile 13, where the crest of the road is from 21 to 32 feet in width. The congestion is due to local causes and could not be relieved without acquisition of valuable land at considerable expense. No project for widening this portion of the road has been initiated."

(*1*) Is it not a fact—

(*a*) That a candidate for the Provincial Judicial Service necessarily exceeds the age of 25 years before being qualified for enrolment as a candidate for the service because the qualifications for enrolment as a candidate are—

(*i*) that he must have obtained the B.L. degree.

(*ii*) that ordinarily he must have completed three years' practice at the Bar?

(*b*) That in consideration of this difficulty the Public Services Commission recommended that members of the Provincial Judicial Service may reckon as service qualifying for superannuation pension, the number of completed years, not exceeding five, by which their age at recruitment exceeded twenty-five years?

(*d*) That this benefit has not been expressly extended by the Government of India Resolution to members of the Provincial Judicial Service and that there is a keen sense of disappointment among the members of that service in consequence?

(*e*) That unless the benefit be extended to the Provincial Judicial Service the members of that service will not be entitled to get the maximum increased pension sanctioned under the said Government of India Resolution?

Will the Government be pleased to state—

(*a*) (*i*) Whether the report on the Damodar anti-flood reservoir scheme, the execution of which was entrusted to a special officer, Mr. Glass, has since been received by Government, and, if so, what action is being taken in the matter?

(*ii*) What is the probable estimated cost of the whole scheme?

(*b*) What improvements have been effected in the lower, middle and upper reaches of the Damodar river, and what total expenditure has been incurred up to the end of the quarter ending 30th June, 1920?

(*c*) (*i*) What steps have been taken to reclaim the Rohra khal, Gopimohanpur khal, Pagla khal, Behala Chak basins and other silted up khals within the flood zone, the improvement of which is necessary for the proper drainage of a vast submerged area?

(*ii*) How many refuge mounds are in course of construction along the whole length of the right embankment to give protection to villagers whose houses are close to the embankment, and what is the area of such mounds?

(*iii*) Are the Government considering the desirability of constructing similar mounds within the villages in the flood zone and lying at a considerable distance from the right embankment, and, if so, when the work is likely to be taken up?

(*d*) Whether the survey of the spill area in the contemplation of Government has since been completed, and, if so, what policy is to be pursued in the matter?

(*e*) The stage at which the proposed Damodar canal project, Dewkhal project and Uchanala scheme stand at present and whether the Government are considering the desirability of taking up the scheme at an early date?

(*f*) When the reclamations of the Roukhini Daha and the Garool Bheel are to be taken up?

Answer by the Hon'ble Mr. Cowley:—

"(*a*) (*i*) and (*ii*) Yes, the report has been technically criticised and is now under further consideration; the estimated cost of constructing reservoirs alone amounts to 2 crores of rupees.

(*b*) The question is not understood; no proposals have been made for any improvement to the Damodar river.

(*c*) (*i*) The estimate of the Rohra khal project is now practicably complete; the project for the improvement of the Gopimohanpur khal has been examined and abandoned on technical grounds; no projects for the improvement of the Pagla khal or of any khal in the Behala Chak basins have as yet been taken up.

(*ii*) Five mounds are under construction, and twelve more will be taken up later. The area of the top of the mound is on an average 6,800 square feet and the average cost of each mound is Rs. 1,650.

Questions and Answers.

(*iii*) No; the cost of erection of mounds in the interior would be very heavy, and owing to the system of flood warnings introduced subsequent to the flood of 1913, it is reasonable to expect that in the event of a similar disastrous flood the people would have ample time to reach places of safety, and that no serious loss of human or animal life would occur.

(*d*) Yes, the survey has now been completed to the boundary of the Burdwan and Bankura districts; it is now being plotted on paper. The policy to be followed for the disposal of the flood water of the Damodar, as a result of this survey, is to push on with the excavation of the exit channels into the Rupnarain river. The Government of Bengal are now in correspondence with the Government of India regarding the purchase of a dredger, to cost 34 lakhs of rupees, for this purpose.

(*e*) The Damodar Canal project is being redesigned; it will take a year at least to complete. Recent technical study of the Reservoir project for controlling the floods of the Damodar shows that it may be essential to provide an escape for the flood water *viâ* the Devkhal into the Darkesar river. The proposal is a bold one, necessitating a long and careful investigation into the effect of such a scheme on the flood levels of the Darkesar. The Uchanala project has been completed.

(*f*) Nothing can be definitely stated as to when these projects will be taken up; the surveys are well in hand and more than half the survey work has been completed."

(*b*) If the reply be in the negative, are the Government considering the desirability of making a rule to the effect that members of the provincial executive service shall not be posted to their own native districts?

Answer by the Hon'ble Mr. Stephenson:—

"(*a*) There is no actual rule prohibiting the employment of a provincial service officer in his native district, but in practice an officer is not posted to his native district if this can conveniently be avoided.

(*ii*) whether the Hon'ble Judges of the High Court have been consulted in the matter, and, if so, will the Government be pleased to lay on the table the considered opinions of the Hon'ble Judges, if received;

(*iii*) whether any final decision has been arrived at by Government on the subject; and

(*iv*) when it can reasonably be expected for the decision of Government to be made public?

Answer by the Hon'ble Mr. Stephenson:—

"(*a*) A few letters have been received from members of the Service expressing the wish that early orders may be issued regarding their future pay, and articles to the same effect have appeared in the press.

(*b*) (*i*) The orders of the Government of India are awaited on the maximum pay for munsifs proposed by the local Government.

(*ii*) The Hon'ble Judges of the High Court were consulted on the whole scheme, but at this stage it is not proposed to make public the papers.

(*iii*) and (*iv*) The final decision of Government must await the orders of the Government of India on the subject of the maximum pay for munsifs. The orders of that Government may be expected shortly, and the whole scheme of emoluments will then be published."

In view of the powers conferred on the Local Government by letter No. 1706 E.B., dated the 12th September, 1919, of the Government of India, Finance Department, and in consideration of the abnormal rise in the cost of living, are the Government considering the desirability of—

(*a*) granting daily allowances at increased rates to Judges of regularly constituted Small Cause Courts and other members of the Provincial Civil Service, and

(*b*) of allowing the members of the Provincial Judicial Service the benefits of the new pension rules, enabling officers who entered Government service after the completion of their twenty-fifth year to count as service qualifying for pension the full number of years by which their age at the time of confirmation in the service exceeded 25 years as has been done in the case of officers of the Provincial Educational Service?

(*iv*) factories erected or designed;

(*v*) industrial concerns visited;

(*vi*) industrial research undertaken;

(*vii*) markets for local manufacture found; and

(*ii*) the development of cottage industries;

(*iii*) the establishment and working of demonstration factories; and

(*iv*) financial aid to industries?

(*d*) In reference to the replies given to Unstarred Questions Nos. 18 and asked at the meetings of Council of the 3rd February and 5th March last, l the Government be pleased to state—

(*i*) whether the consideration of the proposal of the Director of Industries is near completion;

(*ii*) whether the proposal is being considered by this Government, the Government of India or the Home Government; and

(*iii*) when the proposal was submitted?

Answer by the Hon'ble Mr. Marr:—

"(*a*) It is understood that, generally speaking, the recommendations of the Industrial Commission were welcomed by the educated public.

(*b*) A copy of the Report on the Administration of the Department of Industries up to the 31st December, 1920, was laid on the table at the meeting of the Legislative Council on the 3rd February, 1920. The Director has been instructed to submit annual reports in future. Government do not think it desirable to call for more frequent statements of the work which is being done.

(*d*) what work he has done in that capacity up to date;

(*e*) how many days he was out on tour in connection with this work and in what localities;

(*f*) (*i*) Is it a fact that Dr. Baini Pershad of the Fisheries Department resigned his post,

Questions and Answers.

(*ii*) if so, what were the reasons for his doing so,

(*iii*) what were his qualifications in regard to fishery matters, and

(*g*) What are the qualifications of the Superintendnts of Agriculture?

Answer by the Hon'ble Mr. McAlpin:—

" (*a*), (*b*) and (*c*). The Hon'ble Member is referred to page 393 of the Quarterly Civil List for Bengal corrected up to 1st April, 1920. The officiating Director of Agriculture draws, pending the determination of his pay according to the scheme of reorganisation recently sanctioned by the Secretary of State, Rs. 1,250 per mensem as officiating Director and a duty allowance of Rs. 200 per mensem in connection with certain advisory and research fibre work undertaken on behalf of the Government of India. He is not actually the officiating Director of Fisheries; that post has been kept vacant pending the selection by the Secretary of State of an officer as Director of Fisheries. Meanwhile however the Fishery Department has again been placed under the control of the Director of Agriculture, to whose charge it previously appertained. The officiating Director of Agriculture draws no special allowance for this work. This arrangement has been made as a matter of administrative convenience, because, owing to casualties in the Fisheries Department, there is no one in it at present fit to take charge of it even temporarily. Government are not aware that the officiating Director of Agriculture has any training or experience regarding fishery matters.

(*d*) Apart from his advisory work in this connection, the chief item of fibre work undertaken for the Government of India is an investigation into the production of improved sunn hemp fibre.

(*e*) At present it involves no touring; it was on this understanding that the arrangement was made.

(*f*) (*i*) Yes.

(*ii*) In order to obtain a post in the Zoological Survey of India, involving more congenial work.

(*iii*) D. Sc. and considerable zoological experience.

(*g*) The Hon'ble Member is referred to page 393 of the Civil List corrected up to 1st April, 1920. "

(*a*) Will the Government be pleased to state—

(*i*) why no Indians have been appointed as boiler inspectors, factory inspectors and smoke nuisance inspectors in Bengal;

(*ii*) what qualifications are required of candidates for these posts; and

(*iii*) what is the procedure for their appointment thereto?

(*b*) Is it a fact that the Public Services Commission recommended complete Indianisation of these services?

(*c*) If so, are the Government considering the desirability of taking steps to give effect to this recommendation?

(*d*) Will the Government be pleased to state whether opportunities will be given to Indians to fill up the two news posts of factory inspectors?

Questions and Answers.

Answer by the Hon'ble Mr. Marr:—

FACTORY DEPARTMENT.

"(*a*) (*i*) Because no qualified Indian has so far been available.

(*ii*) A liberal education, a good theoretical knowledge of engineering science and a thorough practical experience in mechanical engineering; also a general knowledge of the principles of sanitation. In the case of selections in India, practical experience of factories in the country, without experience in Europe, will suffice. Age limit 30 years.

(*iii*) The procedure is to advertise the vacancies locally, and if suitable men are not available, to apply to the Secretary of State to recruit men in the United Kingdom.

(*b*) No. The Public Services Commission recommended that Inspectors of Factories should ordinarily be recruited in India after advertising vacancies, but that recruitment should not necessarily be confined to natives of India: further that, only if no qualified candidate is procurable locally should steps be taken for the appointment of officers from Europe, the selection being made after advertisement and with the advice of the Home authorities.

(*c*) Effect has already been given to the Commission's recommendations.

(*d*) In an advertisement of September, 1919, an Indian was specifically mentioned as required to fill a factory inspectorship, but no suitable candidate came forward."

BOILER AND SMOKE-NUISANCES INSPECTORS.

"(*a*) (*i*) Indians with required qualifications are not at present available.

(*ii*) Candidates are required to hold first class Board of Trade Certificates.

(*iii*) Appointments are made direct from the qualified candidates in this country. Vacancies are advertised in the papers.

(*b*) No. The Public Services Commission recommended that all appointments of boiler inspectors should continue to be made in India, but that selection should not be absolutely limited to statutory natives of India. It was also recommended that it should be made clear in the rules that Indians are eligible for appointment. The appointment of Smoke Nuisances Inspectors was not considered by the Public Services Commission.

(*c*) The point does not arise."

(*b*) What action has been taken in Bengal?

(*c*) How does the action taken by Government compare with that taken by other provinces?

Questions and Answers.

Answer by the Hon'ble Mr. Marr:—

(*1*) Are the Government aware—

(*a*) that when the Mymensingh-Bhairab Bazar Railway was floated in 1914, the promoters invited the public to subscribe the capital on the undertaking that the system would include 15 miles of railway line between Jerria Janjail and Bagmara, and that up to date this portion of the railway has not yet been started, nor has the land ever been acquired for it; The Mymensingh Bhairab Bazar Railway.

(*b*) that this portion of the Mymensingh-Bhairab Bazar Feeder Railway was projected to serve a tract of country, of which Sushung Durgapur is the chief collecting centre, which yearly exports several lakhs of maunds of rice, and large quantities of timber, bamboos and other forest produce;

(*c*) that all such commodities as the above are realizing famine prices in the interior of the Mymensingh district, and that at present owing to the heavy cost of cartage to Jerria Janjail the bulk of the produce of the tract of country referred to above is diverted by river eastwards and is eventually distributed in areas on the outskirts of the district without benefit to the central portion or the populous capital of Mymensingh; and

(*d*) that although the Mymensingh-Bhairab Bazar Railway has been completely opened for traffic for only a few months, the traffic receipts on the portion which has been built already show a return of between 5 per cent. and 6 per cent. on the capital cost, and that these results constitute a record in the history of railways in India?

(*2*) Having regard to the benefit and relief that the district of Mymensingh would enjoy by the completion of the line to Bagmara, are the Government considering the desirability of moving the Railway Board to take steps without further delay to enforce the fulfilment of the obligations which were undertaken by the promoters and Managing Agents in the prospectus, by which they invited the public of the district to subscribe the capital?

(*3*) Are the Government considering the desirability of asking the Railway Board to allot funds for the acquisition of land during the cold weather season, 1920-21, and thereby obviate further delay due to land not being acquired?

Answer by the Hon'ble Mr. Cowley:—

"While recognising that the construction of the Janjail-Bagmara branch of the Mymensingh-Bhairab Bazar Railway would prove of benefit to the country which it would serve, Government think it unnecessary at present to move the Railway Board in the matter.

The Railway is owned by the Mymensingh-Bhairab Bazar Railway Company and Government consider that the Company may be relied on to move the Railway Board as soon as it is in a position to complete the construction of the branch."

(*a*) Is it a fact that there are two leave vacancies in the Imperial Agricultural Service of Bengal and that the Deputy Director of the Eastern Circle has been appointed to act in both these vacancies in addition to his own duties?

(*b*) Is it a fact that members of the Provincial Service in Bengal are systematically deprived of leave vacancies in the Superior Agricultural Service, even if their academic qualifications are equivalent to those of the European members?

(*c*) Is it a fact that the members of the Imperial Agricultural Service are financially benefited when they hold charge of posts in addition to their own duties and that the merits and demerits of the Indian Officers are judged by these officers?

(*d*) Will the Government be pleased to state—

(*i*) whether any officer of the Provincial Service has ever been appointed to any of these leave vacancies; and

(*ii*) if not, why not?

(*e*) (*i*) Is it a fact that Mr. Finlow has officiated as Chemist and Botanist, Mr. Hector as the Chemist and Fibre Expert and Mr. McLean as Chemist and Botanist in addition to their respective duties?

(*ii*) If so, had they proved efficient in regard to the duties which were required of them in their respective appointments?

(*f*) What are the essential qualifications required for members of the Expert Section?

(*g*) Is it a fact that academic distinctions and capacity to conduct research in subjects, with special reference to Agriculture, are the chief requirements?

(*h*) Are the testimonials given by the Professors, under whom the Provincial Service men were trained, of any value in determining the capabilities of Indian officers in respect of the above two qualifications or does the Director finally decide this question, and, if so, is he qualified to do so without giving them a trial?

(*i*) Is it a fact that in other provinces, men from Cornell, etc., with similar qualifications as men of the Provincial Service in this Province are officiating as Chemists, Botanists, Entomologists, etc., in the Imperial vacancies?

(*j*) Is it a fact that in Bengal there are three or four men with excellent training in Chemistry and Botany in some of the best universities of England and America?

(*k*) If so, are the Government considering the desirability of giving some of these men a fair trial in the future leave vacancies?

Answer by the Hon'ble Mr. McAlpin:—

"(*a*) There are two vacancies in the research branch of the Imperial Agricultural Service in Bengal, one a vacancy in consequence of the temporary deputation of the Economic Botanist as Imperial Economic Botanist, and the other in consequence of the transfer of the Agricultural Chemist from the province. The Deputy Director of the Eastern Circle is in charge

of the current duties of the office of the Agricultural Chemist pending the filling up of the appointment by the Secretary of State; but he has not been appointed to officiate as Agricultural Chemist. Until recently he was also in charge of the current duties of the office of the Economic Botanist, but Mr. D. Datta, a member of the Provincial Service, has now been temporarily appointed to officiate, subject to the control and direction of the permanent Economic Botanist.

(*b*) No. Rai Rajeswar Das Gupta Bahadur, when in the Provincial Service, officiated in the Imperial Service as a Deputy Director.

(*c*) The answer to the first part of the question is in the affirmative. As regards the second part of the question, it is their duty to judge the merits and demerits of the officers employed under them, but the final decision rests with Government.

(*d*) (*i*) and (*ii*) The Hon'ble Member is referred to the answer to (*a*), (*b*) and (*k*).

(*e*) (*i*) The answer to the question is in the affirmative as regards Messrs. Finlow and Hector, but not altogether so as regards Mr. McLean. In regard to Mr. McLean the Hon'ble Member is referred to the answer to (*a*).

(*ii*) Yes; but the scope of the research work has naturally been restricted.

(*f*) and (*g*) For information on these questions, the Hon'ble Member is referred to the Report of the Public Services Commission.

(*h*) Obviously when such an officer enters the service for the first time, academical qualifications but not necessarily testimonials of professors, are essential. But when he has entered the service, his academical or other previous qualifications are ordinarily of less importance than the quality of the work actually done by him in Government service. Any final decision rests with Government.

(*i*) Government are not in a position to answer this question fully. They have only definite information regarding two such cases.

(*j*) There are four men who took degrees abroad. Two took botany as one of their subjects and a third took chemistry.

(*k*) The Hon'ble Member is referred to the answers to (*a*) and (*b*). Apart from the fact that orders are awaited on the general question in connection with the recommendations of the Public Services Commission, Government cannot give any undertaking that the men in question who belong to the administrative branch will be given a trial in the research branch of the service; it is under contemplation to form a provincial research branch; and it will be a question in each individual case as to whether the officer has shown himself fit by his work in the department to be tried or, given promotion out of the branch for which he was recruited. In this connection the Hon'ble Member is referred to the answer to question No. 5 (unstarred) put by the Hon'ble Rai Mahendra Chandra Mitra Bahadur on the 7th April, 1920, in which it was stated that the research and administrative branches of the Department are ordinarily treated as distinct."

Questions and Answers.

Answer by the Hon'ble Mr. Cowley:—

(*b*) The Dacca temporary division has been closed for the present but the local Government is in correspondence with the Government of India on the subject of the formation of a permanent division there.

It is intended to release the State prisoners still in custody as soon as this can be done with due regard to the public safety. The cases of those who before their conviction under the ordinary law were members of revolutionary societies, have recently been examined, and in some cases certain action has been taken. In the remaining cases, it is not intended to interfere with the sentence passed by the Court.

Will the Government be pleased to make a statement regarding the extent of scarcity and distress prevailing in different parts of the Presidency and the steps proposed to be taken to alleviate the same?

Answer by the Hon'ble Mr. McAlpin:—

"Apart from distress on account of high prices, there is some distress in the Gopalganj and Madaripur subdivisions in the district of Faridpur. For information regarding this, the Hon'ble Member is referred to the statement laid on the table in reply to starred question No. X by the Hon'ble Rai Sri Nath Ray Bahadur. The *bhadralok* on small fixed incomes and the poorer classes are the principal sufferers from the present high prices. There is, however, reason to believe that the larger portion of the cultivating population are benefiting from the high prices obtainable for their produce. There is no scarcity of foodstuffs. The direct measures which Government have taken to steady the price of rice and to provide a comparatively cheaper rice are—

(*1*) to arrange for a largely increased supply of Burma rice for consumption in Bengal at controlled rates in accordance with the procedure adopted last year; and

(*2*) to arrange with the Government of India that there should be no export of rice to foreign countries from Bengal in the quarter July to September.

For further information the Hon'ble Member is referred to the statement which will be made in connection with analogous resolutions to be moved at the present Council meeting."

Answer by the Hon'ble Mr. Stephenson:—

"(*a*) and (*b*) A statement is laid on the library table showing the permanent increase and the temporary increases of establishment of the Intelligence Branch of the Criminal Investigation Department that have been sanctioned since the promulgation of the Defence of India Act, and the financial effect of those increases. The additional temporary establishment sanctioned from time to time was necessitated by the general increase of work falling upon the Department; it is impossible to allocate it to the administration of particular Acts."

Will the Government be pleased to state—

(*a*) what quantity of rice has been exported from Bengal since the removal of the restrictions put on the inter-provincial movement of rice; and

Exportation of rice from Bengal.

(*b*) how it has affected the rice market in this Presidency?

Answer by the Hon'ble Mr. McAlpin:—

"(*a*) The Hon'ble Member is presumably referring to the export to other provinces of rice, other than controlled Burma rice. The following statistics are available up to the middle of May for exports since the 1st April, the date of the removal of the restrictions put on the movements of rice other than controlled Burma rice:—

	Tons.
Exports	31,240
Net exports	22,440

(*b*) The figures contain 6,000 tons which were allotted by Government for export before the removal of the restrictions, but which were actually exported after their removal. It is impossible to say what the effect has been on the market. The actual effect of the export of so small a quantity should have been inappreciable, but it is possible the rumours of large exports unduly affected prices."

(*a*) Is it a fact that one Rebati Charan Nag, son of Raj Kamal Nag, of the district of Tippera, was interned under the Defence of India Act and died during the period of his internment?

(*b*) If so, will the Government be pleased to make a statement relating to his internment and death, with particular reference to his age, education, date and places of internment, date, place and manner of his death, the date on which his father was informed by Government about his death, and the procedure and result of any inquiry held by Government into the circumstances of his death?

(*c*) (*i*) Have the Government received any representation from his father relating to his death?

(*ii*) If so, what are the facts set out therein and what action have Government taken thereon?

(*d*) Is it a fact that Chandi Charan Nag, another son of Raj Kamal Nag, contracted tuberculosis in the Rangoon Jail while in confinement there under Regulation III of 1818 and died from it at home where he was subsequently interned?

(*e*) (*i*) Have the Government received any representation from Raj Kamal Nag relating to the death of Chandi Charan Nag?

(*ii*) If so, will the Government be pleased to state the purport thereof, and what action has been taken thereon?

(*f*) Do the Government propose to make any reparation to Raj Kamal Nag for the death of his two sons in such tragic circumstances?

Answer by the Hon'ble Mr. Stephenson:—

" (*a*) and (*b*) It is not a fact that Rebati Charan Nag was ever arrested or interned. His house was searched and possession was taken of certain articles belonging to him; but he had himself absconded and was never arrested. Information reached Government at a later date that he had been murdered by members of the revolutionary party. Government have little doubt of the truth of this information but are unable to disclose its nature or source.

(*c*) (*i*) Yes, a petition was received on the 20th March addressed to the Additional Secretary. A later petition dated 20th May addressed to His Excellency the Governor has also been received.

(*ii*) The first petition asked for details of the death of Rebati Charan Nag. Such information as it was possible to give was given to the petitioner through the Additional Superintendent of Police, Tippera. The second petition also asks for further details.

(*d*) It is not a fact that Chandi Charan Nag was interned at the time of his death. He was not placed under any restraint by the Bengal Government on his return from Burma. Regarding the circumstances under which he contracted his illness in Burma a copy of the *communiqué* on the subject issued by the Burma Government on 11th June, 1917, is placed on the table.

(*e*) (*i*) and (*ii*) Representations have been received from Raj Kamal Nag regarding the death of his son, Chandi Charan Nag. The general purport of these representations have been to the effect that his son was innocent and was ill-treated by the police in Burma; that the father was

DEATH OF A RANGOON DÉTENU.

"NEW INDIA'S" ALLEGATIONS REFUTED.

Rangoon, 11th June, 1920

The following press note was issued to-day:—The local Government has seen in *New India* of the 25th May, 1917, an article entitled "A Tragedy," relating to one Chandi Charan Nag, native of Upalata in Bengal, who was confined in the Rangoon Central Jail and afterwards died at his home in Bengal. The local Government thinks it desirable to issue the following statement of facts.

Chandi Charan Nag was arrested at Rangoon on the 5th October, 1916, and on the 7th October the local Government made an order under the Ingress into India Ordinance, 1914, directing his detention in the Rangoon Central Jail. This order was made as it was considered necessary to keep Chandi Charan Nag in confinement while inquiry was being made into his character and antecedents. In January 1916 the local Government, having received a petition from Chandi Charan Nag's father asking for information regarding his son's condition, called for a report on Chandi Charan Nag's state of health. The Superintendent of the Jail reported on the 2nd February, 1916, Chandi Charan Nag had been under treatment in the jail hospital and had lost weight, but was then convalescent, and unless some unforeseen circumstances should arise he was likely to make a good recovery. The local Government informed Chandi Charan Nag's father of this and told him that his son's release could not be ordered at that time, but that a further communication would be made to him shortly. Meanwhile the inquiry into Chandi Charan Nag's antecedents had been completed and the facts were reported to the Government of Bengal, who were asked whether Chandi Charan Nag might be allowed to proceed to his native place as it was not considered desirable to allow him to remain at liberty in Burma. On the 24th February the Superintendent of the Rangoon Jail reported Chandi Charan Nag was progressing less favourably and tubercular consumption was suspected. The local Government telegraphed this information to the Government of Bengal, and on the 3rd March received a reply that Chandi Charan Nag might be sent to Calcutta. The order directing Chandi Charan Nag's release from jail and despatch to his home in Bengal was then issued, and his father was informed, but the Superintendent of the Rangoon Jail reported Chandi Charan Nag's health had still further deteriorated so as to render him unfit to travel to India and recommended he be released in Rangoon and admitted to the Rangoon General Hospital. On the same day an order directing Chandi Charan Nag's despatch to Calcutta was suspended and he was released from jail and made over to his father, by whom he was taken to the Rangoon General Hospital for treatment. On the 20th April the Commissioner of Police, Rangoon, having received a report from the medical superintendent of the General Hospital that Chandi Charan Nag was fit to travel, recommended he should be sent to his home by a steamer leaving

Sir Charles Stevenson-Moore.

Rangoon for Calcutta on the 25th April, and this arrangement was sanctioned by the local Government and carried into effect.

It appears Chandi Charan Nag died about nine months later.

In the article in *New India* it is alleged that the local Government's order directing the confinement of Chandi Charan Nag was based on his father's answers to questions, the answers being mistranslated into English by an officer of the Rangoon police. That is not correct. There was nothing in the father's statement as recorded by the police which could be used against the son. It is alleged the father was refused information regarding his son. It is true the father was not allowed to interview his son in jail, but all information regarding the son's health was given to his father. It is further alleged that the police removed Chandi Charan Nag from the Rangoon General Hospital prematurely and failed to give his father sufficient notice, so that proper arrangements could not be made for the son's clothing and comfort on the journey. Chandi Charan Nag's removal was ordered with the concurrence of the medical superintendent of the hospital and the father received several days' notice beforehand and was warned to be in readiness. His son was taken to him on the way to the steamer.

LEGISLATIVE BUSINESS.

THE BENGAL AGRICULTURAL AND SANITARY IMPROVEMENT BILL, 1920.

LIST OF BUSINESS—ITEM No. 3.

The Hon'ble Sir Charles Stevenson-Moore presented the Report of the Select Committee on the Bengal Agricultural and Sanitary Improvement Bill, 1920.

He said :—

"My Lord, I beg to present the Report of the Select Committee on the Bengal Agricultural and Sanitary Improvement Bill, 1920, and, in doing so, should like to offer a few remarks.

The Bill was introduced in March last by Sir John Cumming and it was his skilful hand which piloted the measure through the Select Committee. I am sure, Hon'ble Members will share with me the regret that he was compelled to leave India and transfer his command to me before he had completed the task of steering it through Council into the secure haven of the Statute-book.

When introducing the Bill Sir John Cumming emphasised the fact that the Bengal Drainage Act and the Bengal Sanitary Drainage Act which this measure was designed to replace had failed, because their procedure was cumbrous and inelastic and he explained that one of the main objects which had been kept in view in framing this Bill aimed at remedying those defects. The principle of simplicity and elasticity in procedure has been maintained by the Select Committee, for its maintenance was recognised by them as being essential if this legislation was to prove a really effective and popular agency for the amelioration of agricultural and sanitary conditions in Bengal.

As the underlined portions of the Bill sufficiently indicate, the changes which were made by the Select Committee were numerous, but they related, for the most part, to matters of detail or points of drafting and do not call for specific mention. There are, however, one or two changes of more importance to which I should like to make a brief reference.

The Bengal Agricultural and Sanitary Improvement Bill.

Sir Charles Stevenson-Moore.

Clauses 10 to 13, as originally drafted, made the Sanitary Board an appellate authority in respect of major schemes and one of the links in the chain of authorities through whom major schemes would proceed to Government for formal sanction. The Select Committee decided to eliminate the Sanitary Board altogether, their reasons being that the Sanitary Board, as at present constituted, is merely an advisory body and that it is impossible to forecast what form it will take if it is retained at all when the Public Health Department of Bengal is reorganised. The effect of eliminating the Sanitary Board is that appeals against the acceptance or rejection of major schemes by the Committee will now lie direct to the Local Government and that when major schemes have been accepted by the Committee and are submitted for sanction to Government the Local Government will be free to consult experts, or take any other, advice necessary before passing orders on them. This change makes for simplicity and greater despatch of business.

The next change of importance was made in clause 14. This clause has been redrafted so as to provide that the preparation or revision of a record-of-rights shall be optional instead of compulsory. The Select Committee were induced to make this alteration because it was thought that there were cases in which the elaborate formality of this procedure would prove unnecessary and that there would be other cases in which records-of-rights had quite recently been prepared or revised and in which the procedure could obviously be dispensed with.

Passing on now to clauses 18 to 20 which deal with apportionment of cost, there are two points which deserve mention. Clause 18(*1*)(*iii*) has been redrafted so as to provide that in apportioning cost as between different classes of landlords and tenants the basis shall be the benefit likely to be derived from the improvement. Hon'ble Members will understand that this principle, though sound in theory, will prove exceedingly difficult to work in practice. Indeed it can only be worked on broad lines without regard to meticulous distinctions and differences.

The apportionment proceedings which are prescribed by clauses 18 to 20 fall into two stages. The apportionment of the cost between the several classes of landlords and tenants according to prescribed rates is the first stage. The second stage involves the calculation of the exact sum due from each landlord and tenant and its entry in a detailed statement. Now the Bill as originally drafted provided for only one appeal to the Commissioner, namely, against the entry in the detailed statement. The Select Committee have provided for a similar appeal against the apportionment order also, an addition which will no doubt commend itself to Hon'ble Members.

Clause 23 has been omitted altogether. This clause provided that in the case of an agricultural work a landlord might elect to pay the amount of cost apportioned against his tenants and thus obtain the right to enhance rent on the ground of improvement. The clause was omitted mainly at the instance of the majority of the landlord members of the Select Committee who apprehended that the provision would operate harshly on the tenantry.

Lastly, a new clause 28A has been inserted. This clause contains a very necessary provision for the distribution, apportionment and recovery of costs not foreseen or provided for in the original distribution. The insertion of this clause renders clause 21 in the original Bill unnecessary. It has therefore been omitted.

I have now, Sir, mentioned the chief alterations that have been made in the Bill, and it remains for me only to express the acknowledgments of Government to the members of the Select Committee for their helpful co-operation with Sir John Cumming and for the willing labour which they

devoted to their task. It is to be regretted that the report is not quite unanimous, but I think Hon'ble Members will find that the Bill has emerged from the hands of the Select Committee much improved both in form and substance and better fitted to take a worthy place amongst the practical measures of a beneficient character designed to improve the general health and the material condition of the rural classes of Bengal which will be associated in the annals of this Presidency with Your Excellency's name."

THE CALCUTTA PILOTS (AMENDMENT) BILL, 1920.

LIST OF BUSINESS—ITEMS Nos. 4—7.

The Hon'ble Sir Charles Stevenson-Moore moved for leave to introduce a Bill to amend the Calcutta Pilots Act, 1859.

He said :—

"My Lord, this amending Bill is a very simple measure, and is designed merely to remove an anachronism in the law. The Calcutta Pilot Act was passed so long ago as 1859 and provided for the constitution of a special court to try pilots who were charged with breach of duty and among the penalties prescribed by section 17 of that Act is included punishment by loss of rank or pay. The Public Services Commission held that the punishment of pilots by the reduction of their earnings was unfair, and should be done away with. This form of punishment was also opposed to the policy of Government. The amendment of the Bill which is now submitted to the Council has been prepared with a view to remove this form of punishment. This object is achieved by the deletion of the words 'or pay' from section 17 of the Act."

The motion was put and agreed to.

The Hon'ble Sir Charles Stevenson-Moore moved His Excellency the President to suspend the Rules of Business to admit of the Bill being taken into consideration.

The President having declared the rules suspended the Hon'ble Sir Charles Stevenson-Moore moved that the Bill be taken into consideration.

THE INDIAN RED CROSS SOCIETY (BENGAL BRANCH) BILL, 1920.

LIST OF BUSINESS—ITEMS Nos. 8 & 9.

The Hon'ble Mr. Watson-Smyth moved for leave to introduce a Bill to constitute a Bengal Provincial Branch of the Indian Red Cross Society.

He said :—

"My Lord, this Bill is a corollary of the Act which was passed at Delhi some little time ago to create an Indian Red Cross Society, and in introducing that Bill, Sir Claude Hill gave a very interesting history of the Red Cross

Resolutions.

His Excellency the President; Babu B. C. Ray.

movement in India, and we have incorporated that *in extenso* in our Statement of Objects and Reasons. To sum up, there are two main reasons for wanting an Indian Red Cross Society. The first is to take over funds that were left over after the war and to administer and use them for the alleviation of distress in civil life, and the second reason is that there has been a League of Red Cross Societies among the Allied and Associated Powers of Great Britain, France, Italy, Japan and the United States, and if India has her own Red Cross Society she could take her place in the Council of the International League of Red Cross Societies. Here in Bengal we also have funds that have been left over from Lady Carmichael's War Fund and 'Our Day' Fund. and we want a Society to take them over and administer them. The Bill also gives general power to the Society from time to time to extend its sphere in other directions for the relief of suffering. The Bill has been drafted on exactly the same lines as the Indian Red Cross Society Bill and this will be a Bengal Branch of the Indian Red Cross Society. I therefore ask this Council for leave to introduce this Bill."

The motion was put and agreed to.

The Hon'ble Mr. Watson-Smyth moved that the Bill be referred to a Select Committee consisting of the Hon'ble Sir Rajendra Nath Mookerjee, the Hon'ble Sir Nilratan Sarkar, the Hon'ble Dr. Abdulla-al-Mamun Suhrawardy, the Hon'ble Mr. Phelps, the Hon'ble Mr. Pickford, the Hon'ble Mr. G. N. Roy, the Hon'ble Mr. Marr and the mover, with instructions to submit their report in time for its presentation at the August meeting of the Council.

The motion was put and agreed to.

RESOLUTIONS.

LIST OF BUSINESS—ITEMS Nos. 10, 11 AND 12.

(*Under the rules for the discussion of matters of general public interest.*)

The President said:—

"The first three resolutions standing on the agenda paper, namely, items 10, 11 and 12, all deal with the same subject, and it will be for the convenience of Council if the general discussion takes place on No. 11. If after the general discussion has taken place, and the reply of the Government has been given, the Hon'ble Member in whose name No. 10 stands, and the Hon'ble Member in whose name No. 12 stands, still desire to move their motions, I shall of course be prepared to put them from the chair, but it will be convenient if the discussion takes place on No. 11."

LIST OF BUSINESS—ITEM No. 11.

The Hon'ble Babu Bhabendra Chandra Ray moved the following resolution:—

This Council recommends to the Governor in Council that a Committee be appointed to inquire as to how far the prices of articles are, to the detriment of the people, being enhanced in some cases by the charging of the prices yielding an unreasonable profit to persons engaged in the production, handling or distribution thereof; and to suggest lines on which legislative or executive action may, if necessary, be taken to control the same.

Resolutions.

Babu B. C. Ray.

He said :—

"My Lord, at the very outset I desire to say that in defining the scope of the inquiry which I propose, I have faithfully copied the preamble of the English Profiteering Act of 1919. My suggestion is that a Committee should be appointed to investigate the whole matter and find out whether circumstances similar to those that called for the enactment of special legislation in England do not prevail in Bengal. I am aware that on a motion of Sir Dinshaw Wacha, a Committee of the Imperial Legislative Council was appointed with a somewhat similar object. Although nearly a year has since elapsed, the Committee has not yet submitted their report, and Bengal's sole representative on it, the late Rai Sitanath Ray Bahadur, could not survive its prolonged session. In my humble opinion, an all-India Committee on this question has been a mistake. It cannot, in the first place, meet except during the legislative sessions at long intervals. And in the second place, it cannot investigate the matter with that amount of intimate knowledge of varying local circumstances which would be available to Provincial Committees.

My Lord, it will not do to shut our eyes to the fact that the problem of high prices is an extremely complex one. Some among the factors that are behind it are beyond the control of Government. There are others, again, that accompany and find nourishment in economic unsettlement, and can be effectively controlled, if not altogether eliminated. It is in regard to the latter class of causes alone that the people expect Government to interfere.

I hope it will not be lightly asserted that profiteering does not flourish in Bengal. It has been found everywhere else to be a principal element in the present economic difficulties of the world. And to deny its existence here may be interpreted either as an indication of an almost criminal apathy on the part of Government towards the sufferings of the people, or as want of courage to look facts in the face.

Let us consider the case of rice, and analyse the position of your Lordship's Government from statements made on different occasions, mostly in reply to my questions. The crop of 1919-20 has been quite abundant. Export overseas and to other parts of India was controlled till April last. And even after a partial removal of this control, no appreciable quantity of rice has left the borders of Bengal. There should therefore be sufficient rice to meet the demands of this Presidency. The question arises, who are the persons that hold this enormous stock? I am prepared to concede that the well-to-do among the cultivating classes are trying to hold on to a part of their stock. But are the Government in a position to state approximately the number or proportion of such cultivators who find it possible to reserve their grains in this manner? Have they any rough idea as to the total quantity thus locked up in the granaries of these thrifty peasants? And how far does this circumstance account for the determined upward tendency of the price of rice in Bengal?

Some time back, your Lordship's Government admitted that large purchases had been made by certain traders under the mistaken impression that export would be allowed. When I asked for detailed information about these interesting personages, whose optimism had thus out-run their prudence I was met with a point-blank refusal, and we do not know any particulars about their transactions. Again, it was admitted that of late the rice trade has been receiving a good deal of kindly attention from the amiable Marwari who was a stranger to it till very recently. We have not been told, however, as to how far the Marwari factor is responsible for the steady rise in prices. In view of the fact that Government have not so far done anything to check

Resolutions.

Babu S. N. Ray.

profiteering people whose very breath of life is speculation cannot but indulge in this profitable pastime.

My Lord, it is reported that some at least among the recently organised District Prices Committees understand their primary duties to be, to bring in a verdict that there is no profiteering in their local areas, and that the high prices have benefited the cultivators very much. These verdicts may be very gratifying to those who are on the look-out for some excuse for inaction, but they are not likely to deceive the people. If an inquiry has to be made, it should be made by an independent Committee in Calcutta, acting in full gaze of the public, and vested with ample authority to scrutinize and enforce production of evidence. From another point of view, a strong central Committee would only be an essential complement of the District Prices Committees.

My Lord, so far as rice is concerned, the situation may be eased—to however small an extent—by a sufficient supply of cheap Burma rice. But what about cloth? Your Lordship's Government fought shy of standard cloth last year, and positively declined to consider the question of its revival only the other day. Yet, can it be said that profiteering does not prevail in regard to cloth? Even the Marwaris do not deny it, though they seek to justify it on certain grounds. But the Government of Bengal is too afraid of 'frightening' the trader. I have not been able to understand what dire consequences would follow if Government were to check the middleman's profit, and cut short the long journey of the cotton-goods from the importer to the consumer through the hands of an endless chain of gamblers.

My Lord; the proposal I want to put forward is briefly this. Let us find out whether somebody is not making abnormal profits somewhere, either in the production, distribution or handling of commodities, particularly the first necessaries of life, or, in other words, whether there are some avoidable elements in the high prices. There have been such inquiries by responsible bodies almost in all other civilized countries. And there is no reason why we here should pretend to know everything by intuition and avoid an open inquiry. Next, if as a result of such inquiry it is found that profiteering is among the determining factors of the situation, we should not shrink from applying the remedy that is being tried everywhere else with considerable success. We must not, in any event, pretend to be wiser than the rest of the world."

The Hon'ble Babu Surendra Nath Ray said:—

"My Lord, it is about two years ago, when there was rise in the price of salt, that I moved a resolution in your Lordship's Council recommending some steps to be taken which would have the effect of reducing its price. That resolution was partly accepted by your Lordship's Government. This time last year, the date was the 4th July, 1919, I moved a resolution suggesting early action for the reduction of the high prices of rice and other necessary articles of food, and also of cloth in Bengal. In accepting that resolution the Hon'ble Mr. (now Sir John) Cumming said, that the Government were not insensible to the sufferings of their lieges and appreciated the seriousness of the situation. They were not omnipotent, but they had taken and would continue to take such action as lay within the power of a Provincial Government to deal with the situation, so many of the ingredients of which were entirely beyond their control. The district boards and the municipalities were asked as a measure of self-help to open depôts for sale of Burma rice, and as a matter of fact such depôts were opened throughout the length and breadth of the land, and Burma rice saved the situation to some extent. We are, however, now confronted with a situation more acute than that which had presented itself before—the prices of all articles of food as well as that

of cloth having not only risen higher, but there is a tendency for it to rise higher still. 'From the way in which the price of rice is rising now, it appears that there will be abnormal rise and attendant hardship this year.' These are the words of a circular letter addressed by the Commissioner of the Presidency Division to the Collector of the 24-Parganas on the 2nd June, 1920.

The following figures will illustrate what I say :—

In 1897 when there was famine in the land—declared famine—the price of rice was Rs. 6. The price of other foodstuffs was less than half of what it is now. But now the price of ordinary rice is about Rs. 8-8, whereas the prices of other articles of diet have gone up more than double. The last rice crop was a fair one and the profiteers were seen in the distant villages with money in hand making large purchases. Whether these purchases were made for the purposes of export or for the purpose of holding up the stocks and profiteering I am not in a position to inform your Lordship's Government, but the fact is there that Marwaris were found hovering about in distant villages with money in hand making large purchases of rice. Government no doubt could not stop such purchases then, but I think enquiries ought to have been made as to the purpose for which those purchases were being made. If my remembrance serves me right this fact was brought to the notice of your Lordship's Government in this Council at the time, but we are not aware if any and what steps were taken by your Lordship's Government for preventing such speculative purchases in the country. When the crop is fair, I mean normal, the people have a right to get it at fair price—I mean at a price within the means of the average individual. But what are the facts, the price of ordinary rice is more than Rs. 8 per maund, *i. e.*, nearly double of what it is in normal times. We are not in a position to say definitely whether the prices now prevailing is due to the actual agriculturists holding over the stock or to profiteering. All we can say is that there are indications to show that the profiteering is one of the factors. But Government which carries on the administration of the country ought to know the exact reason why, in spite of fair crop, there is this abnormal rise in price. It was commonly stated that the high price of rice in Bengal earlier in the year was due to speculative trading with a

Resolutions.

Babu S. N. Ray.

view to export. When, however, it was notified by Government that free export would not be allowed, the price of rice declined to a certain extent. This was, however, only temporary. It must be admitted that there has not been any large export of rice this year, so that there must be some holding-up somewhere within the province itself, and Government should find out if this is due to speculation or to defective methods of distribution, or to both.

So far back as the 16th March last the Indian Association wrote to the Chief Secretary to the Government urging that wagon facilities should be provided for the movement of rice within the Presidency where railways were the only important mode of communication, so as to relieve the inflation in the price of rice in particular parts of the Presidency. And it appears from the reply sent by the Hon'ble Mr. McAlpin that Government were in favour of letting things alone and doing nothing by way of providing special facilities in the matter of supply of wagons to the rice trade. That some quantity of rice in the Presidency is lying near railway stations and has not been brought into the market is proved by independent information received by me in the course of my enquiries, and this from a very respectable rice merchant. I have been informed that if that rice be now brought into the market it will sensibly reduce its price. But on the allegation of shortage of wagons this rice has been allowed to remain where it is, lying in some interior railway station on the East Indian Railway. But whereas we have a shortage of wagons bunkering coal is going on. This is no doubt a very serious matter and is worth enquiring into. At the meeting of the Dacca Prices Committee recently held at the District Board office, the Director of Civil Supplies said that the rice of the province, which was much in surplus last year, had not gone out of Bengal and was not going out at present as every other province except Bombay had now a surplus. We were further told that Barisal rice had not even been sent up to Calcutta in any very large quantity, and was not being carried even now as one firm alone was holding a stock of Balam rice there of nearly 300,000 maunds. This was said to reassure the people that there was no shortage of rice in the province. But if this is a fact we ask Government to interfere and do what the necessity of the situation demands, in view particularly of the fact that rice is selling in the Barisal district itself, which enjoys the reputation of being the granary of Bengal, at the phenomenal rate of Rs. 10 per maund.

With reference to the import of Burma rice there are some important facts which has come to my notice and which I am bound to place before your Lordship's Government. The import of Burma rice in large quantities has a wholesome tendency to reduce the price of rice actually in the country. When again there is competition between the importers of such rice, there is a greater tendency to reduce its price. But the fact is that only a few people are allowed to import Burma rice, and these importers on account of their limited number are able to get their own prices, but people outside the ring, those who are not among the favoured few, cannot compete with them. Hence these favoured few on account of their position, which they simply owe to the favour of Government, can well afford to put up the price of rice and dictate their own terms. In that case these few importers are in a manner 'licensed profiteers'. The remedy is very simple Let licenses be given to a very large number of people, and besides the fixing of a maximum wholesale price, let all other sorts of restrictions be withdrawn and then there will be competition, and the result will be that a very large quantity will be placed before the public at a comparatively less profit. I think that the present high price of rice is partly due to profiteering and partly to other causes. If it is due to profiteering we ask Government to put a stop to it. If it is due to any other cause, we ask Government to do the needful so that we may get that which is the staple article of food of

Resolutions.

the people of this country at a normal price. We are aware that Government have already sounded the tocsin of alarm, and district officials have asked district boards and municipalities to make purchases of Burma rice to provide against contingencies. My Lord, this is no doubt a very wise step to take. But we are forced to ask, why should we starve or beg for our daily food from other countries when we ourselves have got sufficient food in our own country?

The question naturally arises, whether there is or was sufficient food in our own country, or is it the fact that Bengal is suffering from the world-wide shortage of food? If the latter, our position is helpless and we can suffer in silence and in tears. If, however, that is not the case, we have a right to approach your Lordship's Government to find out the remedy and relieve the country from the distress now prevailing.

Another principal article of food regarding which we think there has been some profiteering is 'sugar'. We cannot reasonably object to a firm of Marwaris having purchased the whole of Java sugar for 75 lakhs of rupees in that country. But we certainly object if they or any other people make large purchases of sugar in this country to make a monopoly of the article or for the eventual purpose of profiteering. I think if Government were to enquire into the matter they would find that some profiteering is going on with reference to sugar and that Government may help the people to put down the price, if not to its normal condition to what it was in pre-war days, at least to a certain extent. The export of sugar from this country should be stopped at once. The people of America have given up drinking intoxicating beverages and as a substitute they have taken to drinking sweet drinks. There have been large exports of sugar even from this country to America. Why should this be allowed to be done to the inconvenience of the people of this country?

There are other articles of food, such as *dal*, mustard oil and ghee, the prices of which have gone up to an abnormal extent. There has been shortage of rye and pulses owing to failure of these crops, and I also think that the prices of these articles have risen on account of rise in the price of rice. I think it is an economic law that when the price of a staple article of food increases abnormally, from any cause, the price of every other article of food and manufacture must necessarily rise. The man who has got his *dal* will exchange the same for rice, and the price of rice having gone up, the prices of these articles have naturally gone up. It is therefore necessary that steps should be taken to put down the price of rice so that we may hope to get the other articles of food at a lower price.

Now as regards cloth. Pursuant to a resolution of this Council, there was a Committee appointed to ascertain the high prices of cloth. This was in 1918. The Cotton Cloth Act was passed by the Government of India, and as stated by Sir George Barnes in September last 'prices fell immediately standard cloth was placed on the market, and the fact that it has been on sale has undoubtedly kept the prices of ordinary cloth down'. With a view not to frighten the importer or trader, the standard cloth was not introduced in Bengal, whereas the sister province of Bihar and Orissa took full advantage of the introduction of standard cloth in the market and it was a great relief to the poor people of that province. But in Bengal, the price of cloth came down for a short time with the passing of the Cloth Act and the apprehension of the sale of standard cloth; it again went up as soon as that apprehension was removed and the traders were convinced that your Lordship's Government were going to do nothing, that the Cloth Committee was not going to interfere with vested rights though, according to official report, standard cloth was popular among those who got it. Only about 461 bales of cloth were supplied to Bengal, *i.e.*, one-tenth of that

Resolutions.

Babu S. N. Ray; Babu A. C. Datta.

which was supplied to the United Provinces and Bihar and Orissa, respectively, and about two-fifths of that which was taken by the Punjab, and in Bengal only the famine areas and those which were affected by the cyclone in September had been supplied with standard cloth. We find, however, the following very significant remarks of Mr. Donovan, the Registrar of Co-operative Societies, in this connection. He said that 'the quantity of standard cloth sold was insufficient to affect the market rates of other cloth, but the fact that standard cloth could be counted on had a salutary effect on potential profiteers'. Though there has been a steady rise in the price of cloth, no attempt has been made by Government to grapple with the situation and to come to the relief of the poor people. On the other hand, in a telegram to the President of the Indian Association, the Secretary to the Government, Revenue Department, said although some increase of price of cloth is manifest in the last six months, it is not such as would justify a recommendation for the restarting of standard cloth. But so far as Bengal is concerned, there was no starting at all in the true sense of the word ;—why speak of restarting ? And then we respectfully ask, why not ? If the introduction of standard cloth had even to a small extent the effect of relieving the poor, I ask, in all solemnity, is it not the bounden duty of Government to introduce that relief which considerably ameliorates the condition of our poor unclad fellow-countrymen ?

In September 1919, Sir Dinshaw Wacha moved in the Imperial Council for the appointment of a Committee to investigate and report as soon as possible on the extent to which profiteering was prevalent in India. Sir George Barnes, the Member-in-charge of the Department of Commerce, amended the resolution by defining the scope of the Committee to be to consider the high prices which at present prevail in articles of daily consumption and to suggest such remedies, etc. Unfortunately, the decision of that Committee is not yet before the public and nobody knows when it will be made public. If your Lordship's Government consider that there is no profiteering at the present time as regards foodstuffs, then I would ask your Lordship's Government to consider, as was done by the Government of India, the whole question of high prices of foodstuffs and suggest such remedies as may be considered necessary, because without removing the causes of effects it is impossible for human intelligence to find out remedies. Therefore, I say, first discover the cause and the remedy will be palpably clear to your Lordship's Government. We hear nowadays of the high prices of foodstuffs and of cloth or any other commodity ascribed to some worldwide cause—to the low exchange, to the depletion of silver, etc. But unfortunately the unsophisticated people of this country do not understand all that. They know that their mother-country Bengal has always been productive of abundant crops, that few and far have been the famines in the country, that their country is what the poet has said of her (Sujalam Sufalam Malayaja Sitalam Sasya Shayamalam Mataram) 'সুজলাং সুফলাং মলয়জ শীতলাং শস্য শ্যামলাং মাতরং'. Why should in such a country the people starve and more than famine prices rule ? Why should the people of this country, which is not dependant upon any other country for its foodstuffs, be on the verge of famine ? A similar situation has presented itself in other countries and they have grappled or are trying to grapple with the situation. The Profiteering Act is already the law of the land in England. That is already shown in the price of tea there. Why should not a similar Act be passed here if it is considered necessary in the interests of the people ? "

The Hon'ble Babu Akhil Chandra Datta said :—

" My Lord, I do not think it will serve any useful purpose to take up the time of the Council by trying to prove that the situation is acute. That is a

Resolutions.

Babu A. C. Dutta; Sir Henry Wheeler.

fact which is admitted on all hands. My hon'ble friend has laboured long to prove that the situation is acute, but speaking for myself I do not think it necessary to do that. The question is how to stop this state of things. There is another matter, if I understand the position aright, about which there is not much controversy, namely, that the price of foodstuffs has been forced up at least to a considerable extent by profiteering. The whole question therefore is how to put a stop to this. Now, my Lord, so far as the principle is concerned, when the Calcutta Rent Act was passed one of the reasons for which that Act was opposed by a certain section of the House was that there was profiteering in other directions also and that why should the attack be directed against any particular kind of profiteer, namely, the landlords? But we on this side supported Government out and out, and we did so on the understanding that steps would also be taken against other kinds of profiteering. The time has, therefore, come when the same principle should be applied to the case of high prices of cloth, foodstuffs and other necessaries of life. I am afraid, my Lord, that if this is not done then the charge which was brought against Government on that occasion by Rai Debender Chunder Ghosh Bahadur that that Act was taken up because there was so much clamour near and round about Government House would be established and Government ought now earnestly and vigorously to stop profiteering in other directions."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, this resolution deals with a subject with the general merits of which the Council must by now be somewhat familiar. The reason that it has formed so often in recent times a matter for debate is doubtless because the hardships of high prices are so very obvious, and in fact are felt by us all every day of our lives. That it should have been the subject of frequent debate I have no complaint, because the more the facts are ventilated the greater the chance of due appreciation of the merits of the question and the greater the chance of the elaboration of possible remedies and the discarding of impossible ones. But it is an unfortunate feature of these not infrequent debates that whereas we hear much about the hardships, which are admitted, we derive singularly little light or leading towards the discovery of solutions over and above those which we are attempting. We have already attempted solutions and are attempting them, and I emphasise the point as Hon'ble Members so often speak as if the Government have throughout sat with folded hands doing nothing in this matter.

The actual resolution which is now before the Council asks for an enquiry, and the first point regarding it to which I would invite the attention of the Council is its extraordinarily wide scope. It covers all articles—articles in general—and it asks us to ascertain whether unreasonable profits are made by persons engaged in their production, handling and distribution. If that means anything, it means that the field of enquiry would extend from the raiyat in the field to the railway companies, steamer companies, boatmen and cartmen who convey goods about the country, right up to the small *muffassal* shops which eventually sell them. I venture to think that if we attempt an enquiry of that sort, it will be found at a time when I certainly shall hope to lay down my official duties, and many of the members of this Council will be looking forward to retirement, that this committee will still be sitting. However, it is of course possible that an enquiry can be of a more restricted and practical scope, and in relation to that I would refer the Council to the previous discussions which we have had, by way of avoiding the repetition of many of the arguments which were then used, while recalling to the memory of the Council the salient points.

Resolutions.

Sir Henry Wheeler.

Our first discussion on the subject was in February 1918, when the Hon'ble Babu Akhil Chandra Datta recommended the regulation of prices. Unfortunately for him, though fortunately for the province, the prices of foodstuffs were then abnormally low. I endeavour to trace the course of prices, and to argue against a somewhat rash adoption of a general policy of regulation. Then in February 1919 we had Rai Mahendra Chandra Mitra Bahadur advocating action on the lines of Bihar and Orissa in respect of the control of grain, cloth and foodstuffs, and again in answer to that—I need not again go through the history—I explained the system of Government food control and endeavoured to differentiate between the cloth problem in this province and Bihar and Orissa and to give the reasons why we had not thought it necessary to adopt measures which had been taken by our neighbours—not because, as the Hon'ble Babu Bhabendra Chandra Ray thinks, that we were frightened to tackle the trade, but because we held that an attempt to do so in the way in which we were asked to proceed would end in more harm than good. That resolution was lost. We next had 4 resolutions in July 1919; one recommending a committee and three recommending in general terms such action as was feasible. On that occasion Sir John Cumming explained the position of Government, and the Council will remember that he went in some detail into the factors bearing on the position —world factors of the war and its effects, particularly in respect of inflated currency; all-India factors of crop failure, and local factors of defective crop returns and inter-provincial transactions. He again controverted various misstatements which had been in connection with the rice control, while he emphasised the conclusion that the fixing of prices for all kinds of foodstuffs in Bengal was not practical politics.

As I have said, I do not wish to go through all those arguments again. They are on record for those who wish to read them, but we had further debates quite recently in the Imperial Council in September last, when the Hon'ble Babu Kamini Kumar Chandra moved that steps be taken to reduce prices. Both Messrs. Mant and Ley on that occasion gave clear expositions of the facts as they appeared to Government. I would only emphasise two extracts, namely, one from Mr. Mant's speech, who remarked, 'I am inclined to agree that profiteering is only a detail in the problem of high prices,' and another from Mr. Ley's, who said, 'I think it can fairly be said now that the present wholesale prices of Indian cloth are not unreasonable, when the prices of cotton is taken into consideration; as a matter of fact the margin between the price of standard cloth manufactured under the Cotton Cloth Act and the price of ordinary cloth is now so narrow, and has been so narrow for some time past, that the manufacture of standard cloth is at present in abeyance.' He dwelt on the fact that in the matter of cloth India was an importing country, and ill-advised action might seriously retard the importation of fresh supplies.

Following that debate we had the motion of Sir Dinshaw Wacha which asked for a committee, and a remark of Sir John Barnes in answer to that appears to be apposite. He observed that Government had no wish to conceal anything; they had done their best to explore all possible avenues of remedy, but if there were any others to explore he would be willing to do so, and accordingly a committee was appointed. But it is a relevant fact to remember that although that committee was appointed in September 1919 it has so far been able to accomplish very little. It has sent down to us two recommendations of a general character—one, that we should create advisory prices committees, which we have done; the second, that co-operative stores might help to alleviate the situation; this we commended to the Registrar of Co-operative Societies. But, apart from that, this committee, representative of all India and sitting with access to all possible sources of information,

Resolution I.

Sir Henry Wheeler.

does not appear to have been able to do much of a practical character. In fact we have been told by Mr. Hullah, who is now Secretary to the Government of India in the Revenue Department, that the subject of a Profiteering Act formed the subject of enquiry by the committee, but it was generally held that such methods as the opening of cheap grain shops, distribution of supplies through co-operative societies and the formation of local advisory committees, stood a far better chance of success.

I may refer the Council to other leading sources of recent information on the point, foremost among which is the report of the Foodstuffs' Commissioner. This gives a very full account of what he did and why. Again in the *Statesman* of the 26th June there was a very clear article describing in simple language what the position is. So in the light of these facts there is very little excuse for ignorance of the main conditions, and, to be brief, we know perfectly well that the present conditions arise primarily from the war, with its destructive trail throughout the world, and consequent inflation of currency, decrease in production and difficulties of transport. The position cannot be made good until these evils disappear.

Lastly, I would only mention a very clear letter which appeared in the *Economist* of the 3rd April from Professor Gollancz, who also arrived at similar conclusions. I should be glad to lend it to anybody who cares to read it. Meanwhile I will make one or two short quotations. He begins by saying that the causes which have led to a rise of prices are:—

'(*a*) world inflation;
(*b*) the state of the exchanges;
(*c*) increase in the cost of production;
(*d*) decrease of supply for the civil population;
(*e*) monopolistic conditions.'

He continues lower down that 'Some sort of rough estimate of the proportion of increase due to each of these causes respectively is necessary if we are to make any forecast of the future. Such an estimate can at best be made on a general impression; but it may be said with considerable confidence that *at least* half the rise is due to the following closely connected factors:—

the inflation of credit;
the inflation of currency both necessitated by, and leading to, the inflation of credit;
that part of the increase in wages which has been necessitated by the inflation of currency and credit.'

Later he arrives at, I admit, the pessimistic conclusion that 'If, then, the factors responsible for more than half the increase are more or less permanent, and if in addition even the factors responsible for the other half of the increase are not likely wholly to disappear, we may certainly say that it is improbable that prices will fall to any considerable extent for a great number of years.'

Now, Sir, these in brief are the leading causes which have brought about the present unfortunate position, and although figures have already often been made public, I will add to the printed account of the proceedings the latest statistics with which the Director has supplied us. They bear out what has often been pointed out before, namely, that the rise of prices in other countries is far higher than has been in the case of Indian ports; namely, to cite a few examples, 320 per cent. in Belgium; 155 per cent. in the United Kingdom, running down to 63 and 62 in Australia and New

Resolutions.

Sir Henry Wheeler.

Zealand. In India on the other hand, taking the retail prices of certain food stuffs, the percentage of increase on a general average has only been about 80 per cent., while among the ports Calcutta has been more favoured than others, more favoured in the sense that the percentage of increase has been lower in Calcutta than elsewhere. The figures are—in Calcutta 61, Bombay 87, Karachi 68, Rangoon 75 and Madras 107.

So, therefore we have an all-world crisis, and the mere cry to stop profiteering cannot by any possibility remedy it. We have, however, done much. In the matter of foodstuffs, there has now for some time past been the system of Government control. The inter-provincial control has recently been abandoned, but the Revenue Department published a *communiqué* yesterday dispelling any idea that such action has tended to the detriment of Bengal. The foreign export of foodstuffs has been severely curtailed, and in the article of the *Statesman* to which I have already referred figures were given showing that less than 9,000 tons of wheat were allowed to be exported during the last financial year, whereas exports ordinarily amount to anything from 700,000 to 1,500,000 tons. Rice exports from India proper ordinarily amount to 500,000 to 600,000 tons, whereas this year only 49,000 tons have been exported up to date. 'It is commonly represented that high prices in India have been and are due to the excessive export of food-grains out of the country. This is entirely untrue.' Again, in Bengal, in particular, we have, ever since the middle of last year, made extensive use of the remedy of importation from Burma. Last year over 100,000 tons of rice were brought from Burma, while from yesterday's *communiqué*, which I have already mentioned, the Council will observe that this month 12,500 tons of rice are being brought to Calcutta and 10,000 tons to Chittagong; in July the quantity will be still larger. Apart from rice the Council is aware that towards the end of last year, at the Puja time, we laid in a moderate stock of standard cloth with the intention of stopping improper speculation and profiteering, while at an earlier stage of the preceding year we intervened to put a stop to profiteering, believed then to be rife in the Calcutta market, by licensing all sales of cloth. We also did our best to relieve the distress in the cyclone area in particular, by the distribution of rice and cloth. In the matter of salt we are still controlling prices, and in the matter of kerosine oil we had a control which we abandoned fairly recently when we thought it was no longer required. In all matters, therefore, in which we considered it in any way feasible, we have taken direct action to mitigate the hardships of high prices.

But we are still assailed by this cry of 'stop profiteering.' That profiteering has gone on in England, is, I take it, undoubted, and the idea seems to be that we should proceed on some such lines as have been adopted in that country. What has been done there is to pass an Act in November 1919 (there was a subsequent Act of 1920 of which no copies are as yet available in this country), which gave powers to the Board of Trade to make enquiries into alleged profiteering in different industries and to fix prices, while it set up local tribunals for the investigation of allegations of malpractices in retail transactions, and it has been said to-day that that measure has worked with most marked success. All our information is to the contrary, and that is borne out by the Government of India, who have told us informally that it is very doubtful whether the Act has succeeded in England, while it is almost certain that it would prove a failure in India. That English Act has a somewhat curious history, and as far as one can gather, political considerations entered into it somewhat largely. Under pressure the Government of the day appointed a select committee to investigate this question of high prices, but before the investigation had scarcely begun they closed it down and introduced a Bill. I find in the published debates

some instructive criticisms. For instance, one member of the House remarked that 'it was a bad Bill to begin with; it is a bad Bill still, and nothing that the House could do, either in Committee or the Report stage, could make it a good Bill. This is all the result of legislation in a hurry. Its terms when it was introduced simply constituted a bluff on the public.' As to the actual working of this measure our information is not as full as we would like, but as far as we can gather, very little resort has been had to it, and we know it has failed to bring about a revolutionary reduction of the high prices which have prevailed in England. If this measure had been a wonderful remedy prices must have fallen to a greater extent than has been the case. Another remark by Lord Robert Cecil strongly corroborates this view, when he says (in connection with a proposal about housing) that he hoped 'they were not going to commit the same mistakes which some of them made over the Profiteering Act, in holding up to the country as a remedy what has proved to be a very trifling element in the matter.'

So I feel justified in saying that on the information we have, this English Act has not been the success which it is thought to have been in some quarters. If that Act has failed in England, is there any greater likelihood that a measure of a similar kind would be a success here? I know at least in one quarter, such a measure is favoured, and a definite proposal for legislation has actually been laid before Government, but apart from the intrinsic possibilities of successful legislation of that kind, I would point out to the Council that it is absolutely impossible that a measure of that type should be provincial. Obviously, if we are to legislate to curtail local prices only, we merely send supplies elsewhere, thereby cutting our own throats, while thinking that we are going to acquire some marked advantage over our neighbours. Still, that is one remedy to which reference has been made. Another remedy from which some people hope great things is the commandeering of stocks. But there again, all our experience points to the contrary, and it is relevant that Mr. Mant, in the debate to which I made reference, quoting the experience of Lahore, when, under martial law, they attempted there to fix prices, referred to the result as merely that of checking supplies, and last year a very apposite example came to our notice in Dacca and Mymensingh. Both those districts have always been somewhat more panicky than their neighbours on the subject of prices. Last year, when we were at Dacca, the Collector came round and asked for power to commandeer stocks in the hope of checking public alarm. He was given the power. Next day he came and said it was driving off supplies from the town, and urged that no action should be taken. So none of the remedies which we are talking about are as simple as they look.

As to the existence of profiteering in this country at the moment, it is difficult and often dangerous to dogmatise. One does not wish to say anything which can be twisted (as we know has been done in the past) as a kind of charter from Government in favour of profiteering. Thus, if we argue that profiteering is not the sole cause of the trouble, it is misrepresented to the effect that we hold that profiteers are not as black as they are painted, and that therefore they can continue in their bad work. But we have made two enquiries, one in August of last year, and the other only recently, of all district officers as to the extent to which, in their opinion, profiteering is going on, and their replies were distinctly of a negative character. The same conclusion has been arrived at, as was admitted by the Hon'ble Babu Surendra Nath Ray, in Calcutta, by enquiries made under the auspices of the Corporation, and more particularly in the matter of cloth, where the expert committee laid stress on the fact that Indian prices of cloth are markedly below those prevailing in Manchester. I will not, therefore, go

further than to say that the extent to which profiteering is going on at present is at least a moot point, while I have endeavoured to show that profiteering is only one among many other causes of the prevailing enhancement of prices.

Well, Sir, if the facts are as I have tried to explain, it follows that, in our opinion, the deliberations of a committee are not likely to be very fructuous, but if the Council wish a committee, we have not the slightest desire to stand in their way. If the Council decide to convene a committee, and if any Member expresses a desire to serve on it, we will be perfectly willing to lay our papers, and such information as we have before them, and we will show every consideration to any recommendations they may make. If they can find a remedy, so much the better. If we are sceptical of any sweeping remedy being forthcoming, it is only as a result of our experience of the last few years. That is our position—if the Council want a committee, we are perfectly willing that they should have one."

prices are due to world causes, causes beyond the control of this Government or the Government of India or, for that matter, of any Government. If that is so, I fail to see how your Excellency's Government thought that control in the matter of coal, kerosine oil, salt and house rent could be effective. At any rate, my Lord, in the cry for control raised by the Hon'ble Babu Akhil Chandra Datta and the Hon'ble Babu Bhabendra Chandra Ray, there is consistency. As I have explained on a former occasion, your Lordship's Government, by yielding to the cry of control in the matter of house rent and certain other matters, and in refusing to control prices of the necessities of life, and of housing the poor, have placed themselves in a position of inconsistency. I would ask the Government carefully to apply those reasons which have been applied to-day against the arguments of my hon'ble friends, and if we do so what do we find? It is undoubtedly true that the world causes are the prime causes for rise in prices. It is undoubtedly true that mere control can only be a tinkering, to put it at the highest, but my Lord, it is also common sense, and it also appears from our daily experience, that when there is a demand larger than the supply, then a tendency to profiteering is inevitable. I had the honour to serve on the Cloth Committee, and I had the advantage of listening to discussions raised by the Hon'ble Mr. Crum, the Hon'ble Raja Hrishikesh Laha, and Rai Hariram Goenka—gentlemen, who, I believe, are all experts in the cotton trade. One point impressed me very much, viz., that the price of cotton cloth in India at any particular date was lower than the replacement price at Manchester, so that if the petty trader could hold his stock of goods for say, six months or a year, he could easily pay 12 per cent. to his money-lender or banker, and yet easily make a very high profit. What is the reason? The reason is pretty obvious; the supply has shrunk, and the demand has not shrunk; the same thing impressed me as regards bricks. My Lord, it seems to me that control can only be a temporary remedy, and perhaps a remedy which is not always desirable, yet when there is great abuse, it is desirable to provide a temporary remedy. In the brick trade, the cost of production has perhaps risen by 50 per cent., but the price of the finished commodity has gone up by 300 per cent.; so in the case of food-stuffs. Now, my Lord, I venture to think that having yielded in the demand for control in some important matters, it is not quite open to your Lordship's Government to be obdurate over other things, and perhaps more essential things. At the same time, I feel that the terms of this resolution are too wide as the Hon'ble Sir Henry Wheeler has pointed out, but, however wide, it would bring within its scope all articles of necessaries of life. But, my Lord, although the resolution is too wide so far as the first part is concerned, the second portion suggests a line on which legislative or executive action seems to be desirable. Speaking for myself, I would lay far greater stress on the second portion than on the first. I have never been a believer in control or in interfering with free trade as a permanent remedy. For a permanent remedy I believe in self-help. I quite appreciate that by self-help we cannot solve in a day pressing problems of supply and demand, but the sooner we begin the better. For the last three years we have been debating on the question of high prices, but we have not been doing much in the matter of self-help. Take, my Lord, coal, and food-stuffs. If there were a freer supply of wagons the position with regard to coal and food-stuffs would be much easier. The question of more wagons is a question of self-help. I understand, however, that some parts of a wagon cannot be manufactured in India, but that is no reason why we should sit with folded hands. I am not an expert and it is not for me to put forward a scheme for manufacturing more wagons, but there are others who are more competent to speak on this point than myself and whose advise is available to Government. As regards food-stuffs, we have 45,000 square miles of cultivated land, of which 33,000 miles are paddy lands; perhaps 90 per cent. of this yield but one crop. I have myself experimented, and I can assure hon'ble members there are

many fields that are capable of yielding two crops, but it requires organisation, concerted action, and money to make two crops grow where one grows at the present moment. The problem may be too big for individual effort, but it is up to the Government to take a lead. My suggestion is on the lines of what the Hon'ble Maharajadhiraja Bahadur of Burdwan said when introducing the Rent Bill, that we want control to meet the intermediate stage, but the real solution is self-help. I hope your Excellency's Government will follow up the suggestion and appoint a committee with more restricted scope, restricting it to inquiries about the necessities of life."

The Hon'ble Rai Mahendra Chandra Mitra Bahadur said:—

"My Lord, I raised this question for discussion in the Council in the year 1918. The subject was discussed thoroughly, and when I got a reply from the Government member, my heart was sad, and I thought that the matter was hopeless. Again the same question was taken up for discussion by other hon'ble members, and the same vague explanations were offered to us by the Government member, explanations going to show that the whole question is a world problem. But, my Lord, that did not satisfy the people of Bengal; that did not satisfy us at all. We thought that Government would give us some remedy for the hardships from which we are suffering. My Lord, there is acute distress in every part of Bengal on account of the rise in prices; it requires no discussion to admit that; it demands no kind of enquiry; it is evident. Fifteen days ago I had the honour and privilege to make an enquiry as a member of the district committee as to the rise in prices in a mufassal station. The price was said to have been at that time Rs. 8 for coarse rice, and today it has risen to Rs. 9-4. The price of cloth has similarly risen. What is the *bonâ fide* reason for the rise in prices today? One cannot forget that it is a world problem no doubt, but is it unreasonable or unjust to expect that the Government should find out some remedy, and that is the reason, I believe, Sir, that this resolution has been put forward. The Hon'ble Sir Henry Wheeler is willing to have a committee, provided that information be given as to the mode of relieving the poor who are suffering from this distress. Very well, my Lord, we thank him for that; he wishes to have an inquiry on the subject, but at the same time it is necessary to inquire into the reasons for profiteering. Profiteering simply means an unreasonable demand of profits. If we go to the mufassil cultivator, we find that he sells his rice to the *bepari* or middleman, the middleman takes the rice to the *aratdars*. I myself had been to my own district to ascertain whether there is profiteering on that score, and found on examining the accounts, that I could not help the district committee by telling them that there was profiteering. It is very difficult to ascertain that, and when we asked the mufassil people to explain the reason of their heavy charges they pointed to Calcutta. They say, that is the place for it; we purchase cloth from the Marwari, and he charges heavily; what can we do? We went to the rice-seller and the answer was the same. These, my Lord, are points which are indisputable and which will require the time and consideration of an expert committee, so that they may be in a position to enlighten the committee as to the further steps to be taken. My Lord, I entertain high hopes if an Act were passed in this connection. Of course, we are told that the operations of the English Act were not successful. My Lord, I cannot say anything more on this subject than that of what we are assured. If your Excellency's Government had been able to provide the people of Calcutta with a Rent Act to stop unreasonable profiteering on the part of the rapacious landlord, then if Government are in a position to interfere in this connection, Government may also move to give us an Act of this kind. Enquiring and questioning the people will not be sufficient; there must be power for the Government to interfere whenever there is an unreasonable demand for

profit; that is the way I view this question. Government have power to do that. But the question is this; the world problem is before us, and we find that the trade of Calcutta is intimately connected with the trade in Europe and in other civilised parts of the world. It is reasonable to pause for a moment and consider whether the Government should by an Act interfere with free trade. I heard a statement the other day about the privileges of trades people and merchants; this is a matter which demands proper consideration before any man can venture to say whether such an Act will be successful in dealing with the very question which is at issue before the Government. I need not take up your Excellency's time further. I entertain high hopes that if there be a committee, and if proper enquiry is made, we may be in a position to find out the persons who are indulging in unreasonable profit, and if so, Government may take executive action in the matter, if Government be not inclined to legislate for the purpose. It will be a temporary measure for putting a check on profiteering. If you go to the mufassil, you will not be in a position to find out what profiteering is; if you come to Calcutta, and if you depend upon the experience of those who stay in Calcutta, the committee will be in a position to find out who are the profiteers. If you cannot find out profiteers, then the whole problem will be solved. The first question is, is there any profiteering; that should be the subject-matter of enquiry, and if there be no profiteering, then certainly the whole problem which we have been discussing for the last two years, falls to the ground. That is the view which I take, and which I submit to the Council.'

The Hon'ble Rai Debender Chunder Ghose Bahadur said :—

"My lord, I did not come, as my hon'ble friend Mr. Mitter said, with an open mind to this Council this morning. I came to speak on this question, and to support my friends, the Hon'ble Babu Bhabendra Chandra Ray and the Hon'ble Babu Akhil Chandra Datta. If my friend the Hon'ble Babu Bhabendra Chandra Ray would be so good as to amend the wording of his resolution, I will be quite at one with him. The words I would suggest to him to insert are the words 'of food and other necessaries of life' after the word 'articles' in the second line of his resolution. I take these words from the resolution proposed by the Hon'ble Babu Surendra Nath Ray. I will not twit the Government as my hon'ble friends Rai Mahendra Chandra Mitra Bahadur and Babu Akhil Chandra Datta have done by saying that Government were found to be quite willing to control house rent in Calcutta, yet they strained at the idea of giving relief to the poorest of the poor in this province in the matter of food and clothing.

In the matter of control of house rents there is not much difficulty, but in the case of controlling the prices of foodstuffs and other necessaries of life there is considerable difficulty, and the principal difficulty is that we have to go by the policy of the Government of India, who have declared their policy in no unmistakable terms. They do not see their way to controlling the prices of foodstuffs and other necessaries of life, and unless this Government are prepared to put new facts and new considerations for changing that policy, it is almost hopeless to expect this Government to go against the declared policy of the Government of India and tell the people of Bengal that they would do something in the direction of giving relief in the matter of prices of foodstuffs and other necessaries of life. I quite appreciate that and I sympathise with your Lordship's Government because I cannot forget that your Lordship has, since coming to Calcutta, been engaged in the amelioration of the health of the mass of the people, and I cannot possibly believe that knowing, as your Excellency knows, the condition of the masses, and how the factor of high prices has affected them, that your Excellency will not try to check any oppressive act on the part

of any of the persons who are responsible for bringing goods to market and raising their prices. But at the same time I would venture to draw your Excellency's attention to the fact that there is the English Profiteering Act, and instead of agreeing with what the Hon'ble Sir Henry Wheeler has said as regards the causes which led to the introduction of the passing of that Act by Parliament, I venture to dissent from his inferences to some extent because I find that the English Profiteering Act of 1919 is still in force in the year 1920. If it had not been a success in 1919 its life would not have been prolonged as it has been done recently; and therefore whatever party in Parliament opposed this measure it must have been in the minority. Whatever the Government of India might have thought in adopting the views of some members of the minority in Parliament in support of their position in the debate in the last cold session in the Imperial Council, there is the naked fact that the English Profiteering Act is still in force, and I therefore cannot believe that the operation of the Act has been a failure. I am a reader of Calcutta newspapers and I have never found any reference to the failure of the operation of the English Profiteering Act in England. I have also read a certain book on the Profiteering Act with a foreword by Mr. McMordie, who is Secretary of the Committee of the Profiteering Act in England, and I have not been able to gather that the Act there has been the result of bad statesmanship. If, my Lord, this Act is still in force in England, why should we not try to pass a similar Act in the province of Bengal? It is very harmless, and if it is thought that it will lead to oppression amongst ignorant people, its operations may at first be confined to the town of Calcutta where the people are more intelligent and able to assert their rights and to defend themselves. The Act provides for the appointment of a committee which will make enquiries in regard to the cost of production of articles and the increase in prices due to change of hands until they arrive in the market. It is a very intelligible provision and I fail to see why the prayers of the non-official members of this Council who at least know something of the state of things in the mufassal should not be heard. I cannot think why European members of the Council who are in comfortable circumstances should refuse to listen to the prayers of the representatives of the Indians in this Council in a matter like this. I suppose that none of us do feel the effect of the high prices so much that we expect to make a row about it or to clamour for the introduction of some hasty measure like that of of Lahore to which reference has been made by the Hon'ble Sir Henry Wheeler, but what we ask is that we should make the necessary enquiries and then introduce the measure. Sir Henry Wheeler has been pleased to tell us that a private committee without statutory powers may be appointed. I fail to see how such a committee can do anything in furtherance of the views which we entertain, because it will not be a statutory body who will be able to look into the accounts of the dealers, whereas the committee appointed under the English Act has certain powers under that Act to go into the accounts of the persons through whose efforts the goods come to the market at the last stage—powers such as the Income-tax Collector has in ascertaining the income of the proposed assessee. Therefore I think a committee as suggested by Sir Henry Wheeler will be somewhat useless. Then, my Lord, reference has been made to the importation of Burma rice and reference has also been made to the debates on this subject .....(At this stage the hon'ble member having exceeded the time-limit resumed his seat)

The President said:—

"Sir Henry Wheeler has already explained that Government are prepared to accept this resolution. I do not for a moment wish to prevent hon'ble members making speeches if they desire to do so, but under these circumstances the advantage of continuing the debate is perhaps doubtful. If

hon'ble members are anxious to make speeches, I do not forbid them, but I would remind the Council the Government have accepted the resolution."

The resolution was then put and agreed to.

The Hon'ble Babu Surendra Nath Ray and the Hon'ble Babu Akhil Chandra Datta then withdrew the following resolutions which stood in their names, respectively :—

This Council recommends to the Governor in Council that Government be pleased to take such action as may be necessary, and, in so far as it lies in their power, to put a stop to all profiteering as regards articles of food and other necessaries of life.

This Council recommends to the Governor in Council that the Government be pleased to take all possible steps to put a stop to all manner of profiteering in rice and cloth.

"The Council will observe that the remaining resolutions on the agenda paper deal with proposals which have been made in connection with the Reform Scheme. Government have already expressed their opinion officially upon all these matters and I propose, therefore, that the voting on these resolutions, if any voting does take place, should be confined to the non-official members of the Council. What we desire now is to have the opinion of the non-official members. I propose therefore to ask the official members to abstain from voting, should any of these resolutions be put to the vote. of any of the persons who are responsible for bringing goods to market and raising their prices. But at the same time I would venture to draw your Excellency's attention to the fact that there is the English Profiteering Act, and instead of agreeing with what the Hon'ble Sir Henry Wheeler has said as regards the causes which led to the introduction of the passing of that Act by Parliament, I venture to dissent from his inferences to some extent because I find that the English Profiteering Act of 1919 is still in force in the year 1920. If it had not been a success in 1919 its life would not have been prolonged as it has been done recently; and therefore whatever party in Parliament opposed this measure it must have been in the minority. Whatever the Government of India might have thought in adopting the views of some members of the minority in Parliament in support of their position in the debate in the last cold session in the Imperial Council, there is the naked fact that the English Profiteering Act is still in force, and I therefore cannot believe that the operation of the Act has been a failure. I am a reader of Calcutta newspapers and I have never found any reference to the failure of the operation of the English Profiteering Act in England. I have also read a certain book on the Profiteering Act with a foreword by Mr. McMordie, who is Secretary of the Committee of the Profiteering Act in England, and I have not been able to gather that the Act there has been the result of bad statesmanship. If, my Lord, this Act is still in force in England, why should we not try to pass a similar Act in the province of Bengal? It is very harmless, and if it is thought that it will lead to oppression amongst ignorant people, its operations may at first be confined to the town of Calcutta where the people are more intelligent and able to assert their rights and to defend themselves. The Act provides for the appointment of a committee which will make enquiries in regard to the cost of production of articles and the increase in prices due to change of hands until they arrive in the market. It is a very intelligible provision and I fail to see why the prayers of the non-official members of this Council who at least know something of the state of things in the mufassal should not be heard. I cannot think why European members of the Council who are in comfortable circumstances should refuse to listen to the prayers of the representatives of the Indians in this Council in a matter like this. I suppose that none of us do feel the effect of the high prices so much that we expect to make a row about it or to clamour for the introduction of some hasty measure like that of of Lahore to which reference has been made by the Hon'ble Sir Henry Wheeler, but what we ask is that we should make the necessary enquiries and then introduce the measure. Sir Henry Wheeler has been pleased to tell us that a private committee without statutory powers may be appointed. I fail to see how such a committee can do anything in furtherance of the views which we entertain, because it will not be a statutory body who will be able to look into the accounts of the dealers, whereas the committee appointed under the English Act has certain powers under that Act to go into the accounts of the persons through whose efforts the goods come to the market at the last stage—powers such as the Income-tax Collector has in ascertaining the income of the proposed assessee. Therefore I think a committee as suggested by Sir Henry Wheeler will be somewhat useless. Then, my Lord, reference has been made to the importation of Burma rice and reference has also been made to the debates on this subject .....(At this stage the hon'ble member having exceeded the time-limit resumed his seat)

The President said:—

"Sir Henry Wheeler has already explained that Government are prepared to accept this resolution. I do not for a moment wish to prevent hon'ble members making speeches if they desire to do so, but under these circumstances the advantage of continuing the debate is perhaps doubtful. If

hon'ble members are anxious to make speeches, I do not forbid them, but I would remind the Council the Government have accepted the resolution."

The resolution was then put and agreed to.

The Hon'ble Babu Surendra Nath Ray and the Hon'ble Babu Akhil Chandra Datta then withdrew the following resolutions which stood in their names, respectively :—

This Council recommends to the Governor in Council that Government be pleased to take such action as may be necessary, and, in so far as it lies in their power, to put a stop to all profiteering as regards articles of food and other necessaries of life.

This Council recommends to the Governor in Council that the Government be pleased to take all possible steps to put a stop to all manner of profiteering in rice and cloth.

This Council recommends to the Governor in Council that immediate steps be taken to telegraph to the Government of India, the Right Hon'ble the Secretary of State for India and the Joint Select Committee of Parliament that this Council is of opinion that the recommendations of Lord Meston's Committee have no reference to the impending increase in administrative expenditure and other inevitable obligations and proceed upon an exaggerated and indefinite idea about the further taxable capacity of Bengal; together with the substance of the speeches in Council.

Resolutions.

Babu S. N. Ray.

This Council recommends to the Governor in Council that immediate steps be taken to telegraph to the Government of India, the Right Hon'ble the Secretary of State for India and the Joint Select Committee of Parliament—

(*1*) that this Council is of opinion that the reasons assigned by Lord Meston's Committee for accepting the principle of division of existing heads of revenue as between the Provincial and the Imperial Governments laid down in the Montagu-Chelmsford Report are unconvincing and not based on equity, and

(*2*) that this Council urges—

(*i*) that as the basis of division the whole of the total amount of all taxation including customs and income-tax raised in any particular province should for the present be made provincial, and

(*ii*) that in case of doubt as to the proper apportionment of any source of taxation in future, *e.g.*, customs, steps be taken for ascertaining the facts so that they may be placed before the first Statutory Commission ;

together with the substance of the speeches in Council on this resolution.

This Council recommends to the Governor in Council that immediate steps be taken to telegraph to the Government of India, the Right Hon'ble the Secretary of State for India and the Joint Select Committee of Parliament that this Council places on record its protest against the proposed sliding scale of contributions imposing a contribution of 19 per cent. of the total deficit of the Government of India in the seventh year, so far as it affects Bengal,—

(*a*) as being opposed to the considerations laid down in the Montagu-Chelmsford Report for maintaining a uniform scale of contributions pending its revision by the Statutory Commission ; and

(*b*) the amount being higher than the amount which should be levied from Bengal on any equitable distribution of the burden ;

together with the substance of the speeches in Council on this resolution.

He said :—

"My Lord, the subject of the resolutions relating to the proposed financial settlement under the Reforms Scheme so far as Bengal is concerned is a matter of the greatest importance. The historical facts leading to the present crisis is well known. Under the law as it exists all revenues raised in any province, from whatsoever source it may be raised, belongs to the Government of India, and the Local Governments get what they are allowed by the Supreme Government. In practice taxes derived from some heads of revenue, *e.g.*, Land-revenue, income-tax, stamps, etc., raised in a province are generally shared between the Government of India and the Provincial Governments according to a proportion fixed separately for each particular province, while certain other heads, *e.g.*, registration, law and justice, excise, are either shared or wholly appropriated for the use of Provincial Governments, while still further other heads, *e.g.*, revenue derived from railways, mintage, sale of opium, etc., are wholly appropriated by the Government of India.

Resolutions.

Babu S. N. Ray.

Under the new system it is admitted by everybody that the provinces should not be dependant on the Government of India, and that it is necessary that the financial system should be wholly recast. Now what ought to be the criterion for this new adjustment? Everybody wants that it should not be unfair to any particular province, but the question arises how is this to be attained. A rough-and-ready method has been attempted in the paragraphs 200—207 of the Report on Indian Constitutional Reforms. When the Right Hon'ble the Secretary of State and His Excellency the Viceroy came touring round, collecting opinions on the subject of Indian Constitutional Reforms, no opinion was invited on this particular point. We may therefore assume that the system advocated in the report is the system as advocated by their financial advisers, and we know who they were. Leaving aside railways there are three main sources of revenue in India, *e.g.*, land-revenue, income-tax and customs. Practically no reasoning has been adduced as to why only certain heads, *e.g.*, land-revenue, judicial. stamps, etc., should be made wholly provincial, while certain other heads, *e.g.*, Income-tax, Customs, General Stamps, should be made wholly Indian. No attempt is made on any actuarial basis for arriving at a correct estimate of the revenue raised in any particular province. You cannot dismiss the subject by saying that there is at present no way, *e.g.*, by means of prescribed statistical forms, of accurately ascertaining the location of certain heads, *e.g.*, Customs or Income-tax. If you had not the means in 1917, may we not ask as to what attempts have been made to ascertain these things during the last three years? If the Government of India have not done this we think your Lordship's Government could have and should have done this long ago. The Report proposed that Land-revenue should be made wholly provincial. I am afraid the persons responsible for this had a very faint idea of the law of the land. For the last 5,000 years at least, if not more, the source of income of the Government has been the land-revenue which is known as the *Rajaswa* and the idea is that the Government of India as an entity would have no connection with it. The Report proposed that Famine Relief should be made wholly provincial and that a certain amount should be yearly set apart for this—I say that famine relief does not consist merely in spending money. You must be able to supply provisions and that at a price within the ability of the poor. You could not under the new conditions control foodstuffs of one province for the benefit of another province. There will be a hue-and-cry if any attempt is made to do so as violating provincial autonomy, and Burma rice instead of going to Madras, or the Punjab wheat instead of going to the United Provinces where a famine might be raging, might be shipped away probably outside India to far distant lands and for the benefit of other people where they could be sold at a higher profit. But if this view is not accepted by the provinces who are likely to be more affected, it is perhaps not for Bengal to give advice where such is not wanted. But Bengal wants that in this new distribution she should be fairly and justly treated.

Practically no argument is adduced as to why Customs and Income-tax should be made wholly Imperial. The Committee accepts the redistribution proposed in the Joint Report as being approved by the Joint Select Committee of Parliament, although there is not one word either for or against the proposed distribution so far as the published report would show. The report on Indian Constitutional Reforms admits that Income-tax is but the industrial counterpart of the Land-revenue derived from agriculture, but would not allot it to the provinces because in some cases there would be a possibility of some claim of a share in another province. That agreement, even if valid, would only be an agreement for division of the income between two or three provinces and not for its allotment to the Government of India. Similarly in the case of Customs there appear to be very strong grounds for making customs duties, specially export duties, provincial. I shall examine the

Resolutions.

Babu S. N. Ray.

matter in detail in connection with the third resolution on this subject, but the Meston Committee which was appointed certainly to go into the matter in detail and to examine the whole question equitably has not done it.

Under the present system Bengal out of a total income of Rs. 27½ crores pays about 20 crores to the Imperial Government, while Madras pays 11½ crores out of 20 crores, Bombay 19½ crores out of Rs. 30 crores, while the United Provinces pays about 5¾ crores out of 13¾ crores; and practically under the readjustment proposed in the Meston Report the same inequality of indirect contribution will be maintained, while Bengal will be forced to pay a standard contribution of 19 per cent. of the deficit of the Government of India—a contribution greater than the United Provinces, which has a far larger population, has to make.

The difficulty of the financial settlement was admitted by the joint authors of the report, and in paragraph 207 of their report it was laid down that the proposals made therein were for seven years only—an *ad interim* arrangement—and that a fair and permanent arrangement was to be made by the First Statutory Commission when the matter could presumably be mathematically examined. But no, the Committee admits that they have no means of properly evaluating the indirect contributions that will be made by the provinces, like Bombay or Bengal, but yet they could not shrink from the task of fixing the permanent share of contribution towards deficit to be paid by each Provincial Government. The proposal made in the Report for the provincialisation of General Stamps is only a sop to Bihar and Burma so that Bengal and Bombay should be left alone to fight the question of Income-tax. This only hides the inequitability and injustice of the whole scheme of distribution. The whole question of permanently fixing a share of contribution can only be dealt with after the groundwork has been fully explored and a proper data obtained as to the share of revenue to be credited to each province, and then the share can be fixed according to population. But the Committee would not leave it to the future when only the proper data can be found.

In paragraph 23 of their Report the Meston Committee say that in making their recommendation they considered established programmes of taxation and expenditure and legislative and administrative expectations and habits. But in paragraph 13 they admit that the estimates of normal expenditure in each province are strongly contested, and in paragraph 16 that they have been unable to accede to schemes of future expenditure to which special importance was attached. I do not know what the other provinces have got to say in the matter, but I would protest strongly against the manner in which Bengal has been treated. On their own estimate the Committee have come to the conclusion that on the existing basis of expenditure Bengal will gain Rs. 40 lakhs a year. The Committee, however, do not take into account the increased annual recurring expenditure on account of the reconstruction of University education in Bengal amounting to more than Rs. 40 lakhs as the result of the recommendations of the Calcutta University Commission. The policy which will have to be carried out by the Ministers on the lines to be laid down in the new University Act to be introduced and passed in the September session of the Indian Legislative Council was announced by His Excellency the Viceroy long before the announcement of the policy of Constitutional Reforms by the Secretary of State in the British Parliament and evidently the success of the new policy will depend on the promptitude and efficiency with which the Ministers will be able to carry out the scheme. The whole of the supposed increase goes away at a stroke and under the new adjustments Bengal has actually not only no increase of revenue but a gradually increasing deficit as the contribution to the Indian revenue increases year by year. Then there is the whole question of Primary Education to be dealt with in Bengal which in this respect is far behind other provinces

Resolutions.

Babu S. N. Ray.

although we had the benefit of the experience of a Director of Public Instruction indented from England who was supposed to have first-hand knowledge of the system there and should have been able to push through the system of popular education here. The Santitation Department has been systematically starved here and a large number of matured sanitary schemes which have been approved administratively have been pigeonholed on account of the economy that had to be observed under instructions from the Government of India since the war broke out.

Moreover, it is a fact that this Government has been the least progressive administration in India not only compared with the other larger provinces, but also with the Punjab and Burma, whose case seems to have called for special compassion from the Committee as will be seen from the standard of expenditure given below, and it will be necessary to make up the leeway in Bengal more than in other provinces.

(The population is in lakhs and the expenditure in lakhs of rupees.)

Further we must consider that the estimate in the present Budget for the reorganization of the Indian and the Provincial Civil Services amounting to Rs. 10,53,000 as the result of the recommendations of the Public Services Commission are quite inadequate on account of the increase of pay sanctioned being higher than those estimated by the Public Services Commission. Provision will have to be made for the revision of the scale of salary for the Educational Services as the recommendations of the Public Services Commission. The question of the revision of pay of the whole of the ministerial staff of the province on account of the new conditions will have to be tackled without delay. This is specially urgent in Bengal where the cost of living is higher than in any other province. While we have all these expenditures and obligations in view, the Committee under the new adjustment has not provided for adequate or any expanding source of income. The report says that Bengal has a low scale of expenditure and an inelastic revenue and it will receive only a very moderate start in its new financial career, but for direct contribution towards India, it should pay more than any other province because of its size, intrinsic wealth and general possibilities. But jute is already taxed—once for the Government of India and secondly for the Calcutta Improvement Trust. Under the Village Self-Government Act you will have to levy a further tax on lands in rural areas in addition to the road cess which is levied in Bengal for the full amount of one anna in the rupee on the annual valuation in addition to land revenue. The Primary Education Act contemplated the levy of an education cess in case of necessity. So are rice and tea. You will have to fall back on some sort of indirect taxation, *e. g.*, enhanced duty on the sales or transfers of land, but that is a source of income which cannot be expected to yield much—at least not sufficient to meet the increased administrative needs, unless you attack some other sort of export or import or the income-tax which in the Report has been made Imperial.

Income-tax is made Imperial because in the case of ramifying enterprises with their business centre in some big city the province in which the tax is

Resolutions.

Babu S. N. Ray.

paid is not necessarily the province in which the income was earned. Mark first the argument. Not all enterprises but only ramifying enterprises, and even in the case of these it is only possible that it may not be wholly earned. What further justification can there be for making it wholly Imperial so that other provinces where the income-tax is not much important may not have much to pay towards the deficits of the Imperial Government? Very well. now let us examine the case of managing agents' companies. A man in the street may ask why should a firm of managing agents in Calcutta control coal mines in Bihar, tea plantations in Assam, and jute mills in Bengal, without each concern having a separate head office in each place, and why from Calcutta and not from Allahabad or Madras? The answer is that the firm of managing agents is the brain of the whole organisation. The head office in Calcutta wires to the manager of a coalfield in the Hazaribagh district to send 500 trucks of coal weekly to certain jute mills on the Hooghly which they manage and 500 trucks weekly for steamers for which they are also agents and on which they ship the tea from the plantation they control in Assam. This is simply due to the efficiency of the organisation, and the real place of business is not where the coal is raised or tea leaf is plucked but in Calcutta where the sale is possible at the highest price with the minimum cost and trouble. It is to be remembered that Calcutta is the financial capital of India. So our point of view is this, that income-tax should be credited to the province where it is raised and that in all provinces. It will be said that this will increase the deficit of the Government of India, but if all provinces are made to contribute ratably there will be no deficit. The criterion in this new distribution should not be that no province should in any circumstance contribute towards the deficit of the Government of India, but that when everything is supposed to start from a new point of view every endeavour should be made to arrive at an equitable adjustment. The utmost that can be urged is that in case of ramifying enterprises some portion of the revenue derived from income-tax should be credited to other provinces where some factories may be situated. This, however, is a matter for a settlement between the particular province concerned as to the proportion in which the tax is to be shared and not a question as to why none of these should get anything and that the whole should be appropriated by the Government of India. Let me now examine the case of Customs. I propose that Customs should be made Provincial, but I see that some of my friends around me are not so sanguine as to its justification. Why? It is said that because Bombay and Calcutta are the main gates of import and export it is not reasonable that the taxes on import and export should be appropriated by Bombay and Bengal. I would answer, look to the coast lines from the border of Persia to that of Siam with innumerable harbours having more natural advantages than either of these ports; why should merchandise find its way mainly through these sources? Then, again, if the United Provinces with its rich soil watered by the Ganges and the Jamna and their innumerable canals get the full benefit to be derived from the produce of the soil, if the Punjab with its magnificent river system and the canals on which so much has been spent by the Government of India gets the benefit to be derived from these, I do not see any reason why Bengal and Bombay should not derive advantages from the situation of their ports. Even, however, if we give up these advantages for the benefit of others we are certainly entitled to the income that may in the strictest sense be said to be derived from the people of Bengal. Take the case of jute. Under the orders of the Government of India an export tax is laid on this produce of Bengal, yielding an income of about 2½ crores of rupees. No one can say that the tax on jute cannot be localised or that it is not purely paid by the people of Bengal. Take the case of tea and other exports on which a tax is levied. Certainly by the use of a specified kind of form the place of origin of these things that are exported can easily be ascertained and the tax localised.

Resolutions.

Babu S. N. Ray.

We may now proceed to the case of imports. The existing statistics do not help us much as to how much of the imports into Calcutta or Bombay are sent by rail to other provinces. But I think it is not necessary to compile detailed statistics to show that proportionately to population Bengal pays a larger amount than any other province. The biggest item of tax is the duty on cloth, and everyone knows that imported cloth is mainly consumed in Bengal where the village weavers of ordinary cloth have largely disappeared. Then take the case of sugar. Imported sugar is not much consumed beyond Bengal. The next item is foreign liquors. I would not grudge any province which would claim that proportionately to its population the province consumes and therefore pays a large amount, but my impression is that even in this item, Bengal, which has a larger European population than any other province, pays a proportionately high amount. The next item is tobacco Here also I would claim that this article is more consumed in Bengal than outside it. What I would specially ask for is this—that if for the present the whole of the Customs is not provincialised, at least the tax on jute which can be localised should be made over to Bengal, and that a special procedure should be prescribed for ascertaining the proportion of the imported or exported articles that are consumed or produced in the province where they are originally imported or from which they are exported, and when they are re-exported to other provinces for consumption or brought from other provinces. so that the value of the indirect contribution of each province towards the Government of India may be specifically and truly ascertained.

The Report of the Meston Committee is biassed and unfair so far as Bengal is concerned. The Report on Indian Constitutional Reforms and the Meston Committee Report both proceed on the assumption that as in Bengal the land is permanently settled Bengal has under no circumstances any right to complain. The Meston Committee states that the indirect contribution now paid and to be paid in future under the proposed award by Bengal towards the Government of India has been fully taken on to account, although the public and certainly we of Bengal would have liked to see the actual figures for which credit has been given to be published and checked. Admittedly, Bengal pays the highest amount in indirect taxation and yet the Committee thinks itself perfectly justified in fixing the contribution of direct taxation to be levied by the Government of India from Bengal at 19 *per cent.* of the deficit and from the United Provinces which have a larger population than Bengal, of which the President was the former Lieutenant-Governor, at 18 *per cent.* only. The Committee do not give any indication even of the principles, far from giving any figures, on which they have based their calculations, perhaps thinking that then it would not stand criticism for a minute. Too much is made in the Report as to the economy shown by certain provinces during the war, but as I have already pointed out in connection with the first resolution that so far as the total cost of administration is concerned Bengal proportionately to its population spends less than Bombay, Madras, the United Provinces, the Punjab or even Burma, and when we know how large a share of this goes to the police department, it is no wonder that Bengal will have to make a greater leeway in respect of sanitation and education, etc., than any other province under the Reform Scheme.

From the Budget figures of 1920 it would appear that out of a total revenue of Rs. 3,145·7 lakhs raised in Bengal, the province got only Rs. 729·81 lakhs. Madras got Rs. 865·5 lakhs out of Rs. 1,998·6 and the United Provinces Rs. 813·03 out of Rs. 1,376·7, and Bombay Rs. 1,038·2 lakhs out of Rs. 3,138 lakhs. The figures for Bengal and Bombay no doubt include the income from sale of opium and from the mint, respectively. If these two incomes be deducted we have for Bengal Rs. 2,750·75 lakhs and for Bombay 3,000 lakhs. We have then the fact that Bengal out of a total income of more than 27½ crores pays about 20 crores to the Imperial Govern-

Resolutions.

Babu S. N. Roy; Mr. Watson-Smyth.

ment, *i.e.*, about 8-11ths, Madras out of a total income of about 20 crores pays to the Imperial Government about 11½ crores, *i.e.*, about 11-20ths or a little more than a-half. Bombay out of an income of about 30 crores pays about 19½ crores to the Imperial Government, *i.e.*, 13/30ths, while the United Provinces of Agra and Oudh pays about 5⅔rd crores out of a total revenue of about 13⅔ths crores, *i.e.*, ⅔ths or less than half. We have the fact that Bengal even now makes the largest contribution to the Government of India. The Committee practically admit that the indirect contribution from Bengal is very high and according to the population is certainly higher than that of the United Provinces or Madras. Yet the Committee propose that the final contribution from Bengal should be greater than any other province. The only possible permanent basis can be the percentage of population—each province paying the percentage of the deficit that the percentage of the population of that province bears to total population. But this percentage should be levied only when the initial distribution of revenue is just to every province without any taint of favouritism and when proper account is taken of the indirect contribution paid by each. The initial distribution so far as Bengal is concerned is inequitable. As regards indirect contribution, the Committee say that they have taken this into account. But they do not mention the amount to be credited to each province for this, nor do they publish any figure or adduce any principle by which this can be calculated, but on the other hand admit that no exact calculation can be made. Yet the Committee recommend that Bengal which pays the Government of India proportionately to its revenue and also absolutely the largest amount of indirect revenue should also pay directly a contribution larger than is warranted by the number of its population."

The Hon'ble Mr. Watson-Smyth said :—

"My Lord, as representing the Bengal Chamber of Commerce I have been told by the hon'ble mover that it is necessary for me to speak to his resolutions, and so I obediently do as he tells me. but perhaps not quite in the way that he expects. The whole subject is a highly technical one and very difficult for anyone to understand whose mind is not trained in the method of Government finance.

I have read Lord Meston's report very carefully, and I must admit that I find it more easy to understand than the speech of the hon'ble mover, a copy of which he very kindly sent me in advance, so I had an opportunity of studying that too.

Lord Meston had a very difficult task, and he was exposed to adverse criticism because he was one of the financial advisers of those who were responsible for the Montagu-Chelmsford report as the hon'ble mover has been quick to point out.

In my humble opinion, however, he did his task extremely well in many ways. I do not quarrel with his method of arriving at the contribution of each province to the Government of India deficit. Let those percentages stand, I do not object to income-tax being taken by the central exchequer. The arguments, in my opinion, in its favour far exceed those against it. I do, however, object very strongly to the central Government taking all the customs duty. Here is an item which very readily divides itself into two separate heads, viz., import taxes and export taxes. Let import taxes be allotted by all means to the central Government, but surely export taxes are absolutely and entirely provincial. The export duty on jute, for instance, is paid entirely by Bengal, and should belong to Bengal. The suggestion, therefore, that I have to make on behalf of the Bengal Chamber of Commerce is this: make all export duties provincial; this will of course very largely

Resolutions.

Mr. P. C. Mitter.

increase the Government of India deficit. Apply the Meston Committee's percentages to the increased deficit; this will mean a larger windfall (as Lord Meston put it) and a larger contribution to the central Government, but it gives us a tax which is purely a provincial tax capable of development and which should never have been allotted to the central Government at all.

There is one other thing which I have to say. The hon'ble mover calls attention to the fact that land is permanently settled in Bengal, and that both the report on Indian Reforms and the Meston Committee make use of this to tell Bengal that she has no right to complain. This is correct and the answer the Chamber give to the hon'ble mover is this: let the first act of the new Reformed Council be the introduction of a Bill to abolish the permanent settlement and then the finances of this province will become vastly more elastic."

The Hon'ble Mr. P. C. Mitter said:—

"My Lord, I agree with the Hon'ble Mr. Watson-Smyth about his suggestion of dividing custom duty into two parts, viz., export and import duty. As regards export duty, although there are very many valuable commodities exported from India, export duties are levied principally from jute, in other parts of India, *e.g.* from Bombay, about 40 crores of rupees worth of raw cotton are exported, over 30 crores of rupees worth of wheat are exported from other parts of India, but not a single pice of export duty is levied from those commodities. Over 25 crores is the value of exports of seeds and copra exported and not a single pice is levied on that. It is not necessary to multiply instances, but of all the principal and more valuable commodities jute is the only commodity on which there is an export duty, and on that account Bengal paid during 1919-20 two crores and thirty-eight lakhs of rupees to the Imperial Government. The only other comparatively important commodity on which there is an export duty is rice, but the amount paid on this account is much smaller as compared with jute. However, if we ask the Government of India and the Joint Committee to provincialise all export duties, we shall be on safe ground as also on just grounds. It will be quite open to Bombay to levy an export duty on her cotton, but at present she levies none. It will be quite open for the other provinces to levy other export duties. The deficit of the central Government will not be very large, and whatever the deficit may be, as my honourable friend Mr. Watson-Smyth has pointed out, it can be adjusted by a larger contribution, and the larger contribution will at the same time be a more just contribution, because the other provinces have got a windfall. Madras suddenly finds herself richer by over two crores. The United Provinces has got a similar windfall; and if we are to ask them to contribute a little more, it would not be either unfair or unjust.

About income-tax, I agree generally with the hon'ble mover. In the first place we must remember that in ordinary income-tax, super-tax and excess profits tax Bengal contributed handsomely last year. It was somewhere near eleven crores of rupees, and it is ten times the contribution of Madras, and out of this about 80 *per cent.* was levied from our local mills, industries, etc.

So that the specious arguments used in the Montagu-Chelmsford report and repeated in the Meston Committee's report, fall to the ground. As regards the question of the income being earned in other places, it is as has been pointed out by the hon'ble mover, where the head office of the business is, there the capital is found, and the earning takes place. Merely raising coal in Bihar does not necessarily mean that the business is worked at a profit in Bihar because the question of profit can only arise after the same

Resolutions.

Mr. P. C. Mitter.

is earned. This was also pointed out to Lord Meston. It was also pointed out to him that in England, it has always been held that where the head-quarters lie, there the income-tax is payable.

There is one point in Mr. Watson-Smyth's speech which I cannot pass unchallenged. He said that one of the first acts of the Reformed Council shall be to do away with the permanent settlement. I have no doubt that if my hon'ble friend and the members of the Chamber of Commerce would discuss the matter with us sitting round a table, they will be the first to agree that if the permanent settlement goes, then their business will go too. What is the position in Bengal? In Bengal the total land revenue is 12 crores and 49 lakhs of rupees—for these figures I refer my friend to the Land-revenue Administration report—out of which two crores and seventy-six lakhs of rupees are paid as Land Revenue, leaving about nine crores of rupees to be divided between 30 lakhs of persons of the land-holding class, so that the average income of a landlord does not exceed Rs. 30 a year, and if you take into account big incomes like that of my hon'ble friend the Maharajadhiraja Bahadur of Burdwan and other territorial magnates, then the average comes to perhaps 20 rupees a month. Since 1793, when the permanent settlement was first introduced most of the original zamindars with whom such settlement was effected have sold their properties to others who paid for the same. Is it proposed to confiscate their rights without paying for their properties? I trust the Hon'ble Member for the Chamber of Commerce does not propose this. If so, how is the State to gain and in what way is the permanent settlement to be done away with? Since 1793 a large number of middle men have been created. If you disturbed the permanent settlement ten years after it was created, the question would have been different. If you attempt to disturb it now you will convulse society in Bengal in a staggering manner. As I have already pointed out the average income of a landlord in Bengal is 20 or 30 rupees a year. The result of unsettling the permanent settlement will be to take away the rights of these poorer middle classes and, what is worse, the raiyats as a class will be undone. The total rent-roll of raiyats, as I have already pointed out, is about 12 crores and 49 lakhs. If you do away with the permanent settlement, then the total rent-roll will not be less than 50 crores, or in other words, the raiyats of Bengal, the poorest of the poor, will have to pay about 30 crores more. There will be far less free circulation of money with the result that trade, commerce and industries will be paralysed. There is another point which I would ask my hon'ble friend to consider. Perhaps he thinks by getting rid of the permanent settlement he will be taxing the rich only. Paradoxical though it may seem, the zamindars of Western Bengal will gain much, at any rate, on paper. If the zamindari system of temporary settled estates of the United Provinces and Orissa be introduced, then 35 *per cent.* of the profits will be left to the zamindars. I have in mind a big estate in Bengal the gross rent-roll of which at present moment is about 63 or 64 lakhs and the revenue about 52 lakhs. If that estate be settled temporarily, then the gross rent-roll will perhaps be nearly 2 crores of rupees and the income on paper will perhaps be over 60 lakhs of rupees, but one can easily realise how difficult it will be to collect 2 crores where at the present moment less than half that amount is collected with so much difficulty. It is commonly believed that unsettling the permanent settlement will mean prosperity to Bengal but I say emphatically that it will mean nothing but ruin to Bengal. I hope and trust that before an influential body like the Chamber of Commerce takes upon himself to form an opinion upon a question of such importance as this it will go into the matter properly; at any rate it should consider how unsettling the permanent settlement would affect their interest. I would ask them to take into consideration the figures for Bengal, Bihar and Orissa, the United Provinces and Madras, the figures as to

Resolutions.

population and area, the figures as to trade and commerce, the figures as to income-tax and the figures as to export duty. If they really probe into the matter they will find that the interests of those who represent the Chamber of Commerce will be quite as much affected as the interests of the zamindars, tenure-holders and the raiyats of Bengal.

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

"My Lord, there is one most important point which I wish to press, and that is, that there should be no indirect contribution. Whatever contribution is to be made, let it be made under one general head. My idea is whatever revenue depends upon the general prosperity of the people should be considered as local revenue, and if the central Government takes a portion of it, let it be taken in a direct way. Income-tax and customs duty are two sources of revenue which can be expanded, and if these two sources are taken away there would remain nothing for us.

The suggestion that the permanent settlement should be done away with does not appeal to me. It would do no good to the country. It is a debatable point. All along the cry has been that wherever there is no permanent settlement it should be introduced there. Now it is an admitted fact that Bengal peasants are more prosperous than those of other provinces where there is no permanent settlement.

If the proposition is accepted that these also should be considered as direct contribution, then it will be found that the burden on Bengal is far more heavy than on any other province. All those things ought to be considered.

With these words, I support the resolutions."

The Hon'ble Sir Henry Wheeler said:—

My Lord, the four resolutions which are before the Council are somewhat lengthy in form, but the purport of them can be summed up in a sentence, namely that the province, as represented by the Legislative Council, is not satisfied with the award of the Meston Committee.

Your Excellency has already explained that we propose to treat the debate as an opportunity for non-official opinion to express itself, and I do not therefore propose to argue the official case for the province in detail. In the first place, it is unnecessary for me to do so, since so far as the Government of India and the Joint Committee are concerned, our representation on the subject is already in their hands. A month ago we forwarded an expression of our opinion on the Meston Report to the Government of India, and no doubt that has already gone home, and in fulness of time will be published along, I am afraid, with similar letters of protest from other provinces. It was remarked to me at the time by one of the members of the Meston Committee that he had already discovered that they were concerned, not so much with an enquiry into the facts, as with the settlement of a provincial dog fight. I am afraid there is a certain amount of truth in that, and that no province will be satisfied. However, we have lodged an expression of our views.

Secondly, it is not easy for me to argue the official case in detail, since it is etiquette that correspondence between the provincial Government and the Government of India and the Secretary of State should not be made public while it is in progress, especially, as occasionally happens, when we do not happen to see eye to eye with those above us, and it would be a breach of that etiquette for me to reproduce in a speech the purport of the arguments that we adduced in our letter.

Resolutions.

Sir Henry Wheeler; Babu S. N. Ray; the President.

But in fairness to ourselves and I think, in justice to the Legislative Council, we are entitled to say so much; that we are in sympathy with the resolution in so far as it means what I have already said, that, as a province, we are not satisfied with the award of the Committee, which is the view we expressed to the Government of India. To the general lines of our contention I referred briefly at the end of the budget debate, namely, that it is not fair to judge the contributions of the different provinces to the Central Government solely on heads which are provincial under the Reform Scheme of finance; but that, in order to arrive at a fair distribution, regard should be had to all the monies taken from each province by the Imperial Government, more particularly under the heads of income-tax and customs, including export duties. Following on that, that if regard is paid to all the monies so taken, Bengal's and Bombay's contributions to the Government of India are far in excess of those from any other province, and therefore, it cannot be fair to assess the ultimate contribution of Bengal higher than that of any other province. That, in brief, is our argument, and it will be seen that it resembles very closely that adopted by the Hon'ble Member.

Two minor points arise on the actual wording of the resolutions. It will be seen that they recommend telegraphing the purport of the speeches to the Government of India, and, further, direct communication with the Joint Committee. We cannot, of course, communicate direct with the Joint Committee, and it will probably delay rather than expedite matters to send a too lengthy telegram of the debate, but we will at once communicate to the Government of India, the purport of to-day's discussion, and to the extent that it coincides with the views that we, as a local Government, have already expressed ourselves, we welcome the fact that we find the non-official members of this Council in accord with us.

The Hon'ble Babu Surendra Nath Ray said:—

"My Lord, as regards the last portion of the Hon'ble Sir Henry Wheeler's speech, I have only one observation to make. Your Excellency is aware that a few days ago a notice appeared in the papers that the Joint Committee would shortly finish their deliberations. So if we are now to communicate to them through the Government of India, it would take a very long time. A telegram may be sent to the Joint Committee and the Secretary of State informing them that we are going to send this through the Government of India also. That may be one of the ways in which this question may be solved. Otherwise it might take a very long time for us to communicate to the Government of India and then by them to the Secretary of State and the Joint Committee. In that case it were useless to have this discussion at all.

Then with reference to the subject matter of the resolution I may say that I have consulted some of my friends here, and they are unanimously of opinion that we ought to have the income-tax too, and I agree with them. This is all I have got to say."

The President said:—

"I think I can relieve the anxiety of the hon'ble member with regard to the method of procedure which we intend to follow for making the wishes of the non-official members known to the Joint Committee. The Government of India have already been informed that the non-official members of this Council desire that the expression of their opinion should reach the Joint Committee, and the Government of India have asked us to telegraph the result of to-day's discussion as soon as the debate is over. So the hon'ble Member may rest assured that the information will reach the Joint Committee immediately."

The resolutions were then put and agreed to.

LIST OF BUSINESS—ITEM 1

The Hon'ble Babu Akhil Chandra Datta moved the following resolution :—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that such steps be taken as may be necessary to drop the proposal of allotting to the General European Constituency in the Reformed Bengal Legislative Council four more seats than were originally proposed by the Franchise Committee.

He said :—

"My Lord, it is, of course, wellknown that these four seats are in addition to the 12 seats allotted to the European commerce. As regards the representation of the European commerce, the Southborough Committee observed as follows—I read from page 11—'It will be noted that the amount of representation given to European commerce in Bengal is larger than in other provinces; this step we hold to be justified by the importance of European commerce in that province.' This is rather important in connection with the representation given to the general European constituencies. Admittedly the representation given to commerce is excessive as compared with the other provinces. Originally, my Lord, your Excellency's Government proposed four members for the European constituency. The Franchise Committee, however, recommended two—one to Calcutta and the other to the rest of the Presidency. Even these two seats being somewhat disproportionate to the number of Europeans, it appears to me that the Southborough Committee offered something like an apology which will be found on page 11 of the report of the Franchise Committee. We find this on page 8 :—'As regards Europeans our action needs but little justification beyond an appeal both to history and existing facts. We shall subsequently deal with the representation of European commerce and industry, but in addition we feel that the European community as such is entitled to separate representation. There are many interests, such as those of professional men, government and private employees, educationists, missionaries and the like, which would not be adequately represented by members selected primarily on behalf of the capital concerned in commercial and industrial activities.' This is a reason which we find ourselves unable to accept. The 12 gentlemen who represent the European commerce are certainly able to represent the professional European men, Government and private employes and so on. That was the recommendation of the Franchise Committee. Then we have to see what was the attitude of the Joint Select Committee. All that we find about the European representation is on page 7. This is what they say—'The Government of India will be instructed to consult the Government of Bengal in respect of the representation of Europeans in Bengal. It appears to the Committee that there is a good deal for readjustment of that representation.' Now as a result of that recommendation, in place of two seats they have now been given six seats: four additional seats have been given, that is, three times the number originally given by the Franchise Committee. What is the result, my Lord, of this addition? There are altogether about 18,920 Europeans in this Presidency. Roughly speaking, the result is almost one member for every thousand. It would be interesting to know what should be the total strength of this Council if representation was given to the other communities at this rate? A little arithmetical working shows that in that case the Brahmins ought to get over 1,000 members, the non-Brahmins more than 9,000 members and the depressed classes about 10,000 members. In other words, the Hindus ought to get 20,000 and the Muhammadans about 25,000, bringing the total to 45,

Resolutions.

Babu A. C. Datta; Mr. Watson-Smyth.

Now, my Lord, this is certainly very excessive and disproportionate to the number of Europeans in this country. Of course taken by itself there is no harm if they are given more seats but some proportion must be maintained between the Europeans and other communities. What makes me object to the excessive representation of the European is this. The excessive representation of the Europeans is not quite compatible with the scheme which is intended to lead us eventually to responsible Government, and it is prejudicial to the popular interests. My Lord, this excessive representation has been taken exception to by all the representative institutions of the country, including even the Indian Association. I make special mention of the Indian Association not because that that body is entitled to greater weight than other bodies, but because the Indian Association are a body of people who, it is well known, are satisfied with the reforms: they are of opinion that the reforms are adequate and satisfactory. Therefore when they complain it ought to be taken that there is some substance in that complaint. This is the resolution that was passed by the Indian Association :—

'The Association records its emphatic protest against the recommenda tion of Government to allot four additional seats to the Europeans in Bengal whose representation as proposed by the Southborough Committee was alread excessive and quite out of proportion to their numbers and their genera interests in the country. In the opinion of the Association over-representa tion of the European community is incompatible with the scheme which i intended to lead to responsible Government and is strongly calculated t jeopardise the success of the reforms in this province.'

Therefore, my Lord, we request that the proposal of allotting four mor seats ought to be dropped."

The Hon'ble Mr. Watson-Smyth said:—

"I cannot congratulate the hon'ble mover on his first resolution which in common with the second and third, is anti-European and highly provocat tive. However, we Europeans can, I am afraid, expect nothing else from th hon'ble mover. I should be the last to deny anyone the right to his own honest opinions. I can quite believe that it would be highly distasteful to the hon'ble mover to see so many Europeans in the Reformed Council—in fact I have no doubt that a Council consisting of any one besides the hon'ble mover would be considered by him to be over-stocked. But he must have some reason for moving so many and such highly contentious resolutions at a time when we all thought that discussion was in abeyance pending the decision of the Joint Committee at Home. The subjects have all been fully discussed and the recommendations, both of this Government and the Government of India, formulated, and it is left to the Joint Committee of Parliament to issue final orders.

No doubt he has one very special reason for his action and it is not far to seek. Politicians of the views of the hon'ble mover have got a rough path before them. The simple means of entry into this Council will not apply to the Reformed Council where they will have to woo a very large constituency, and probably face opposition to an extent unknown in any of their previous elections. They must, therefore, be first in the field with a popular cry and a popular platform. Nowadays any stick is good enough to beat the European community with, and with a certain class of politician the more they do this the greater is their claim to patriotism. Therefore, no doubt, the hon'ble mover hopes that 'Down with the European' will be a popular war-cry and an anti-British policy—a popular plank in his platform. It is therefore for the benefit of the voters of some remote constituency in which the hon'ble mover hopes to be a successful candidate that we are forced to listen to these resolutions to-day.

Resolutions.

Mr. Watson-Smyth; Babu K. M. Chaudhuri.

To the hon'ble mover I will not waste time in addressing any arguments, as I know he will not listen to me. I will content myself with saying this. We Europeans are a peace-loving and long-suffering race. We ask nothing better than to live on terms of political friendship with our Indian compatriots, but let not the hon'ble mover be misled by our complaisancy. If he makes the mistake of smiting us on one cheek, then I can assure him that no matter what our religion may teach us, we shall not turn the other cheek to him, but on the contrary shall hit him back.

Do not let it be thought, however, that I in any way question the sincerity or honesty of his convictions. I am quite prepared to believe that the idea of having to sit with so many Europeans in the new Council is really distasteful to him, and I will, with all humility, suggest a remedy which might suit both him and us. I suggest that he place himself at the feet of the Mahatma Gandhi and imbibe from him the elements of non-co-operation. This will entail his withdrawal from this Council and the abandonment of any idea of sitting in the next. In doing this he will gain peace for his soul and earn the eternal gratitude of us, his colleagues.

But the hon'ble mover cannot pass this resolution without the vote of members of this Council, who hold more moderate views and they will, I feel sure, be willing to listen to argument and be guided by what they think right. Whether these few extra seats will be granted us, I do not know, but if they are, then we shall not be in any better position than we are to-day. The principle which I ask you to accept is the same principle which was accepted by this Council in 1918, namely, that whatever percentage of the present Council is allotted to European non-official members, the same percentage shall be given us in the Reformed Council. Now, the figure arrived at by the Franchise Committee was based on the assumption that the Reformed Council would consist of a certain number of members. This basis has, however, been changed; extra seats have been added here and there, all at the request of you hon'ble gentlemen and those whom you represent, until the proposed number of the new Council far exceeds the number on which the Franchise Committee based their recommendation.

We are only asking for our numbers to be proportionately raised, to maintain our percentage. Surely there is nothing grasping in this. Surely there is nothing in this that a really fair-minded member of this Council can find fault with, and so I appeal to my Moderate friends to give us fair play in this matter. I ask them to judge this question entirely on its merits and not to sacrifice all chances of our working together, to the fear of losing a few votes at the coming elections. If this resolution is passed, it will certainly dishearten those who hope that the Moderates and Europeans will work in harmony together and it will tend to drive us into perpetual opposition.

And after all you are not deciding this question. The number of our seats will depend on the decision of the Joint Committee at Home, on which Committee you Indian gentlemen have many good friends. Let them therefore decide on the material before them and do not try and prejudice our case by allowing this resolution to be cabled Home as representing the opinion of this Council. I feel convinced that many of my Indian friends will play the game towards us, and vote against this resolution."

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

"My Lord, originally I had no mind to say anything on this resolution, but I see that really something has been done for the European community far in excess of the recommendation of the Joint Committee. There was a suggestion by the Joint Committee that there should be a readjustment and upon that four additional seats have been allotted to them, but to increase it from 2 to 6 seems rather disproportionate.

Resolutions.

Babu K. M. Chaudhuri; Dr. Suhrawardy; Babu A. C. Datta; Mr. Leslie

I cannot understand why my hon'ble friend Mr. Watson-Smyth has used the threat that if anything is said against it then all hope for co-operation between the two parties will be gone. I cannot understand why such things should be said: similar things might be said by others. A zamindar might likewise come forward and say that if their party is not properly represented then all hope of co-operation will be gone. I am not convinced of the reasonableness of the arguments put forward by my hon'ble friend Mr. Watson-Smyth. I rather agree with my hon'ble friend Babu Akhil Chandra Datta that there should not be so many additions.

With these few words I support the resolution of my hon'ble friend."

The Hon'ble Dr. Abdulla-al-Mamun Suhrawardy said:—

"My Lord, the resolution moved by my hon'ble friend to the right is the first of a number of resolutions which deal with the allotment of seats in the Reformed Council to various communities. There are about 14 such resolutions, but they resolve themselves into a demand for an increase of Hindu seats and a demand for the reduction of non-Hindu seats. Whilst I sympathise with my friend in his demand for an additional seat for the district from which he comes, the division he represents, and the community to which he belongs, I am afraid I cannot support him in his demand for the reduction of European, Anglo-Indian or Muhammadan seats. I say 'Muhammadan seats' because I find that his resolution No. 23 is directed against the Muhammadans."

The Hon'ble Babu Akhil Chandra Datta said:—

"My resolution does not aim at reducing the Muhammadan seats."

The Hon'ble Dr. Abdulla-al-Mamun Suhrawardy (continuing) said:—

"But that is what I understand from my reading of it. The hon'ble member has not advanced any argument worth the name in support of his contention that the number of European seats should be reduced. The increase of European seats by 4, if I am not mistaken, is the result of the increase of the total strength of the Council. The proportion of seats allotted to the various communities remains undisturbed. If my hon'ble friend argues that the number of European seats ought to be reduced because the Europeans are numerically small, I should like to know why the number of Hindu seats should be in excess of their numerical strength.

I am afraid that the spirit in which my hon'ble friend has approached the question of allotment of seats to various communities is not calculated to make for Hindu-Moslem unity or Indo-European co-operation which is essential for the successful working of the new Council.

With these words, my Lord, I beg to oppose the resolution."

The Hon'ble Mr. Leslie said:—

"My Lord, I rise to oppose this resolution. It seems to me a great pity that the hon'ble mover has drawn this racial red herring across the trail. I take it that we are all here not to exercise racial feeling, not to denounce each other, but to do what we can for the better government of the country. The hon'ble member has not made one single suggestion throughout his speech to show that by cutting down the number of seats given to the European community India will be better governed or Bengal will have a better Council. My Lord, I hold no brief for any community, the only brief I hold is for the better government of Bengal. I take it that the European

members will represent no ly the European interests which includes capital sunk in this country—I have no desire to flog a dead horse—but, my Lord, I maintain that the European members will represent hundreds of thousands of Indians who are employed in jute mills and other industrial concerns. It is the managing agents, the mill managers and people of that class who are the *ma bap* of the employees of these mills and the proper representatives of these dumb millions (if I may use a phrase which is much hackneyed in this Council) will be the European members. My Lord, in this connection I would like to refer to a remark in the Hon'ble Babu Surendra Nath Ray's speech, which he read to us before we went to lunch. He said 'why should a firm of managing agents in Calcutta control coal mines in Bihar, tea plantations in Assam, and jute mills in Bengal, without each concern having a separate head office?' The answer is that the firm of managing agents is the brain of the whole organisation. My Lord, I adopt that answer 'it is still true that those who think must govern those who toil.'

I oppose this resolution."

The Hon'ble Sir Henry Wheeler said:—

My Lord, this is the first of a series of resolutions dealings with the composition of the future Council and the electoral franchise. Since it has already been decided, as in the case of the resolutions on the recommendations of the Financial Relations Committee, that only non-official opinion should be expressed on these resolutions, I intend only to explain in a few words the reason of the recommendations made by the local Government in each particular instance. But, before doing so, I would like to make two general remarks which are applicable to all these resolutions. In the first place, the matter does not rest with this Council or with the local Government; the rules will be made by the Governor General in Council, with the sanction of the Secretary of State, and practically, under the procedure adopted, they will be made, as Mr. Watson-Smyth has remarked, with the concurrence and approval of the Joint Committee. Secondly we are not writing upon a clean slate. As the Council is aware, when the composition of the new Councils was first taken up in detail, the method adopted was the appointment of a committee under Lord Southborough. To that committee the local Government made proposals, and Lord Southborough's Committee considered them; they, in their turn, made recommendations to the Government of India, who examined them and sent them on to the Secretary of State and the Joint Committee. The latter finally gave certain specific directions as to the modifications of which they approved. Where no specific direction was given by the Joint Committee, it has always been concluded, and concluded rightly, that the issue was a closed one; that is to say, that the Joint Committee accepted the recommendations of the Southborough Committee. We can now therefore only work within the limits of what has been accepted or of what has been ordered to be changed, and we have not a free discretion to reconstruct the whole Council, even if we wished to do so. This is particularly applicable to those resolutions, which will come later, recommending the reopening of certain questions which have already been decided.

Referring to this particular resolution the justification of the original proposals of the local Government will be found in the unanimous resolution passed by a non-official committee of this Council in November 1918, when they considered, as a whole, the future constitution of the Council. That resolution, proposed by Mr. Hely Hutchinson, was to the effect that adequate representation on the proposed Bengal Legislative Council should be granted to European non-officials, such representation to be sufficient to safeguard European interests, and to correspond with any increase in the

Resolutions.

number of elected members. The Committee unanimously agreed to that proposal. That is the record of the proceedings, and on that record we framed our proposals, and it is far easier to judge of the merits of this question, if, also as the Hon. Mr. Watson-Smyth has pointed out, we concentrate on percentages and not on numbers, because the total number of elected seats in the Council has varied from time to time. The original proposal of the local Government was for 86 members; the Southborough Committee recommended 100, and the last proposals of the local Government were for 118. Therefore by merely looking at the number of European seats, misleading conclusions are apt to be drawn. The Council should look to the proportion of the European seats to the total elected membership of the Council. The existing proportion of European seats is 17·8 per cent., and we have worked throughout on the theory that that proportion should be maintained. Hence our original suggestion for 17 European seats out of 86 elected members. The Southborough Committee, while increasing the elected number of seats to 100, reduced the number of European seats to 15. They gave no reason for so doing, and when we came to examine their conclusions, we adhered to our previous recommendation, which, as I have said, rests on the resolution of a committee of this Council. The total number of elected members having risen to 118, the number of European and Anglo-Indian seats—because these reasons apply both to Europeans and to Anglo-Indians—has been increased in proportion. That is the explanation of the addition of 4 seats which appears to have alarmed the Hon'ble Member; it is merely the maintenance of the proportion which we have advocated throughout, and which at one time was accepted by this Council.

The Hon'ble Babu Akhil Chandra Datta said :—

"My Lord, I am perfectly aware of the difficulties suggested by the Hon'ble Sir Henry Wheeler because we are at a very late stage now. I can only say this in justification that this is the earliest occasion upon which we could possibly meet so far as this Council is concerned, after the publication of the rules, etc. My Lord, referring to the argument, which certainly has some force, that the number was originally smaller and therefore the number of seats allotted to Europeans was smaller, I can say that that explanation certainly goes to a certain length, but does not go far enough, because when the number was 86, your Excellency's Government proposed two members for the European seats. Now certainly, the increase from 2 to 6 is not proportionate to the increase from 86 to 142.

Then, my Lord, I really do not know what to say in reply to the observations of the first speaker. At one stage he said distinctly that he was not prepared to adduce any arguments, but your Excellency has heard how the greater portion of his speech was nothing but a personal attack without referring to the arguments, either good, bad or indifferent. He said, it is very easy to cry down English people, and so on ; I say it is easier still to take up a position like that and poison the minds of all people by saying, 'Well, here's a man who wants to down the English people' ; it is very easy to rouse passion in the minds of people in that way. Who knows who might not be led away by that sort of appeal? In any case, he seems to think that I am a solitary man who holds this sort of view, and the whole country does not share this view with me ; it is further suggested that it is only Extremists who hold such views. I am only sorry that my hon'ble friend overlooks facts and stern realities. He forgets there is not one representative association or one representative Indian in this country who has not spoken against this excessive European representation, be he a Moderate or be he an Extremist. I say this without fear of contradiction. I say even the Indian Association, the most moderate of Associations, c this in the strongest possible language, so my friend must be

under a misconception if he thinks it is the opinion of so-and-so only. He appeals to his Moderate friends. But may I ask him where are those Moderate friends of his to whom he was making this appeal? Does one Moderate support this view? Why does he not care to see things as they actually stand? To live in such ignorance over the actual state of things may be living in a paradise, but that is a paradise which is always shunned by all wise men. He appeals to Moderates, and thinks that they will co-operate with him, but may I ask him what happened in this very Council Chamber only at the last session of the Council, on the 12th and 13th of April last, when the Calcutta Rent Bill was passed? He stretched out his hands to them; were they grasped by the Moderates, did they support him? It was myself and those other people who shared the same political opinions with me that supported him. He stretched his hands to the Moderates, they were not taken or accepted. It will not do in this Council if as a representative of either Europeans or Indians, if you want to do good, that is not the attitude that you ought to adopt; argue and reason and not simply villify.

Mr. Smyth speaks of co-operation. I say this is raising quite a false issue. If we wanted to boycott the Reformed Council then and then only this controvercy of co-operation *versus* non-co-operation would and could have some significance. But everybody knows—Mr. Smyth ought to know—that all classes of people in this country have decided once and for all to work out the Reforms for what they are worth and to make most of them. Once we are in the Council we shall certainly co-operate with the Government whenever they propose something for the good of the country. At the same time we shall certainly withhold our co-operation whenever they propose anything prejudicial to the popular interests. We are not perverse people and shall not adopt the suicidal course of opposing the Government just for the sake of opposition even when they initiated beneficial measures of education, sanitation and other improvements. Mr. Smyth read out his written notes in such a low voice that I could not catch his words. I enquired of my colleagues on my right and on my left. They said they also could not follow his speech. All that we were able to gather from the isolated words we could catch is that Mr. Smyth has indulged in personal vilification. I shall not stoop so low as to return abuse for abuse. I won't use any unparliamentary or undignified expression even in self-defence. I shall only tell him that this should not be the attitude of one who preaches co-operation in season and out of season. I am absolutely certain that Mr. Smyth and the European community at large will hereafter regret the speech he has made today and will be ashamed of the bad taste which his speech has betrayed.

LIST OF BUSINESS—ITEM No. 18.

The Hon'ble Babu Akhil Chandra Datta moved the following resolution :—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that such steps be taken as may be necessary to drop the proposal of allotting to the Anglo-Indian Community in the Reformed Bengal Legislative Council two more seats than were originally proposed by the Franchise Committee.

He said :—

"My Lord, it would not be justifiable to give the Anglo-Indians more than two seats. That was the view of your Excellency's Government. The Franchise Committee did not accept that recommendation. They were for giving one seat to the Anglo-Indians. The representation of the Anglo-Indian community presented a question of very great difficulty, and as it was desirable to afford them an opportunity for political education it was thought

that it could not be done except through communal election. This recommendation of the Southborough Committee was accepted by the Joint Select Committee, that is, they also proposed to give one seat to the Anglo-Indians. There was no further recommendation of the Joint Committee in their report to increase the representation of the Anglo-Indians. But as their report has been sent back for the consideration of the Local Government, they have increased the number from one to three. It has been observed, my Lord, that this was beyond the scope of reference. But I would not press that point—it is only a technical objection. The whole question is whether as a matter of adjustment of proportion they are entitled to have the number raised from one to three. The feeling on the subject is that this increase is not warranted either by their number or by their wealth or education or otherwise by their general status in society. Their total number in this Presidency is 18,902, so that one member has been given to every 6,000. Of course, as regards Europeans there is this argument that they are more educated, more wealthy and influential people. I do not know whether the same view can be taken of the Anglo-Indians. Certainly the Europeans are mostly commercial people, they have got a stake in the country. There is not the least doubt about that ; I do not know if the same thing can be said about the Anglo-Indians. Now, my Lord, if other communities will have their representation raised like this, then we should have 3,350 Hindu members and 4,000 Muhammadan members, or to look at it from another standpoint, while one member has been given to each 6,000 Anglo-Indians, one member has been given to each 6 lakhs of Muhammadans. I do not know whether my hon'ble friend Dr. Suhrawardy would like the Anglo-Indian representation to be 100 times more than the Muhammadans. Now, if we are to prepare a comparative statement about the extent of representation, then that statement would be something like this : As regards Europeans, one seat for each thousand ; Anglo-Indians, one seat for each six thousand ; Indian Christians, one seat for 80,000 ; Hindus, one seat for 4½ lakhs ; and Muhammadans, one seat for 6 lakhs ; and depressed classes, one seat for one crore.

So far as this representation is concerned, one European is equal to 6 Anglo-Indians, 400 Hindus, 600 Musalmans, and 10,000 depressed classes ; one Anglo-Indian is equal to 75 Hindus and 100 Muhammadans. These are facts that make it absolutely clear that they are not entitled to have their seats raised from one to three."

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

"My Lord, without taking much time I think I agree with my hon'ble friend the Hon'ble Babu Akhil Chandra Datta, that there was no justification for raising the number of seats for Anglo-Indians. I think the objection is very reasonable, and I hope the matter will be fairly decided by the Joint Committee."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, the argument in this case is exactly the same as that in connection with the previous resolution, although by splitting the matter up, the point becomes somewhat obscure. I have endeavoured to explain to the Council how, consistently with the extension of the Council, the Anglo-Indian and European representation had to be raised, if it was to be maintained in the new Council in the same proportion as it is in the present Council. It thus happened as a consequence of the increase in the total number of the elected seats, that we had to raise the number of European and Anglo-Indian members from 17 to 21; that is to say, we had to provide 4 more seats. After discussing the distribution of these 4 seats with the representatives of the

Resolutions.

Sir Henry Wheeler; Mr. Leslie; Dr. Suhrawardy.

'o communities, we decided to allot one more seat to the Anglo-Indians, which is the reason why their number has been increased from 2 to 3. Therefore the argument is precisely the same as in the case of the previous resolution.

The Hon'ble Babu Akhil Chandra Datta wants to take away two seats out of the three recommended by us for the Anglo-Indian community, but it would not meet him in any sense to transfer these additional Anglo-Indian seats to the Europeans. What he wants is to knock them off both."

The Hon'ble Mr. Leslie said:—

"My Lord, I rise once more in opposition to the hon'ble mover of this resolution. My friend makes it very difficult for me to understand him. I do not know whether it is due to the heat of the room or the lateness of the day, but I certainly cannot follow him in his argument when he says that he wishes to support proportionate representation and then proceeds to destroy it by *reductio ad absurdum* for he shows that proportionate representation means a Council of about 45,000 members. I do not think that the hon'ble member knows what he is talking about when he speaks about Anglo-Indian representation in this Council. My Lord, the history of the Anglo-Indian or Eurasian community has been very much before us of late, but I should like to point out to every member here that the definition of 'Anglo-Indian' for the purpose of the electorate of this Council includes not only those of mixed race but pure Europeans who choose to make homes in this country and to adopt an Indian domicile. That is the new definition of 'Anglo-Indian' for the purposes of the Reformed Council, and that being so, it does not lie in the mouth of my hon'ble friend to talk about Anglo-Indians without knowing whom he is speaking about. My friend has said that the proportion has got to be adjusted. Does he really think, as I said before, that this Council has got to be increased, to consist of 45,000 members, because that will be adjustment according to proportion? He has then said that the number of wealthy and educated Anglo-Indians is 18,920 in this province. Again point out to him that he is dealing with the old definition of Anglo-Indian as one of mixed descent and not with the definition for the purposes of this Council. My Lord, it may be quite true that the Anglo-Indians have not been heard of in matters political up to now, they have in the past adopted an attitude of quiet loyalty to the throne; they have done their work and have said nothing about it; they have now become a political entity in the country and no speech such as that of my hon'ble friend will keep them down. It has been said and it has not been contradicted that the backbone of the army is the non-commissioned man. I speak, my Lord, on behalf of the non-commissioned men of that great army which helps to govern India—an army which includes Europeans, Anglo-Indians and Indians, officials and non-officials. On their behalf I oppose this resolution."

The Hon'ble Dr. Abdulla-al-Mamun Suhrawardy said:—

"My Lord, I rise to associate myself with what has fallen from my hon'ble friend Mr. Leslie. I have nothing more to add to what he has already said. But I have to ask a simple question of my hon'ble friend Babu Akhil Chandra Datta. Am I right in thinking that Hindu representation is more than the Moslem representation in the Reformed Council despite the latter's numerical superiority? If so, what are the reasons for the excess of Hindu representation over Moslems? The answer to this question is the answer to his criticism about the weight of numbers. Number is not the sole factor in determining the amount of representation of a community. I am not in favour of introducing racial questions in this Council, but I should like to be clear on this point. With these few words I beg to oppose this resolution."

Resolutions.

Babu A. C. Datta; the President; Sir Henry Wheeler.

The Hon'ble Babu Akhil Chandra Datta said:—

"My Lord, there is some misconception about the new definition of Anglo-Indians and the number that I have given. The number I have given is that of the people who are covered by the new definition and not the number of those people who used to be known as Anglo-Indians in this country before. If we consult the Southborough Committee's report we will find that there is that definition and the number of people who come under that definition.

As regards Dr. Suhrawardy's remark, I do not propose to accept the challenge thrown out by him as it relates to a racial question. If I discuss this I think it will not conduce to Hindu-Muhammadan unity in this Council."

The resolution was then put and lost.

The President said:—

"Owing to a mistake in an entry in the previous division, the figures that I gave out were not correct. Four members who are absent were entered as having voted by a clerical error. It does not alter the result of the division except that it alters the number, 10 voting against and 9 for the resolution."

LIST OF BUSINESS—ITEM No. 19.

The Hon'ble Babu Akhil Chandra Datta moved the following resolution:—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that such steps be taken as may be necessary to have a rule framed under the Government of India Act, expressly debarring Europeans and Anglo-Indians from contesting the two Labour seats in the Reformed Bengal Legislative Council.

He said:—

"My lord, in support of this resolution all that I need say is that this is a resolution which has been passed by all the representative institutions of the country including also the Indian Association."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, this resolution has reference to constituency which is the direct outcome of the recommendations of the Joint Committee, which wished that an attempt should be made to secure a better representation of the urban wage-earning class. On receipt of that recommendation we did our best to devise a constituency, although there are many who feel that the time is scarcely ripe in this country for a constituency of this kind. However, it was not for us to argue and we did our best to create it. Ordinarily in special constituencies the rule is that the representative of that constituency should be qualified as an elector in it, that is to say, zamindars should be represented by zamindars, and so on. When we came to this labour constituency, bearing in mind that the labour vote would be somewhat illiterate, we thought it would be too restrictive to make a similar provision, namely, that labourers—manual and industrial—must be represented by labourers, and we recommended that they should be represented by anybody qualified as an elector in any special or general constituency. The racial question was never raised by anybody and never came into our minds, and it seems to me to be inadvisable to introduce it now. If it is desired to ensure the representation of the

labour constituency by what in England is known as labour candidates—trade unionists, or persons distinctively associated with the labour movement—names will readily suggest themselves to this Council of Europeans who, in this country at the present time, would probably satisfy that qualification more completely than many Indians. So if that is the object, why debar Europeans? To impose a racial qualification is a new point which we never thought of, and for which there does not appear to be adquate justification."

The Hon'ble Babu Akhil Chandra Datta said:—

"My Lord, I have nothing to say in reply, except that I am anxious to make one general observation, so that I may not be misunderstood in this matter. As I have submitted before these are considered as grievances by the people. I thought it my duty to bring these matters to the notice of your Excellency's Government. This much I wanted to say to the gentleman on my right also. Whatever else might be said it must be admitted that if there is any public opinion on a certain matter, it is our humble and sacred duty to bring that to the notice of the Government. I do not think it is to the interest of any class in this country that we should conceal our real thought and say something outside the Council in the Congress and Conferences, but when we come to the Council Chamber change our tone and make misrepresentations of these matters to the Government. I do not think it is good for any party concerned and this is my justification for troubling your Lordship with these matters at this stage."

The resolution was then put and lost.

LIST OF BUSINESS—ITEM No. 20.

The Hon'ble Babu Akhil Chandra Datta moved the following resolution:—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that such steps be taken as may be necessary to allot two seats to the non-Muhammadan rural population of Tippera in the Reformed Bengal Legislative Council instead of one as now proposed.

He said:—

"My Lord, my justification for moving this resolution is this: I find, for instance, that the non-Muhammadan population of Jessore is smaller than that of Tippera, but two seats have been given to Jessore while one has been given to Tippera. So far as the Southborough Committee's report goes the number of voters is shown as less in Tippera than in Jessore, but it is well known that the estimate of figures of voters as given in that report is rather incorrect, inaccurate and misleading. The only thing that is a sure and certain datum upon which we can proceed is the figure about population as given in the census report, and according to that standard Tippera should be given another non-Muhammadan seat."

The Hon'ble Babu Sarat Chandra Chakrabartty said:—

"My Lord, the object of my intimating that I shall speak on this resolution was that if the learned mover successfully gained the six seats from the Anglo-Indians and Europeans there would be a contest for those seats and I had a mind to ask for a portion of those six seats for my own district, Dacca, which has been very badly served in the case of non-Muhammadan seats. My friend has been unsuccessful in getting the seats from the Europeans and Anglo-Indians and I do not think it would serve any purpose to press this resolution."

Resolutions.

Sir Henry Wheeler; Babu A. C. Datta; Babu K. M. Chaudhuri.

The Hon'ble Sir Henry Wheeler said:—

"My Lord, I think the Hon'ble Member actuated by district patriotism, as preferred a claim which can hardly be substantiated. The matter is to e judged rather by the provincial average number of rural non-Muhammadan oters per seat than by the particular number which may exist in an olated district. It may be that in our wish to give representation to a articular district we gave a member to it though of slightly less voting trength than another, but if the question is judged on averages, I submit hat there is no claim. The average number per seat of non-Muhammadan ural voters, according to the figures laid before Lord Southborough's Comaittee, is 23·3 thousand: the anticipated number of non-Muhammadan oters in Tippera was 18,836, so it really scores on the allotment. These gures have been revised in the light of the first preparation of the electoral oll. That brings out an average of 14,000 per seat, while Tippera comes ut with 12,606 voters. On these figures I do not think we can possibly ake out a claim for two seats."

The resolution was then put and lost.

LIST OF BUSINESS—ITEM No. 21.

The Hon'ble Babu Akhil Chandra Datta moved the following resolu-on :—

This Council recommends to the Governor in Council that a recommenda-ion be made to the Government of India that such steps be taken as may be ecessary to allot one seat to the urban areas of the Chittagong Division and ne seat to the urban areas of the Rajshahi Division in the Reformed Bengal egislative Council.

He said :—

"My Lord, my point is this. It appears that Calcutta urban has got two embers, Howrah has got one member, Presidency Division has got another nd the Dacca Division has got one member. So practically the urban areas f the Presidency Division, Burdwan Division and the Dacca Division have een given separate representation. There is some feeling that the urban reas of the municipalities of the Chittagong Division might be given one vote nd the urban areas of the municipalities of the Rajshahi Division one seat."

he Hon'ble Babu Kishori Mohan Chaudhuri said:—

"My Lord, in this demand I join. Now that Darjeeling district has shown willingness to come under the operation of the Reformed Council, and in that demand the other districts of the Rajshahi Division have joined, I think that one more seat for the Rajshahi Division, either for the urban area or in any other shape, would be a great blessing and would meet the wishes of the people. In this view I rise to support this resolution."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, in this instance the Hon'ble Member has got rather across the Joint Committee which, as I have previously said, is the final arbiter in these matters. When the Southborough Committee came out they of course considered the matter of the representation of urban and rural areas, and the recommendation made to them by this Government was that the distinctively urban areas in this province were to be found in Calcutta, Howrah and Dacca, and the riparian municipalities on the banks of the Hooghly. That, I think, is correct; all these areas have a distinctly urban character,

Resolutions.

Sir Henry Wheeler; Babu A. C. Datta.

far different from the ordinary district headquarters, which, even if it be Rampur Boalia, is little more than a large muffassal village. Calcutta and Howrah, on the other hand, Dacca, partly from its historical importance, and the mill municipalities are distinctly urban in type. Their ways of thought and manner of living are different from those of an ordinary rural village. That was our recommendation to the Southborough Committee, and it was accepted by them as regards the definition of urban areas, though for some reason best known to themselves, they raised the representation to be given to such areas. When the matter went before the Joint Committee the latter held that the Southborough Committee had overweighted the urban representation to the detriment of the rural, and we were asked to readjust the balance. It would, therefore, be impossible for us to propose more urban seats, quite apart from the fact that we and the Southborough Committee held that Chittagong and Rajshahi, which are not distinctively urban, ought not to have a separate representation of urban areas as distinct from rural."

The resolution was then put and lost.

LIST OF BUSINESS—ITEM No. 22.

The Hon'ble Babu Akhil Chandra Datta moved the following resolution :—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that necessary steps be taken to omit the words "during and" in paragraph 3 of Schedule II to the rules relating to the Provincial Legislative Councils, published in the *Calcutta Gazette* of the 19th May, 1920, Part IA, page 440.

He said :—

"My Lord, the fact is this: Under the rules that have been framed it has been enacted that those who pay cess, taxes and the rates of the year 1326 should be eligible for election that will take place in 1327. Unless that condition is fulfilled no man's name will be placed in the list of voters. The result has been, as I know as a matter of fact, the list has been curtailed to any extent, because it is well known that very few people pay the rent of the year before the expiry of the year. I know of some cases where the list has been reduced by half and some cases to one-fourth and this is not quite proper in the first year at least, because the people did not know that there would be a rule like this. But if the people knew that they would be able to exercise the right of franchise on payment of the cess or taxes as provided in the rule they certainly would have paid the cess or taxes in time. They did not know this and now it is too late for them. If they paid cess now that would not entitle them to vote. If this rule is adopted after the next election nobody would complain, but so far as this election is concerned it is only proper that that condition should be eliminated."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, the reason for wording in its present form the rule with which the resolution is concerned is largely a practical one. In a general constituency one qualification is the payment of cess or tax during, and in respect of, the previous year. The Hon'ble Member wants us to leave out the words "during and;" in other words he would eliminate any specified period within which the cess or tax must be paid, in which case a man could presumably be registered as a voter if he pays at any time up to the publication of the rolls. We did not consider it practicable to do this. We had

Resolutions.

Sir Henry Wheeler; Babu A. C. Datta; Babu S. C. Chakrabartty.

to go ahead with the preparation of the rolls, which were taken in hand in February, thus allowing ample time to pay the taxes during the previous year. We thought it absolutely necessary to fix a period which would permit of the roll being compiled on a definite basis. If the roll is to be left in a fluctuating condition right up to its final publication we considered that it would seriously complicate matters, while there is no real hardship in adhering to the rule as it has been framed."

The resolution was then put and lost.

LIST OF BUSINESS—ITEM No. 23.

The Hon'ble Babu Akhil Chandra Datta moved the following resolution :—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that such steps be taken as may be necessary to increase the number of non-Muhammadan general seats in the Reformed Bengal Legislative Council so as to make it conformable to the Lucknow compact.

He said :—

"My Lord, this is a compact which has been accepted as a matter of fact as the basis of the distribution of seats as between Hindus and Muhammadans by the Montagu-Chelmsford Report, by the Franchise Committee and also by the Joint Select Committee. According to this compact the proportion of Indian representation was 40 and 60—40 per cent. Muhammadans and 60 per cent. Hindus. We now know that the Muhammadan number is 40 and I think my figure is right because I found a list published in the *gazette* of the 16th June and in that list the number was shown as 40. If the number is 40, then according to the Lucknow compact the number of Hindu seats ought to be 60, but as a matter of fact that number is 55. Out of the 116 elected members 18 have been given to the Europeans and 3 to Anglo-Indians, and therefore if we deduct 21 from 116 there remain 95, and of this number if 40 go to the Muhammadans only 55 remain for the Hindus. This, I beg to submit, is not conformable to the Lucknow compact. Mr. Suhrawardy is not here. Had he been here I would have told him that I do not propose to decrease the number of Muhammadans. What I beg to submit is that the Lucknow compact which has been accepted may be acted upon."

The Hon'ble Babu Sarat Chandra Chakrabartty said :—

"My Lord, the Hon'ble Member has said that he does not like to decrease the number of Muhammadan seats, but he wants an increase in the Hindu seats; in this I give him my humble support. There has really been a great complaint that the number of non-Moslem seats in the province has been much less than what the Hindus ought to have got, considering their status in the country, their position and education. The number is much less, and as we want to increase the number of seats, without any proportionate decrease in the number of European, Anglo-Indian and Muhammadan seats, it is simply a question of recommendation by this Council to increase five or six more non-Moslem seats and allot them to Hindus. That will remove their grievance. With these words I support the resolution."

Resolutions.

Sir Henry Wheeler; Babu A. C. Datta.

The Hon'ble Sir Henry Wheeler said:—

"My Lord, I think I can easily set the Hon'ble Member's mind at rest. Practically his resolution asks that the Muhammadans should not have more seats than they are entitled to under what is known as the Lucknow compact, and of that intention there is not the slightest doubt, since the Joint Committee has definitely said that the recommendations of the Franchise Committee in respect of the adherence to the Lucknow compact may be accepted. The Hon'ble Member may, of course, ask if that is the intention, why has it not been followed in the scheme as it stands, which does show the Muhammadans with one seat in excess of the number justified by the Lucknow compact. I can easily explain that. When we sent up our proposals regarding the landholding interest, we recommended 7 members, but the Government of India cut it down to 5. That accounts for the present excess of 1 in the number of Muhammadan seats. Attention has been drawn to this fact by the Secretary of State, and it will be for the Joint Committee to readjust it. As a matter of fact, the composition of the Council with its conflicting interests has become a sort of jigsaw puzzle. There are the European, the Anglo-Indian interests, the landholding and commercial interests, and, as regulating the Muhammadans, the Lucknow compact, and all have to be kept in mind. Various people make various suggestions altering the total number of seats, and the relative proportions get upset. However, this can be put right, and about the Lucknow compact there is not the slightest doubt that the Joint Committee intended to adhere to it."

The resolution was then put and agreed to.

LIST OF BUSINESS—ITEM No. 24.

The Hon'ble Babu Akhil Chandra Datta moved the following resolution :—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that such steps be taken as may be necessary to substitute the words "which is governed by the Indian Factories Act, 1911 (XII of 1911), in receipt of a monthly wage amounting to Rs. 20 and not exceeding Rs. 80" for the words "which is a member of one of the affiliated associations of the Bengal Chamber of Commerce, in receipt of a monthly wage amounting to Rs. 25 and not exceeding Rs. 35" in paragraph 13 of Schedule II to the rules relating to Provincial Legislative Councils, published in the *Calcutta Gazette* of the 19th May 1920, Part IA, page 443.

He said :—

"My Lord, the complaint made in this resolution is this : That the franchise has been restricted only to wage-earners employed in those companies which are affiliated to the Bengal Chamber of Commerce ; that is a restriction that will exclude wage-earners employed in other companies. The intention was that all wage-earners should be given a representation, and not wage-earners of a particular district or area, or that wage-earners employed by certain companies should be given representation only. In that view, I think that this restriction may be removed."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, here again, I hope I can give the Hon'ble Member an explanation of our action which will commend itself to him. The resolution refers to the labour constituency, which I have previously referred to as rather a troublesome one—one which has given us a considerable amount of anxiety

we were out, and in which, in a sense, we are not yet satisfied that we have arrived at a solution which is above criticism; nor do I think, in the present condition of the country, we shall ever arrive at a fully satisfactory solution. In endeavouring to form an industrial wage-earning constituency we had first to decide the area which we would take up, and we confined it to the areas round Calcutta, which seemed to us to be distinctly industrial areas. We then had to consider what was about the maximum electorate which was in any sense manageable, and what was the best way to ensure the preparation of the electoral roll by a reliable agency. We thought that we could only compile anything like an accurate roll if we confined ourselves, at any rate at the beginning, to large concerns. If you frame a roll in the terms of the Factories Act, you bring in any concern which employs 50 persons or more, and you get in a multitude of petty concerns in which we shall never be able to register the voters. That is the sole reason for restricting the vote to employees of large concerns.

Then as regards the wage limit. We consulted the Jute Mills Association as to the probable number of voters we should get by taking a certain wage limit, and we worked it out that by taking Rs. 25 to Rs. 35 as the limits, we could get an electorate of 50,000. The figures have not been yet compiled, but the estimate is the best we could frame. If we put this wage limit between Rs. 20 and 80 instead of Rs. 25 and 35, we should get an electorate so large that it would be extremely problematical whether we could ever handle it.

These are the reasons for our proposals, and they are straightforward and simple ones."

The resolution was then put and lost.

LIST OF BUSINESS—ITEM No. 25.

The Hon'ble Babu Akhil Chandra Datta moved the following resolution:—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that such steps be taken as may be necessary to alter clause 3 (*1*) (*a*) of Schedule II of the draft rules published in the *Calcutta Gazette* of the 19th May, 1920, Part IA, page 440, so as to make a tenant in occupation of a house situated in any Municipal or Cantonment area qualified as an elector if he pays an annual rent of not less than Rs. 60.

He said:—

"My Lord, the position is this: Under the rules as framed, a large number of people who are now in occupation of houses as tenants paying monthly or yearly rents will be deprived of the vote. They will not have the right of suffrage. In most cases taxes are paid in the name of owners, and so far as the assessment list goes, it is the landlord's name which appears there, and therefore professional men and other people who occupy houses in urban areas as tenants will be excluded. This resolution contemplates the inclusion of those men in the electoral roll."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, the rule as now framed gives the franchise, practically, on the qualifications for the Municipal vote, that is to say, the payment of a certain minimum sum as rates will entitle a person to vote. What the Hon'ble Member asks us to do is to alter that basis of qualification to one of rental valuation of houses occupied, that is to say, that any person who

pays Rs. 60 a year as rent should have a vote. My objection to this is very much the same as to the previous resolution. How are we to compile the list? On the basis of municipal qualifications only we can compile a list of ratepayers, as we are only following the basis of municipal voting qualifications. But if we are to introduce rental valuations, it will be an exceedingly difficult thing to ascertain what rent a particular individual pays, and the trouble of compiling a roll will be increased enormously. It is a practical difficulty, therefore, which stands in the way of the resolution."

The Hon'ble Babu Sarat Chandra Chakrabartty said:—

"My Lord, as the hon'ble mover has pointed out, a very large proportion of the municipal population will be excluded if the present rules stand. In my own municipality of Dacca, there is a proportion of about half and half in the number of voters—that is to say, one-half of the voters are rate-payers paying a rate of Re. 1-8 per year each, and the other half are rent-payers each paying a rent of Rs 20 a year, but according to the rules as now framed, the rent-payers will be totally excluded, and it will be very unfair because a person paying Re. 1-8 a month as rate will have a vote, while a person paying even Rs. 1,000 a month as rent will not have a vote. So I beg to submit that it would be very unfair to a very large number of townspeople, who generally reside in rented houses, to be totally excluded from the franchise. As regards the Hon'ble Sir Henry Wheeler's remark that it would be very difficult to find out what is the exact rent a man is paying, I beg to point out that it would not be necessary at all to find that out. If the rent-payers become voters as well as the rate-payers, then I think there will be no difficulty about this. With these words I support the resolution."

The resolution was put and agreed to.

LIST OF BUSINESS—ITEM No. 26.

The following resolution stood in the name of the Hon'ble Babu Akhil Chandra Datta, namely:—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that necessary steps be taken to amend the draft rule relating to the qualifications of electors of non-Muhammadan and Muhammadan constituencies in Bengal for the Indian Legislative Assembly so as to confer the franchise upon any person paying income-tax, irrespective of the amount thereof.

He said:—

"My Lord, I do not wish to press this resolution. I would ask leave to withdraw it."

The motion was then, by [illegible] of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 27.

The Hon'ble Babu Akhil Chandra Datta moved the follow[illegible] tion:—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that necessary steps be taken to allot one more seat to Bengal in the Indian Legislative Assembly than is proposed in the draft rules and to allot one member each to the Chittagong and Rajshahi Divisions.

Resolutions.

Babu A. C. Datta; Sir H. Wheeler; Babu K. M. Chaudhuri.

He said :—

"My Lord, under the existing arrangements, if I remember right, Calcutta has been given two seats, the Presidency Division one seat and the other two divisions one seat each, viz., Dacca and Burdwan, but only one seat has been given to the two divisions of Rajshahi and Chittagong together. In other words, whereas the Presidency Division has got three seats, these two divisions have got one seat only. Our prayer is that one seat may be given to Chittagong and one to Rajshahi, as has been done in the case of the other divisions."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, this resolution has reference not the Provincial Council, but to the Legislative Assembly, and it is therefore somewhat out of place for this Council to pronounce an opinion upon it, since the composition of the Legislative Assembly rests with the Government of India who have to view the point in the light of the conflicting claims of the different provinces of India as a whole. What the resolution asks for is one more seat to Bengal, or rather, that is the important element in it, since the allocation of that seat is entirely a subsidiary matter. The crucial point is whether we, in Bengal, can rightly ask for one more seat in the Legislative Assembly. The Legislative Assembly is to comprise 103 elected members. In the provisional distribution which the Government of India published in January 1920, Bengal was to get 17 out of 100, the total being raised in February to 103. I would draw the attention of the Council to the fact that that was more than any other province got, only 16 being given to Madras, Bombay and the United Provinces, so we are already one above any other province. In the light of that fact, and on an examination of the merits, we gave it as our opinion that we could not fairly ask for more. Having already seen in financial matters what provincial jealousies mean, we may be certain that the same squabbles would arise if we try to get 18 seats. The extra seat has got to be taken from somebody else, and every province will protest. The percentage of 17 was already rather more than the percentage that was proposed in the earlier papers. The report on Indian Constitutional Reforms gave 16·4 per cent.; the Southborough committee made it 15·2 per cent. and the present proposal gives us 16·5 per cent. That being so, we think it is perfectly useless to ask for more."

The Hon'ble Babu Kishori Mohan Chaudhuri said:—

"My Lord, I support this resolution, because it may reasonably be apprehended that one of the divisions may go without representation on the Legislative Assembly. In that view, if Chittagong and Rajshahi be tacked together, and the numbers of voters in the Chittagong Division be very small, it may be that the Rajshahi Division only may get the representation. That is a difficulty which ought to be considered. Out of the six seats, two have been assigned to the Presidency Division, one to Burdwan, one to Dacca, and one to Rajshahi and Chittagong jointly. I think a recommendation may be made that one more seat should be allotted to the remaining division."

The resolution was then put and lost.

necessary to confer the right of electing members to the Reformed Councils upon all graduates in the general constituencies.

He said :—

"My Lord, I am perfectly aware that this question has been discussed from the very outset, but at the same time it is equally true that there is a very strong feeling in the country that there should be some such qualification introduced. There are many graduates who, under the existing rules, will not have the right of voting, because it so happens that in the case of joint-families the entire family is treated as one unit, for the purpose of franchise, and unless the graduate is the chief member of the family, he will have no vote. It is only proper that this most important class of people should have the right to vote. Of course, it has been said that only those people who have a stake in the country should have the right of voting, and on that ground it has been suggested that merely because a man is a graduate, he should not have the right to vote. At all events, that was the ground upon which, I think, your Excellency's Government acted in not accepting the recommendation for conferring the right of voting upon graduates, although it was moved not only by Indians, but also by some responsible Europeans. Now, my Lord, it is rather difficult to understand how it can be said that these graduates have no stake in the country. If the graduate has no property in the sense that being governed by the dayabhaga law he does not become the proprietor till after his father's death, he is practically as much the proprietor as the head of the family, and therefore he has substantial stake in the country. Then, my Lord, with your Excellency's permission, may I be permitted to say just one word about the ground that your Excellency urged the other day at Hooghly, that the principle of democracy is that one man is as good as another, and the vote of one man is quite as good as the vote of another man, I may say, that that is probably true in principle, but without going into the merits of this particular matter, I hope to be permitted to point out that this is a principle which, as a matter of fact, has not been adopted in our Reform rules. If the principle of democracy is pushed to its bitter end certainly it is so. My submission is that it has not been adopted as a matter of fact. If it had been adopted, then certainly graduates being as good men as any other, they also will have the vote. We have not got manhood suffrage ; we have made distinctions between man and man and that is a distinction about which there is no complaint. There must be some distinction and that is the position which has been accepted by all the people. The whole question is whether graduates, by whom I really mean persons having certain educational qualifications, might or might not have the vote. Therefore, my Lord, I move this resolution."

The Hon'ble Babu Sarat Chandra Chakrabartty said :—

"My Lord, I give my support to this resolution, and if the Council is not prone to accept it as it is, then I would propose to the Council to accept it in a modified form. Your Excellency knows that the Dacca University, which has been allotted one seat, will not be permitted to exercise that right before the University is started, and as I know that the University will not be formed till July 1921, the graduates of Eastern Bengal who will be benefited generally by the Dacca University will have no franchise. So, if my hon'ble friend accepts that modification I would amend it in this way, that the graduates of the Dacca district will elect one member to the Council, because as your Excellency knows they will not have any right for electing a member before July 1921. So I would request your Excellency to consider this aspect of the question."

Resolutions.

Sir Henry Wheeler; Babu A. C. Datta; Babu S rtty.

The Hon'ble Sir Henry Wheeler said:

"My Lord, I do not propose to deal with this resolution on its merits, as it is one of the matters which have already been judged, and the verdict has gone against the Hon'ble Member. As the Hon'ble Member himself admits, this question of giving votes to graduates, as such, was in the forefront right from the time when the Southborough Committee came out. The Southborough Committee considered it and they specifically discussed it with us, and they turned it down, preferring to adopt the general principle of the extension of the franchise to those who had a stake in the country. The graduate qualification, as such, was rejected. The point was again pressed before the Joint Committee, which declined to reopen the question. As I have already explained, we are merely working now on the adjustment of the scheme of the Southborough Committee to the extent that it has to be modified under the instructions of the Joint Committee, and it is absolutely no use trying to reopen a thing that has already been decided."

The resolution was then put and lost.

LIST OF BUSINESS—ITEM No. 29.

The Hon'ble Babu Akhil Chandra Datta moved the following resolution :—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that such action be taken as is necessary to have the number of seats allotted to the Calcutta University in the Reformed Bengal Legislative Council raised from one to three.

He said :—

"My Lord, although the resolution comes from a humble man like myself, really that is the complaint of that august body, namely, the University. On the existing Council out of 28 elected members the Calcutta University has got one member, but in the Reformed Council the number of elected members will be 116, *i.e.*, more than four times the present number, and yet so far the number of members given to the Calcutta University is only one. It can certainly be said that although one member is given to the Calcutta University another member is given to the Dacca University, and under existing conditions both the Calcutta and the Dacca Universities are represented by the same number. From that point of view my submission is that the number of elected members being four times, they are entitled to four members, and deducting from this number one seat, which has been granted to the Dacca University, the Calcutta University is entitled to the remaining three."

The Hon'ble Babu Sarat Chandra Chakrabartty said :—

"My Lord, my support is also under that condition that the Dacca University has been allotted one member and Calcutta one. I would urge that two more seats be allotted to the Universities without a proportionate decrease in the number of seats for the Dacca University. If my hon'ble friend makes a compromise, then with your Excellency's permission, I would propose that two seats be given to the Calcutta University and two to Dacca. I have spoken to my friend about it and I think he is willing to accept that compromise."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, I think it is beyond our province at this time to try and arrange between different university authorities as to the division of the number of seats. From the beginning the Southborough Committee proposed

that the Calcutta University should have one seat, which was in conformity with the representation accorded to universities of like standing in other provinces. The Joint Committee did not demur, and to propose now to raise it to three will be a substantial change, which we should not be justified in suggesting at this stage."

The resolution was then put and lost.

The Hon'ble Babu Akhil Chandra Datta moved the following resolution :—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that such action be taken as is necessary to amend Rule III (about general disqualifications for being elected) of the rules relating to Provincial Legislative Councils published in the *Calcutta Gazette* of the 19th May 1920, Part IA, page 431, by omitting clause (*d*) and by substituting the figures "18" for the figures "25" in clause (*f*) thereof.

He said :—

"My Lord, I do not propose to press the remaining portion of the resolution which substitutes the figures '18' for the figures '25.' The previous portion deals with the cases of legal practitioners who have been suspended or under order of suspension. Such legal practitioners have been disqualified from standing for election. It appears to me that there is really no corresponding provision in respect to other people. Suppose there is a Government servant who has been dismissed : there is no rule disqualifying the dismissed Government servant from standing for election. Therefore there is no reason why there should be this specially hard rule for legal practitioners. We all know how at the heat of the moment a Judge draws up proceedings suspending a legal practitioner, and although he may regret it later on, and he may eventually be exonerated, under the rules he will be disqualified from standing for election. This seems to me to be rather unfair for legal practitioners, especially in view of the absence of similar rules in respect of other dismissed officers.

With these few remarks I beg to commend the resolution to the acceptance of the Council."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, the Hon'ble Member rather speaks as if we are introducing an innovation. As a matter of fact the rule under which a dismissed or a suspended legal practitioner is incompetent to stand for election is in our existing rules. It is also in the rules governing election to the Imperial Legislative Council, and with regard to the possible hardship to which he has alluded I may remind him that this disqualification may be removed by an order of the Local Government. In those circumstances I fail to see that there is anything unfair in the provision."

The resolution was then put in the following form and lost :—

This Council recommends to the Governor in Council that a recommendation be made to the Government of India that such action be taken as is necessary to amend Rule III (about general disqualifications for being elected) of the rules relating to Provincial Legislative Councils published in the *Calcutta Gazette* of the 19th May, 1920, Part IA, page 431, by omitting clause (*d*).

LIST OF BUSINESS—ITEM No. 31.

The Hon'ble Babu Akhil Chandra Datta moved the following resolution:—

This Council recommends to the Governor in Council that steps be taken to extend the benefit of the Royal amnesty to all the remaining detenus, State prisoners and political prisoners and to release them without further delay.

He said :—

"My Lord, in this connection, I am anxious at the very outset to invite your Excellency's attention to the fact that although many of these internees have been released under the Royal amnesty, some 6 months ago, some about 4 and some 3 months ago, yet as a matter of fact we do know that these released people have ever abused the King's mercy that was conferred upon them. As a matter of fact, we know that there has been no recrudescence of the lawlessness, murder of policemen or anything of that sort. They have behaved themselves as well as any other law-abiding citizen, and I, therefore, think that it is just a matter for consideration whether most of our fears and misgivings are not more or less unfounded. There was a time, when on more than one occasion, I had the temerity to move resolutions of this character, and I was hooted and hissed and was told that if these men were released the British Empire would come to an end. We are now convinced that our misgivings were absolutely without any justification. If I had moved a resolution for the release of these internees in the third week of December last, certainly that proposition would not have found favour with many of us in this Council, but when under the King-Emperor's mercy these people have been released I think the result has quite justified the action taken by the King-Emperor. Therefore, my Lord, what is true in respect of the people who have already been released I hope and trust the same will be true about the other people who are still under detention, and I sincerely believe that if the remaining people are released they will not abuse the Royal prerogative."

The Hon'ble Sir Henry Wheeler said:—

"My Lord, there is one statement and one argument which have just been used by the Hon'ble Member which I specifically challenge. The first is that it may be said that among all these men to whom clemency has been shown under the terms of the Royal Proclamation there has been none whose conduct has been open to exception since they were thus treated. That I submit, Sir, is notoriously not the case, and conspicuous names must suggest themselves to Hon'ble Members of persons whose subsequent behaviour has scarcely accorded with their treatment under the amnesty. The second argument is that because we have been able to release some of these youths without a recrudescence of the outrages which disgraced the province in previous days, it is to be inferred that no restraint need ever have been exercised over them. That argument, Sir, I also challenge, though I am not going to retraverse the old controversy as to the guilt or innocence of these *détenus.*

The validity of the resolution seems to me to depend on the question, whether, looking at the terms of the Royal Proclamation, we have in this province fairly and squarely interpreted and given effect to them. The terms of the Royal Proclamation in this respect were as follows:—

"* * * I, therefore, direct my Viceroy to exercise in my name and on my behalf my Royal clemency to political offenders in the fullest measure which in his judgment is compatible with the public safety. I desire

Resolutions.

Sir Henry Wheeler.

him to extend it on this condition to persons who for offences against the State or under any special or emergency legislation are suffering from imprisonment or restrictions upon their liberty.'

That is the wording of the Proclamation, and it will be seen at once that it distinctly contemplates the scrutiny of individual cases and a decision upon them according to the merits of each. That is what has been done in this province, although it is merely, in fact, a continuation of the policy to which we have adhered ever since it became necessary to enforce these measures of restraint; that is to say, we have throughout enforced them to the extent and for the period only that it was necessary to do so. As soon as we considered it safe to relax restraint, we have consistently done so.

Now the persons treated under the Proclamation fall under three main categories. There are first of all State prisoners—those who have been restrained under Regulation III of 1818. Not to go too far back, the number of these on the 31st December 1918 was 103, and those who were so dealt with between the 1st January 1919 and the amnesty, 9, making a total of 112. Of this total of 112 we had, prior to the amnesty, released 48. Subsequent to the amnesty we have released 45, leaving a total of 19 who are still under restraint. The cases of these 19 youths have been most carefully, and on more than one occasion, weighed, especially since the Proclamation and before it also. They have been frequently interviewed by our officers, and we have done our utmost to arrive at a fair conclusion whether or not we can now safely set them at liberty. We have not as yet been able conscientiously to arrive at that decision, and that is a conclusion founded on the conversations and interviews which our officers have had with these youths, read with all other circumstances of their cases. They are not at present, to our mind, fit subjects for release, but should it so happen hereafter that their state of mind and views change, then we shall have no hesitation in treating them accordingly and removing the restrictions on them. But until we are satisfied on that point we shall not do more than what we have done; but already we have given effect to the Royal Proclamation in the most liberal sense.

The next category is that known as '*détenus*,' those who have been dealt with under the Defence of India Rules. The number of these on the 31st December 1918 was 651, and another 29 were so dealt with after the amnesty, making a total of 680. Before the amnesty we had released 482, and since the amnesty we have released 198, so in relation to them the resolution is meaningless, as there are now no *détenus*.

The last category is that too frequently carelessly referred to as 'political' prisoners, but who in reality were members of revolutionary societies connected with the seditious movement who had been convicted of various offences under the ordinary law. Of these there are at present in jail 47, and, strictly speaking, their cases do not fall within the wording of the Royal Proclamation, since they were convicted of ordinary offences against the ordinary law. We, however, did not wish to exclude their cases altogether from the possibility of clemency, and we have reviewed most of them and are in process of reviewing others. There are one or two doubtful cases in which we are enquiring further whether it is possible for us to show mercy. It will depend on further scrutiny of the records and on further interviewing with the men themselves. But these cases are in the minority. In the majority of these cases we do not feel justified in exempting from the ordinary operation of the criminal law those men who had been punished under it: and the slightest scrutiny of the kind of offences for which these men are at present suffering imprisonment will convince any reasonable person on that point. These men were implicated in ordinary crimes, and

Resolutions ; Adjournment.

Sir Henry Wheeler.

there is no obvious reason for showing clemency to them. In this category, therefore, there are a few doubtful cases, but the majority do not permit of doubt.

That being so, Sir, I contend that effect has already been given to the Royal Proclamation to the fullest extent within the limits of public safety, and we cannot agree to go further than we have gone."

The resolution was then put and lost.

The Council was then adjourned *sine die.*

CALCUTTA

The 4th/11th September 1920.

CHAS. A. BENTLEY,

Sanitary Commissioner for Benga

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for August 1920.

I. **Character of the season.**—During the month under report the rainfall was above the normal in 13 districts only; elsewhere the fall was defective. It was markedly so in Faridpur, Bakarganj, Noakhali, Rajshahi and Dinajpur. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of jute and transplantation of winter paddy was in progress, but the operations were hampered in some districts of North Bengal owing to inadequate rainfall and low river levels. In the flood-affected areas of the Midnapore district retransplantation of winter paddy continued where the water had subsided sufficiently. The harvesting of broad-cast *aus* paddy has been almost completed.

III. **State of standing crops.**—The condition of jute was reported to be generally fair throughout the province and that of autumn paddy, sugarcane and other standing crops favourable.

IV. **Prospects and probable outturn.**—The outturn of autumn paddy has been satisfactory. The prospects of winter paddy, sugarcane and other standing crops are generally hopeful, with the exception of jute which is fair only.

V. **Damage to standing crops.**—Some damage by insect-pests to jute and other standing crops was reported from parts of Nadia, Murshidabad, Jessore, Bakarganj and Pabna. Slight damage was also caused by rise of the river to transplanted winter paddy in some char-lands of the Mymensingh and Jessore districts. Portions of the Midnapore district were affected by floods and transplanted paddy and other standing crops were damaged to a considerable extent in the affected areas.

VI. **Condition of agricultural stock.**—Sporadic cases of cattle-disease were reported from 14 districts of the province.

VII. **Failure of pasturage and fodder.**—No scarcity of fodder was reported from any part of the province.

VIII. **Prices of food-grains.**—During the second half of the month under review the price of common rice rose in 6 districts, fell in 4 and remained stationary in the rest of the province. It ranged from 4 seers 4 chitaks per rupee at Darjeeling to 6 seers at Birbhum.

IX. **Condition of agricultural people.**—The condition of the agricultural population was fair.

Director of Agriculture, Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 16th September 1920.

Summary.—During the week heavy rain fell in North and East Bengal; the fall was generally light to moderate elsewhere. More rain is needed in some West Bengal districts for the transplantation of paddy seedlings and for the growth of other standing crops. Harvesting of autumn paddy is nearly over. Weeding of winter paddy is proceeding. Cutting, steeping and washing of jute and transplanting of winter paddy are still going on in places. Floods have caused some damage to standing crops in parts of Rangpur, Bogra and Mymensingh. Prospects of standing crops are good. The average price of common rice for the Province has risen by about 0·56 per cent. as compared with that of previous week.

GEOGRAPHY.

For use in the upper classes of High Schools in Bengal.

The teaching of this subject, by whatever method is adopted, must in every case be supplemented by the use of maps, charts and pictures. Teachers should consult the "Teachers' List" and apply to leading publishers for their lists, as these are now comprehensive and specially adapted to the needs of Indian schools. Such pictures as "Scenes from other lands" (Macmillan) are suitable for school work, are interesting to children and bring brightness and colour to the class room. Head Masters are requested to see that all the school maps and pictures are on view every day and not stored in office rooms.

The following books are recommended as indicating the methods of study as well as the standard of knowledge required:—

E. Marsden ...	Geography for Senior Classes, Parts I and II.

The World, with full treatment of India (Longmans' Geographical Series for India, Book II).

F. D. Unstead ...	The Practical Geography, Parts I and II

The following books are recommended for the use of teachers:—

Blanford ...	The Rudiments of Physical Geography for the use of Indian Schools.
Frew ...	A Regional Geography of the Indian Empire (Blackie and Son).
Wallis ...	The Teaching of Geography (Cambridge University Press).
O'Malley .	Bengal, Bihar and Orissa, Sikkim (Macmillan & Co.).

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools:—

A. E. Frye ...	The Child and Nature.

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list:—

I—(the total cost need not exceed Rs. 65)—

1. A measuring tape.
2. A magnetic compass.
3. Squared paper and tracing paper.
4. Clay, dry sand, paper pulp for modelling.
5. A globe, not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude, and outlines, only of the land masses, marked upon it.
6. A map of the school locality on a scale of 4″ or 6″ = 1 mile.
7. A map of the district in which the school is situated on the scale 1″ = 1 mile
8. A coloured map of the province.
9. A coloured political map of India.
10. A physical map of India.
11. A relief map of India.
12. A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand-maps, and with a drawing instrument box Maps for school work should not contain too much detail, or be crowded with names.

II. The following additional equipment is recommended when it can be provided, but that lack of it is not to be considered as a bar to the recognition of the school in Geography:—

1. A thermometer.
2. A mercury barometer.
3. A rain-gauge.
4. A small collection of typical rocks, in particular, those of the province and of India.
5. A small museum of typical products.
6. A good standard atlas.
7. Geographical pictures.
8. Magic lantern and slides.

1. The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Datta; Head Pandit, Habiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Philip and Son, London, W., and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London.

Small hand globes of German make can be obtained through the Indian School Supply Depôt for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Stanford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which includes maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterji publishes District maps; also ordinary and relief maps of the province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong cardboard, named on one side, and the same map without names on the reverse, published by Armand Colin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps showing river systems and a few towns, published by the same Company, are excellent for class use.

The Autograph hand maps, with hill shading in brown, published by Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the world on Mollweide's equal area projection is specially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Messrs. Hachette of Paris and Messrs. Holzel of Vienna, and Messrs. Longmans, Green and Company. They cost, delivered in India, from two to three rupees each.

Map lantern slides and view slides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr Bartington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.

NOTE.—The above list is not exhaustive, and much of it might be replaced by simpler forms th could probably be made far more cheaply by any clever mistry under proper supervision. In most case however, it will probably be found advantageous to buy such a set as indicated in the list specially fo demonstration purposes, and subsequently to develop simplified duplicates, illustrating the same principl which the boys should be given opportunity actually to experiment with on their own individual accou or working

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop of Bengal for 1920.

(Note.—On an average of the five years ending 1918-19 the area under jute to which this forecast relates represents 88·2 per cent. of the total area under jute in British India.)

Season.—The outstanding feature of the season is that the rainfall was very unevenly distributed throughout the Presidency both at the time of sowing and during the period of growth. The beginning of March was too wet in Eastern and Northern Bengal, and April and May, on the other hand, proved to be too dry for Western Bengal. Consequently the sowings which began at the usual time finished very late, the operations being delayed a good deal all through these months. For these reasons the early sown crop was so much affected in places that a large area had to be re-sown later. Good weather conditions, however, prevailed during June. This helped for a time the growth of the crop and enabled further sowings to be made in parts of Western Bengal. A weak monsoon over the greater part of the Province during July and August had an injurious effect on the crop which flowered prematurely and consequently became stunted in growth. Good rain in August saved the *deshi* crop in Western Bengal. Lack of sufficient water for retting of jute was also felt at the beginning, but this difficulty was removed by abundant rainfall at the beginning of September. The season, on the whole, was not favourable to the crop.

Condition of the crop.—Owing to the unfavourable season the crop outturn is a fair one in Western Bengal, but moderate only in parts of Northern and Eastern Bengal.

Acreage.—The area under jute is returned at 2,205,323 acres, a decrease of 292,822 acres or 11·7 per cent. as compared with last year's final figures. The decrease is ascribed chiefly to (1) unfavourable weather conditions, (2) low price of jute and the uncertainty of future prices, (3) the high price of paddy, sugar and other foodstuffs which induced cultivators to substitute these crops.

Outturn.—As in previous years, the percentage figures are calculated on the basis of Divisional normals, which remain as follows:—Dacca and Chittagong 3·7 each, Rajshahi 3·5, Presidency and Burdwan 3·2 bales per acre.

The total outturn of the Bengal crop is returned at 5,304,836 bales of 400 lbs. against 7,637,630 bales in last year's forecast, a decrease of 2,332,794 bales.

24-Parganas ...	63,309	47,712	83	84·2	167,812	128,877	Middle of August. Normal.	The decrease in area is due to want of time rainfall, the rise in the price of rice a sugarcane and the low price of jute.
Nadia ...	67,105	58,163	71	66	154,334	123,429	August. Normal ...	The decrease in area as compared with la year is due to low price of jute and hig price of rice. The outturn is below t normal owing to damage of the crop b insects.
Murshidabad	20,896	15,111	94	112	62,455	53,922	End of August. Late	The decrease in area as compared with la year is due to uncertainty of the ju market and the relative rise in the pric of food-grains. Weather conditions ha been favourable for the crop throughou the district and hence the outturn is bett than last year.
Jessore ...	84,637	59,350	88	84	259,644	159,164	Last week of August. Rather late.	The increase in area as compared with t figure shown in the preliminary forecast due to revised figures submitted by t Subdivisional Officers after furth enquiry. The falling off in the outtu is due to unseasonable and indifferen rainfall and the presence of insect-pes in certain parts of the district.
Khulna ...	21,668	9,880	90	78	62,659	24,605	August. Normal ...	Late sowing and unfavourable weather co ditions retarded growth of the crop
Burdwan ...	6,630	5,721	89	101·87	18,904	18,671	Third week of August. Normal.	Unfavourable market last year and want sufficient rain during sowing sea account for the reduction of area t year; but the yield has made this up.
Midnapore ...	11,948	7,983	81·25	74	31,074	18,937	September. Late ...	The decrease in area is due to want of rain sowing time Unfavourable weather an the floods of July and August accou for the falling off th outturn.
Hooghly ...	30,882	26,359	93·73	91·15	92,568	76,606	Last week of August	The decrease in area as compared with that of last year is due to— (i) High price of paddy. (ii) Deficient rainfall at sowing time. (iii) Uncertain and low prices of jute.
Howrah ...	9,820	9,674	86·81	90	27,884	27,968	Last week of August. Normal.	The weather has been fairly favourable f the growth of the crop.
Rajshahi ...	73,587	80,407	88	60	227,088	170,149	[illegible] in July for low lands and early in September for high lands. Late.	Increase in area is due to an expectation a good market of jute. The weather wa unfavourable from the beginning. Th outturn is much lower than last year.
Dinajpur ...	60,978	65,619	91·7	58·5	196,923	134,355	Middle of August ...	The increase in area is due to an expecta tion of a good market as the amount c carry over of old jute in this district wa very small. The decrease as compare with the preliminary forecast is due to th fact that most of the jute fields which di not yield a crop on account of unfavourabl weather were ploughed up for paddy tran plantation. The yield falls much below th divisional normal owing to insufficien rain.
Jalpaiguri ...	49,306	55,289	101	80	174,296	154,809	Middle of August. Normal.	The crop was stunted in growth owing t accumulation of water in the fields in it early stage and consequently the outtur was low. The decrease in area as com pared with the preliminary forecast i due to revision of estimates after carefu checking.
Darjeeling ...	3,315	2,803	108	105	8,000	8,530	First week of August. Normal.	Weather condition was favourable on th whole. Crop slightly better than last year
Rangpur ...	267,664	241,454	103	75	754,076	633,817	August. Late ...	The crop was adversely affected by wan of rain in the early part of the season. Th decrease in area as compared with the fir forecast is due to revision of estimate after careful checking.

...gra ...	69,945	74,730	80	57	195,846	149,460	Middle of July Normal.	The low outturn is due to want of timely rains and damage by hailstones in certain parts of the district This year's acreage has been revised after careful checking.
...bna ...	103,010	96 138	88	67	317,270	226,116	Middle of July. Normal.	The low outturn is due to unfavourable weather. Some damage was done by insect-pests.
...alda ...	26,600	19 000	66	52·86	61,180	35,150	Middle of August Late.	The increase of area by 2,000 acres over the preliminary forecast is due to the fact that figures from defaulting unions have now been included in the present forecast. The weather was unfavourable at the time of sowing and weeding which affected growth of the crop. Difficulty had been felt in steeping jute for want of sufficient rains but this has been removed by the recent rains and floods
...ooa ...	253,517	244,211	85	70	879,677	628,176	Middle of July Normal.	For want of timely rainfall the early sown crop did not thrive well The outturn is therefore poor
...mensingh ...	628,964	558,351	87	63	2,021,450	1,258,975	End of July. Normal	The decrease in area is due to the rise in the price of paddy and fall in the price of jute last year. The crop was affected by long drought and hailstorms after sowing Want of rain later on retarded the growth of the plants which flowered early Difficulty was also felt in steeping jute. Hence a poor outturn.
...idpur ...	288,400	219,100	84	79	801,040	643,334	Middle of July. Normal.	Outturn falling below the normal is due to drought in April and May.
...karganj ...	56,633	37,6 3	77	73	161,476	101,797	July. Early	The reasons for the low outturn are— (1) A long spell of dry weather in April and May retarded the growth of the crop and also caused premature flowering. (2) Early harvesting of the crop.
...ittagong ..	200	200	81	105	600	791	Last week of August	Weather was seasonable.
...pera ...	266,641	218,280	80	50	783,126	403,906	First week of July. Early.	Owing to a dull jute market last year and considerable quantity of jute remaining unsold in the hands of cultivators and middlemen, a smaller area has been sown this year. Excessive rainfall in March and April last destroyed jute seedlings in low-lying places and left too much moisture in the fields for the seeds subsequently sown to have a healthy growth. The long spell of drought that followed also injuriously affected the crop. Thirdly owing to insufficiency of flood water harvesting was retarded for a time.
...akhali ...	54,500	36,144	65	49	130,800	65,419	Beginning of July Early.	The decrease in area as compared with last year is due to large quantity of old stock, low price of jute and high price of paddy The area as estimated now is based on the result of local inquiry made since the submission of the preliminary forecast. The cultivation and growth of the crop was adversely affected by the heavy rainfall at sowing time and continued drought afterwards.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Final Forecast of the Jute Crop of Bihar and Orissa, 1920.

(Note.—On an average of the five years ending 1918-19, the area under jute to which the Bihar and Orissa forecast relates, represents about 8·2 per cent. of the total area under jute in British India.)

Acreage.—The final district returns of the seven jute-growing districts of the province show an area under jute of 178,750 acres or in round numbers 178,800 acres, as compared with 177,800 acres reported in the preliminary forecast, 1920, and 203,400 acres last year. The decrease in area was mainly in Purnea, where it was attributed to the rise in the price of paddy and fall in the price of jute. Insufficient rainfall at the time of sowing restricted sowings in Champaran and the Santal Parganas.

Weather conditions.—In March the rainfall was above the normal in all jute districts. But in April to June it was below the normal everywhere. In July the rainfall was below normal in Purnea, Bhagalpur and Muzaffarpur and above normal in Cuttack, Balasore, Champaran and the Santal Parganas. In August it was below the normal in all jute districts excepting Balasore, where it was above normal. The short rainfall in Purnea throughout the season has affected the crop and water is also wanting in parts of the district for retting the crop. Some damage was done by floods in Cuttack and Balasore. The season has not been favourable for the crop this year on the whole.

Outturn.—In the important districts of Purnea and Cuttack the outturn of the crop has been reported as 60 and 75 per cent., respectively. Champaran reports a normal crop. Balasore, Muzaffarpur, Bhagalpur and the Santal Parganas report 90, 66, 70 and 72 per cent., respectively.

On the basis of the area and percentage outturn reported by the District Officers and taking three bales as the normal outturn per acre, the total gross outturn of the crop for the Province this year comes to 334,485 bales or in round numbers 334,500 bales against 512,500 bales, the revised figure for last year.

The average import of raw jute into this province from Nepal during the last three years was equivalent to 63,871 bales. This figure added to the figure for the province arrived at gives a total for Bihar and Orissa of 398,356 bales or in round numbers 398,400 bales.

The condition of the crop was not favourable in the beginning of the season owing to scanty rainfall in May. The showers of June, however, improved the prospect of the crop. But the deficient rain in August, so far, affected the outturn of the crop and also retarded the sleeping of the plant in many places. The decrease in the area sown is due to fall in the price of jute. The date of harvesting was a little late.
	Santal Parganas	3,450,480	1,701,600	3,160	1,700	900	100	72	5,100	1,944	Latter part of August.	The decrease in area is noticeable in Pakaur, where the area sown is 100 acres against 800 acres in last year. The Subdivisional Officer explains that this is due to want of rain during the first and second week of June. Rainfall being late the plants did not thrive and hence the outturn is poorer in comparison with that of last year.
Orissa	Cuttack	2,349,307	1,223,500	17,300	18,500	18,000	89 (a)	75	49,395 (a)	40,500	First week of August which is normal.	The weather was at first very favourable for a bumper crop all over the district but prolonged high floods during July and August damaged the crops in the Jajpur subdivision very seriously, and elsewhere also in varying extent; hence the total figure for the district is low.
	Balasore	1,333,031	982,200	2,600	2,480	2,100	90	90	6,694	5,670	Not yet begun	The weather conditions were favourable. The general prospect was hopeful. The decrease in area than last year and decrease in outturn than normal are due to floods which destroyed the crops on the banks of the rivers.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

Final Forecast of the Jute Crop of Assam, 1920.

(Note.—On the average of the five years ending 1918, the area under jute in Assam represents some 3·8 per cent. of the total area under jute in British India.)

1. **Season.**—As indicated in the preliminary forecast, excessive rain at the sowing time diminished the area sown and the dry weather of April and May was unfavourable for growth. The weather in June and July improved prospects, but too much damage had been done already.

2. **Area.**—The area under jute as reported by the Deputy Commissioners is 118,200 acres against the final figure of 137,300 acres of last year and 125,100 acres shown in the preliminary forecast of this year. The decrease is due to unfavourable weather conditions and low prices. Five districts have revised the areas reported in the preliminary forecast.

3. **Outturn.**—The percentage of outturn is estimated to be 66 of the normal against 73 (revised) in last year.

On the basis of the area and percentage outturn and taking 3·3 bales of 400 lbs. as the normal yield per acre, the total gross yield of the Assam crop this year comes to 259,000 bales against 332,400 bales, the revised figure for last year, or a decrease of 22 per cent.

Director of Land Records and Agriculture, Assam.

...	16,000	26,100	14,200	68	60	58,600	28,200	Beginning of September. Late.	The decrease in area as compared with the actual of last year is due partly to excessive rain at the time of sowing and partly to the low price of jute which has been replaced by rice in many places. The weather has been unfavourable.
[illegible] ...	42,400	63,000	55,000	81	50	120,800	90,700	Latter part of June. Early.	The decrease in area is due to the fact that a very large stock remained last year with the cultivators on account of the low price. The weather was unfavourable at sowing time and it continued so throughout the season; floods and hailstorms damaged the crop to some extent.
